# **Contents**

## **Chapter 1. Antenna Selection and Description**

|   |     |
|---|-----|
| 1.1 Antenna Selection.....                        | 1-1 |
| 1.2 Antenna Selection Criteria.....               | 1-6 |
| 1.3 Antenna Accessories for Enterprise WLANs..... | 1-7 |

## **Chapter 2. Product Compatibility**

|                                      |     |
|--------------------------------------|-----|
| 2.1 FCC Compliance.....              | 2-1 |
| 2.2 FCC Approval Statement.....      | 2-3 |
| 2.3 FCC USA Compaibility Matrix..... | 2-6 |
| 2.4 Antenna Suite Summary .....      | 2-8 |

## **Chapter 3. 2.4 GHz Single Band Antenna Suite**

|  |     |
|--|-----|
| 3.1 Supported 802.11b/g/n Antenna Suite..... | 3-1 |
|--|-----|

## **Chapter 4. 5.2 Ghz Single Band Antenna Suite**

|   |     |
|---|-----|
| 4.1 Supported 802.11a/n Antenna Suite ..... | 4-1 |
|---|-----|

## **Chapter 5. 2.4GHz - 5.2GHz Dual Band Antenna Suite**

|  |     |
|--|-----|
| 5.1 Supported 802.11a/b/g/n Dual Band Antennas ..... | 5-1 |
|--|-----|

## **Chapter 6. Antenna Cables**

|                                    |     |
|------------------------------------|-----|
| 6.1 Supported Antenna Cables ..... | 6-1 |
|------------------------------------|-----|

## **Chapter 7. Supported Antenna Adapters**

|                              |     |
|------------------------------|-----|
| 7.1 Supported Adapters ..... | 7-1 |
|------------------------------|-----|

## **Chapter 8. Supported Lightning Arrestors**

|                               |     |
|-------------------------------|-----|
| 8.1 Lightning Arrestors ..... | 8-1 |
|-------------------------------|-----|

## **Chapter 9. Mounting Kits**

|                                |     |
|--------------------------------|-----|
| 9.1 Mounting Kit Support ..... | 9-1 |
|--------------------------------|-----|

## **Chapter 10. AP-5131 Antenna Connections**

|  |      |
|--|------|
| 10.1 2.4 GHz AP-5131 Antenna Connections ..... | 10-2 |
| 10.2 5 GHz AP-5131 Antenna Connections .....   | 10-9 |

## **Chapter 11. AP300 Antenna Connections**

|  |      |
|--|------|
| 11.1 2.4 GHz AP300 Antenna Connections ..... | 11-1 |
| 11.2 5 GHz AP300 Antenna Connections .....   | 11-8 |

## **Chapter 12. AP7131 Transmit Power**

|  |       |
|--|-------|
| 12.1 Configuring the AP7131 Series Transmit Power .....  | 12-1  |
| 12.2 US Regulatory Domain 2.4 GHz Band .....             | 12-8  |
| 12.3 US Regulatory Domain 5.2 GHz Band .....             | 12-13 |
| 12.4 Japanese TELEC Regulatory Domain 2.4 GHz Band ..... | 12-23 |
| 12.5 Japan TELEC Regulatory Domain 5.2 GHz Band .....    | 12-27 |

## **Chapter 13. AP650 Regulatory Domains**

|   |       |
|---|-------|
| 13.1 US Regulatory Domain 2.4 GHz Band .....          | 13-1  |
| 13.2 US Regulatory Domain 5 GHz Band .....            | 13-6  |
| 13.3 Japan TELEC Regulatory Domain 2.4 GHz Band ..... | 13-16 |
| 13.4 Japan TELEC Regulatory Domain 5 GHz Band .....   | 13-22 |
| 13.5 EU Regulatory Domain 2.4 GHz Band .....          | 13-34 |
| 13.6 EU Regulatory Domain 5 GHz Band .....            | 13-39 |

## **Chapter 14. RFS4011 Regulatory Domains**

|  |       |
|--|-------|
| 14.1 US Regulatory Domain 2.4 GHz Band .....     | 14-1  |
| 14.2 US Regulatory Domain 5 GHz Band .....       | 14-5  |
| 14.3 Canada Regulatory Domain 2.4 GHz Band ..... | 14-13 |
| 14.4 Canada Regulatory Domain 5 GHz Band .....   | 14-17 |
| 14.5 EU Regulatory Domain 2.4 GHz Band .....     | 14-25 |
| 14.6 EU Regulatory Domain 5 GHz Band .....       | 14-29 |
| 14.7 Japan Regulatory Domain 2.4 GHz Band .....  | 14-37 |
| 14.8 Japan Regulatory Domain 5 GHz Band .....    | 14-41 |

## **Chapter 15. AP-6511 Regulatory Domains**

|  |      |
|--|------|
| 15.1 US Regulatory Domain 2.4 GHz Band ..... | 15-1 |
| 15.2 US Regulatory Domain 5 GHz Band .....   | 15-2 |
| 15.3 EU Regulatory Domain 2.4 GHz Band ..... | 15-3 |
| 15.4 EU Regulatory Domain 5 GHz Band .....   | 15-4 |

## **Chapter 16. AP-621 and AP-6521 Regulatory Domains**

|   |       |
|---|-------|
| 16.1 AP-621 (Standard Power) US Regulatory Domain 2.4GHz Band ..... | 16-1  |
| 16.2 AP-621 (Standard Power) US Regulatory Domain 5GHz Band .....   | 16-5  |
| 16.3 AP-6521 (High Power) US Regulatory Domain 2.4GHz Band .....    | 16-13 |
| 16.4 AP-6521 (High Power) US Regulatory Domain 5GHz Band .....      | 16-17 |
| 16.5 AP-621 (Standard Power) EU Regulatory Domain 2.4GHz Band ..... | 16-25 |
| 16.6 AP-621 (Standard Power) EU Regulatory Domain 5GHz Band .....   | 16-29 |
| 16.7 AP6521 (High Power) EU Regulatory Domain 2.4GHz Band .....     | 16-37 |
| 16.8 AP-6521 (High Power) EU Regulatory Domain 5GHz Band .....      | 16-41 |

## **Appendix A.Techical Support**

# About This Guide

## Introduction

This guide provides a Professional RF engineer a catalog of antennas, parts, and accessories to complete a customized RF installation of Motorola Solutions Enterprise Access Points. This guide specifically addresses the antennas used for 2.4 GHz, 5.2 GHz and dual band antenna implementations for *Wireless Local Area Networks* (WLANs).

It's important to understand that antenna and accessory selection should be qualified by on-site verification with the actual components used. Signal attenuation is cumulative with each connection and component added between the antenna and the radio, so careful study and planning should be used to verify the given arrangement ensures a compliant installation.

**NOTE:** Illustrations displayed in this guide are samples and can differ from the actual antenna.

## Document Conventions

The following conventions are used in this document to draw your attention to important information:

**NOTE:** Indicate tips or special requirements.

**CAUTION:** Indicates conditions that can cause equipment damage or data loss.

**WARNING!** Indicates a condition or procedure that could result in personal injury or equipment damage.

## **Notational Conventions**

The following additional notational conventions are used in this document:

- *Italics* are used to highlight the following:
  - Chapters and sections in this and related documents
  - Dialog box, window and screen names
  - Drop-down list and list box names
  - Check box and radio button names
  - Icons on a screen.
- **GUI** text is used to highlight the following:
  - Screen names
  - Menu items
  - Button names on a screen.
- bullets (•) indicate:
  - Action items
  - Lists of alternatives
  - Lists of required steps that are not necessarily sequential
- Sequential lists (those that describe step-by-step procedures) appear as numbered lists.

# 1

## ***Antenna Selection and Description***

### **1.1 Antenna Selection**

While several antennas may work in a given environment, some will provide better coverage than others. Using the right antenna in the right location will maximize both the performance and coverage of your network. Understanding the key characteristics that describe how an antenna sends and receives radio frequency signals is critical to finding the ideal antenna for your deployment. This guide supports the antennas used for AP-5131, AP-5181, AP-7131 and AP-6511 model access points, AP650 and AP300 (non-integrated antenna) model access port and the RFS4011 Integrated Services Controller.

Motorola Solutions Enterprise Wireless LAN products operate in the 2.4 GHz and 5 GHz ISM bands allocated for unlicensed use. Access point and access port products available today support either the 802.11b/g/n or the 802.11a/n standard, or both. Wireless devices conforming to the 802.11b/g standard operate in the 2.4 GHz ISM band, while 802.11a devices operate in the 5 GHz band. The antennas in this guide are grouped according to the frequency band they support. Some antennas are designed to operate within either band. These antennas (described as "Dual-band") may be connected to radios operating in either the 2.4 or 5 GHz bands, although a single antenna may not be connected to two radios at the same time.

### 1.1.1 Connector Types and Definitions

There are combinations of antenna types and cables required to provide a satisfactory connection to the AP. One confusing factor is “reverse polarity”. Reverse polarity is the FCC's requirement for each WLAN manufacturer to have unique access point connectors. Motorola Solutions had previously standardized our offerings for access points/ports:

- 2.4 GHz is Reverse polarity BNC female (RP-BNC-F)
- 5 GHz is reverse polarity SMA female (RP-SMA-F)
- Dual Band is reverse polarity SMA female (for AP-5131), and N-Female (for AP-5181).

**NOTE:** Reverse polarity presents confusion because of a lack of a standardized definition from connector manufacturers. Reverse polarity provides a center element, which should not be confused with a male connector. A male connector is defined by the outer jacket of the connector rather than the center element.

The following are the connectors used within this guide:

**Figure 1.1 RP-BNC-F**

**Figure 1.2 RP-BNC-M**

**Figure 1.3 RP-SMA-F**

**Figure 1.4 RP-SMA-M**

Additionally, antennas deployed outdoors and industry standard accessories (like lightening arrestors) use Type-N connectors (as displayed below). Therefore, with the combinations devices required (access points/ports, antennas, cable extensions, and lightening arrestors), various adapter cables are required to connect an antenna to an access point/port.

**Figure 1.5 Type N-F**

**Figure 1.6 Type N-M**

### **1.1.2 Indoor and Outdoor Antennas**

One important aspect of an antenna is whether it is weather sealed to protect it from the environment. Because of this extra protection, outdoor antennas are typically more expensive than those rated for indoor use. Outdoor antennas can be used for indoor applications, such as freezers and cooler where moisture is common. Outdoor antennas can be used for indoor applications, but indoor applications should not be used in outdoor applications.

One common distinction of outdoor antennas is the connector. Since lightning protection is always advised for outdoor antennas, these antennas typically have Type N Male to directly attach the lightning arrestor. This is true of 2.4 GHz, 5 GHz, and dual-band outdoor antennas.

### **1.1.3 Spectrum and Part Number Designations**

The antennas listed in this document are ultimately referenced by part number. A numerical sequence is used within each antenna's part number to identify the spectrum supported by the antennas.

- The antenna part numbers with a 2499 indicates a 2.4 GHz antenna. For more information on the 2.4 GHz antenna suite, see *2.4 GHz Single Band Antenna Suite on page 3-1*.
- The antenna part numbers with a 5299 indicates a 5 GHz antenna. For more information on the 2.4 GHz antenna suite, see *5.2 Ghz Single Band Antenna Suite on page 4-1*.
- The antenna part numbers with a 2452 indicates a dual band antenna (2.4GHz and 5 GHz). For more information on the 2.4 GHz antenna suite, see *2.4GHz - 5.2GHz Dual Band Antenna Suite on page 5-1*.

### **1.1.4 Extended AP to Antenna Cable Lengths**

Most indoor antennas are intended to be mounted directly to the AP's connectors. Some mounting arrangements call for positioning the AP a significant distance away from the antenna due to serviceability or other reason. In these situations, various adapters and cable extensions are required.

In these situations be mindful of:

- The connector on the AP
- The connector on the antenna
- The spectrum being implemented
- Signal loss due to multiple connectors and long cable lengths

Combinations of these attributes present different parts required to complete the connection. The Product Compatibility matrix addresses the parts required to make a proper connection. For more information, see *FCC Compliance on page 2-1*.

## 1.2 Antenna Selection Criteria

In addition to antenna frequency, there is other criteria to consider when selecting an antenna.

### 1.2.1 Antenna Pattern

#### 1.2.1.1 Omni-Directional

Signal radiates from the antenna in all directions on the horizontal plane.

#### 1.2.1.2 Directional

Signal radiates in a specific direction, typically described as a beam of given width, expressed in degrees in the horizontal and vertical plane. For more information, see [Azimuth 3dB Beamwidth on page 1-7](#) and [Elevation 3dB Beamwidth on page 1-7](#).

### 1.2.2 Antenna Type

#### 1.2.2.1 Panel

A panel antenna is a flat antenna mounted to a wall or other vertical surface and radiates RF energy (radio waves) directionally away from the wall. They usually have gain greater than 5 dBi and are not suitable for omni-directional situations. Ideally suited for long hallways.

#### 1.2.2.2 Patch

A patch antenna is a flat antenna mounted on the ceiling but whose pattern is omni-directional. Most of the energy goes out horizontally to the sides of the antenna and equal in all directions.

#### 1.2.2.3 Dipole

A dipole antenna is a tubular antenna that can be either a pipe shape, a straight flexible rod or a paddle. This antenna has an omni-directional pattern when placed in a vertical position. It usually has 2 dBi of gain.

#### 1.2.2.4 Dipole Array

Essentially a dipole, a dipole array is two or more dipoles that are placed one on top of the other, requiring a longer tube to hold them. The advantage of a dipole array is that it has higher gain.

#### 1.2.2.5 Parabolic Grid

A parabolic grid antenna is a very directional, dish-like antenna. Its parabolic reflector focuses the RF energy like a flashlight. Most of the time the radiating element is a dipole, but when combined with the dish, it becomes very directional with gain up to 24 dBi. Usually used in long point-to-point systems.

#### 1.2.2.6 Yagi

A yagi antenna is a antenna that has an internal structure resembling that of typical antennas used for TV reception (a series of rods perpendicular to a main rod, making a triangular shape). This is a directional antenna with less gain than the PGA, typically around 13 dBi. It may be used in either point-to-point situations, or to cover a very long, narrow area in point-to-multi-point situations.

### **1.2.3 Antenna Performance Characteristics**

#### **1.2.3.1 Frequency**

The frequency band within which the antenna performs at the stated specifications

#### **1.2.3.2 Gain (dBi)**

The relative amplification of the antenna with respect to an equivalent isotropic antenna, expressed on the decibel logarithmic scale.

#### **1.2.3.3 Cable loss (dB)**

The signal strength loss introduced by the cable connected to the antenna expressed on the decibel logarithmic scale.

#### **1.2.3.4 Net gain (dBi)**

The resulting amplification of the antenna paired with its cable.

#### **1.2.3.5 Polarization**

The orientation of the electrical field which the antenna is optimized to receive. If the transmitting and receiving antennas are both linear polarized, then turning one 90° so that they are cross polarized will reduce the range significantly.

#### **1.2.3.6 VSWR**

*Voltage Standing Wave Ratio* (VSWR) is the ratio of maximum voltage to minimum voltage along the line. Expresses the degree of match between the transmission line and the terminating element (antenna). When VSWR is 1:1 the match is perfect, a VSWR of 1.5:1 corresponds to 96% power efficiency.

#### **1.2.3.7 Azimuth 3dB Beamwidth**

Width of the antenna beam on the horizontal plane expressed in degrees.

#### **1.2.3.8 Elevation 3dB Beamwidth**

Height of the antenna beam on the vertical plane expressed in degrees.

## **1.3 Antenna Accessories for Enterprise WLANs**

Motorola Solutions offers a complete selection of antennas and accessories to ensure optimal coverage and performance for wireless LANs. Regardless of the size or layout of your environment, from a small office or storefront to campus-wide, multiple-site, indoor and outdoor deployments, Motorola Solutions offers the antennas, cables and accessories designed to fit your needs.

By combining this portfolio with a broad line of wireless switches, access ports, access points, client connectivity cards, ruggedized mobile voice/data devices and network management software, as well as wireless mobility planning and deployment services, Motorola Solutions offers comprehensive end-to-end wireless enterprise LAN solutions, giving you secure, reliable access to your critical business data and applications at the point of activity. For more information on Motorola Solutions's wireless products, visit [www.motorolasolutions.com](http://www.motorolasolutions.com).

### **1.3.1 Choosing the Right Antenna and accessories for your WLAN**

It is important to consider a number of factors when choosing an antenna and accessories for your Motorola Solutions enterprise WLAN. To choose the right components, you'll need to know:

- Where is the antenna to be installed, and what type of coverage is required. Knowing the intended radio band is central. Determine if the intended radio coverage area supports dual 2.4/5.2 band traffic. Has the attenuation of the coverage been discerned in respect to known barriers.
- The band (802.11b/g/n or 802.11a/n) your network supports
- Which Motorola Solutions AP to use
- Whether you will be deploying the network indoors or outdoors
- The distance between AP and antenna, to determine extender cable length, if any
- The serviceability requirement for each AP and antenna deployment

Review the chart to determine which antennas suit your needs. Using the part numbers provided, determine which of the antennas will work with your hardware in your environment.

# 2

## ***Product Compatibility***

To find the right antenna and accessories for your deployment:

- Find your access point or access port model at the top of the chart (refer to the chart on the following page). Follow that column down to find the antennas, cables and lightning arrestors compatible with that model access port or access point. Write those part numbers down.
- Follow the row antenna across the table to the columns for the lightning arrestors and cables you wrote down to confirm that they compatible with the antenna you've chosen and determine if an adaptor is required to connect the two selected parts.

### **2.1 FCC Compliance**

Motorola Solutions enterprise Access Points are approved by the FCC with the understanding that these devices are Professionally Installed. Under FCC regulations, this allows the Professional Installers the flexibility to configure the Access Points for each specific customers needs and insure a compliant installation. The antennas offered in our portfolio have different coverage patterns and antenna gains to meet the needs of different installation requirements and require careful planning. The Access Point transmitter power must be adjusted by the professional installer based on the specific antenna and other installation components used in the installation to ensure compliant operation.

A professional installer must:

- Have a good understanding of RF theory
- Be able to calculate a link budget for a given transmitter configuration. For example, Conducted Output Power + Cabling Losses + Mechanical Connection Losses + Antenna Gain = Output Power (This output power should be equal or lower than the Maximum Power as listed on the FCC Grant for a transmitter)
- Be familiar with both the mechanical and software tools required to configure and adjust the transmitter being installed
- Understand basic FCC regulations for the site specific location and installation requirements of the various radio products being installed
- Understand basic antenna operational theory and standard industry antenna installation practices
- Be certified by local authorities to install electrical devices.

---

**WARNING! OPERATING A TRANSMITTER THAT IS CONFIGURED FOR  
INDOOR USE IN AN OUTDOOR ENVIRONMENT IS AGAINST FCC  
REGULATIONS AND SUBJECT TO FCC ENFORCEMENT ACTIONS  
AGAINST BOTH THE INSTALLER AND THE OPERATOR.**

---

### 2.1.1 **Outdoor Access Point Installations**

The FCC regulations for the indoor and outdoor installation are different; the professional installer must configure the Access Point transmitters accordingly. Products that are specifically intended to be placed outdoors are configured at the factory for compliant outdoor operation. Motorola Solutions recommends professional installers review the following to assess the legality of outdoor deployments:

- If a transmitter is placed indoors but the antenna is placed outdoors, the FCC interprets this as an outdoor installation
- If a transmitter is placed indoors and the antenna is oriented to intentionally radiate outdoors, the FCC interprets this as an outdoor installation
- If the transmitter is placed on a loading dock or inside a covered stadium with a retractable cover, the FCC views this as an outdoor installation

The *Federal Communications Commission* (FCC), the *National Telecommunications and Information Administration* (NTIA) and the *Federal Aviation Administration* (FAA) have an ongoing investigation of interference caused to *Terminal Doppler Weather Radar* (TDWR) systems operating in the 5600-5650 MHz band. TDWRs are used to detect wind shear and other weather conditions near airports.

The interference at most locations was attributed to fixed wireless transmitters operating outdoors in the vicinity of airports at high elevations that are line-of-sight to the TDWR installations (5 GHz network equipment).

In some instances, the interference was caused by equipment that was not properly certified or configured. In other instances, equipment was FCC certified nonetheless caused interference. The FCC has taken appropriate enforcement action in each of these cases.

If everything is determined to be compliant - the FCC orders the interfering transmitter turned off or adjustments be made such that there is no more interference; any non-compliance determined is resolved with an enforcement action.

On 14 OCTOBER 2010 the FCC published the following notice that requests that devices operating in the 5.4 GHz band located near the appended list of airports register these devices. A voluntary WISPA sponsored database has been developed that allows operators and installers to register the location information of the UNII devices operating outdoors in the 5470 - 5725 MHz band within 35 km of any TDWR location.

---

**NOTE:** Motorola Solutions strongly encourages the voluntary registration of all outdoor installations at <http://www.spectrumbridge.com/udia/home.aspx>.

---

## 2.2 FCC Approval Statement

**Federal Communications Commission  
Office of Engineering and Technology  
Laboratory Division**

**Interim Plans to Approve UNII Devices Operating in the 5470 - 5725 MHz Band with Radar Detection and DFS Capabilities**

The FCC, NTIA, FAA and industry are working to resolve interference to Terminal Doppler Weather Radar (TDWR) systems used near airports that has occurred from some outdoor wireless systems operating in the 5470 MHz – 5725 MHz band. These wireless devices are subject to Section 15.407 of our rules and when operating as a master device they are required to implement radar detection and DFS functions. We are continuing our work to develop long-term equipment authorization test procedures that will ensure that the devices comply with our rules that include protecting the TDWR operations. In the interim, the Commission will now allow certification of wireless master devices with radar detection function and with DFS capability, if they meet the following conditions:

- Devices will not transmit on channels which overlap the 5600 – 5650 MHz band.<sup>1</sup>
- Devices intended for outdoor use will be further restricted, as follows:
  - Devices must be professionally installed when operating in the 5470 – 5725 MHz band.<sup>2</sup>
  - Grantees must provide owners, operators and all such installers with specific instructions in their user's manual on requirements to avoid interference to TDWRs and information that meets the following instructions:
    - Any installation of either a master or a client device within 35 km of a TDWR location shall be separated by at least 30 MHz (center-to-center) from the TDWR operating frequency (as shown in the attached table)<sup>3, 4</sup>, and<sup>5</sup>.

<sup>1</sup> The devices subject to the requirements in this KDB can select the initial channel for operation to avoid TDWRs and apply the Uniform Channel Spreading requirements (see FCC 06-96 in ET Docket 03-122 released June 30, 2006) on the remaining available frequency band of operation. All the other test procedures including the test radar patterns remain the same at the present time. A revision to the measurement procedure with modification to the Uniform Channel Spreading requirement and other changes will be released in the future. The Commission will also address the issue of any field upgrade option at that time.

<sup>2</sup> The grantee must identify the specific expertise and the training required by the installers for installing these types of devices.

<sup>3</sup> In some instances it is possible that a device may be within 35 km of multiple TDWRs. In this case the device must ensure that it avoids operation within 30 MHz for each of the TDWRs. This requirement applies even if the master is outside the 35 km radius but communicates with outdoor clients which may be within the 35 km radius of the TDWRs.

<sup>4</sup> The requirement for ensuring 30 MHz frequency separation is based on the best information available to date. If interference is not eliminated, a distance limitation based on line-of-sight from TDWR will need to be used. In addition, devices with bandwidths greater than 20 MHz may require greater frequency separation.

- Procedures for the installers and the operators on how to register the devices in the industry-sponsored database with the appropriate information regarding the location and operation of the device and installer information is included.<sup>6</sup>
- Devices must meet all of the other requirements specified in Section 15.407, and it is prohibited to include configuration controls (e.g. country code settings or other options to modify DFS functions) to change the frequency of operations to any frequency other than those specified on the grant of certification for US operation.<sup>7</sup>

- All applications for equipment authorization must clearly show compliance with all of the technical requirements under worst case parameters, under user or operator control, based on frame rates, listen/talk ratios and user data transfer conditions.

All the devices subject to the DFS requirements must be submitted to the Commission's Laboratory Division for pre-grant testing and equipment authorization.<sup>8</sup> The applicant must ensure that all equipment authorization applications subject to this interim procedure include appropriate attestations that the device has no option to change the DFS parameters and that transmissions are disabled at least in the 5600 – 5650 MHz band. The application must include the user's manual with the appropriate installation and operations requirements for the installers and operators.

We are continuing to evaluate additional measures that may need to be taken to further ensure against interference caused by 5 GHz outdoor wireless systems located near airports. While manufacturers have an obligation to ensure that their equipment complies with FCC rules, and must take steps to ensure their devices are unlikely to cause harmful interference, Section 15.5 of the Commission's rules also places an obligation on users of devices to avoid causing interference and to correct any interference that may occur. We encourage the manufacturers to include information for the users, including the operators and installers, to ensure that they understand that it is incumbent on them to cooperate with manufacturers to implement any changes necessary to facilitate compliance.

<sup>5</sup> Devices may be optionally designed not to transmit on channels which overlap 5570 – 5680 MHz instead of requiring installers to perform site-by-site adjustments. In that case it is still required that the devices should be installed professionally and the procedures for registering the device in the industry database should be included in the Users Manual.

<sup>6</sup> A voluntary WISPA sponsored database has been developed that allows operators and installers to register the location information of the UNII devices operating outdoors in the 5470 – 5725 MHz band within 35 km of any TDWR location (see <http://www.spectrumbridge.com/udia/home.aspx>). This database may be used by government agencies in order to expedite resolution of any interference to TDWRs.

<sup>7</sup> For example, device software must not have any country code options or software configuration settings which allow an end user to modify the DFS operation or impact the performance of DFS. See KDB 594280.

<sup>8</sup> The TCBs are not permitted to approve transmitters with radar detection capabilities. See KDB 628591.

9 The manufacturers may consider taking steps providing clear instructions to operators and installers of devices as to the need to comply with rules for use of the band, guidance on registration of devices and any other processes that are designed to avoid interference. They may use methods that include, but are not limited to, instructions in manuals, notification on product web pages and service bulletins issued for products in the field.

### **TDWR Location Information\***

| STATE | CITY            | LONGITUDE   | LATITUDE   | FREQUENCY | TERRAIN ELEVATION (MSL) [ft] | ANTENNA HEIGHT ABOVE TERRAIN [ft] |
|-------|-----------------|-------------|------------|-----------|------------------------------|-----------------------------------|

## **2.4 Antenna Suite Summary**

The following aligns Motorola Solutions antenna suite with their respective part numbers, description, band,

gain, mounting orientation, radiation patterns, outdoor versus indoor deployment and plenum rating.

| Part Number        | Description                         | Cable | Peak Gain(dBi)<br>(Note1) | Mount | Az BW | Outdoor rated | Plenum (Cable only) |

## 2.4 GHz Single Band Antenna Suite

### 3.1 Supported 802.11b/g/n Antenna Suite

Motorola Solutions supports numerous single-band 2.4 GHz 802.11b/g/n antennas to suit the requirements of your unique access point or access port deployment. Check the Motorola Solutions Web site periodically, as newly supported 802.11b/g/n antennas will be added to this document as they are released. For more information, go to <http://support.symbol.com/support/product/manuals.do>.

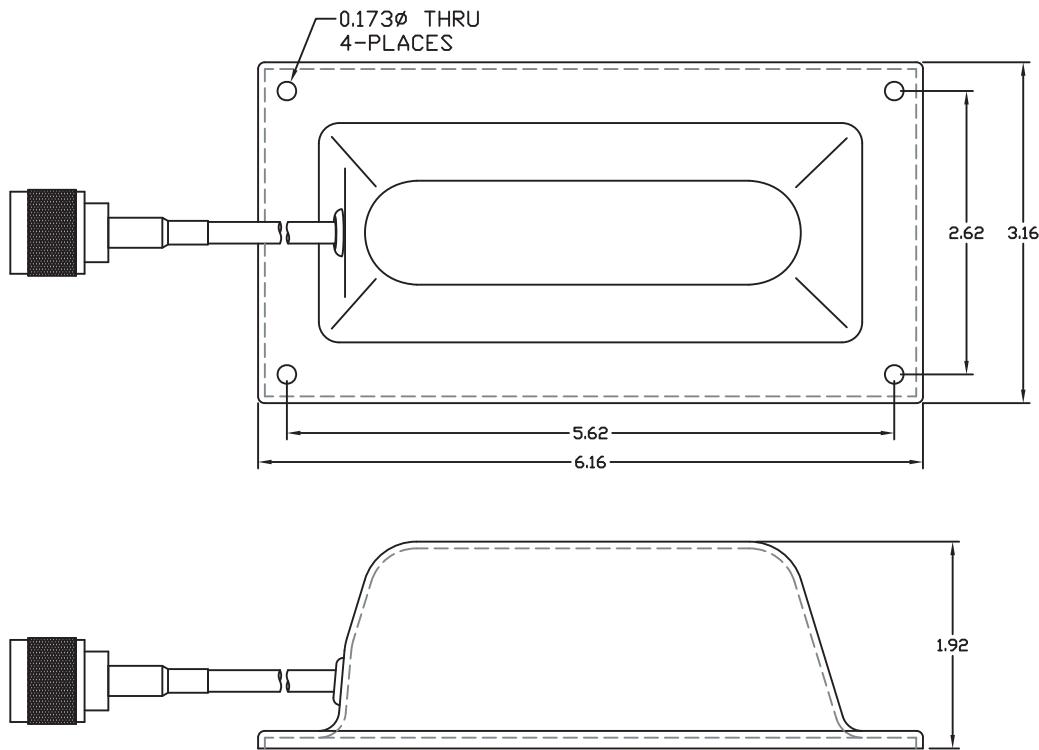

For detailed information on supported 802.11b/g/n antenna models, refer to:

## 5.2 Ghz Single Band Antenna Suite

### 4.1 Supported 802.11a/n Antenna Suite

Motorola Solutions supports numerous 802.11a/n antennas to suit the requirements of your unique access point or access port deployment. Check the Motorola Solutions Web site periodically, as newly supported 802.11a/n antennas will be added to this document as they are released. For more information, go to <http://support.symbol.com/support/product/manuals.do>.

For detailed information on supported 802.11a/n antenna models, refer to:

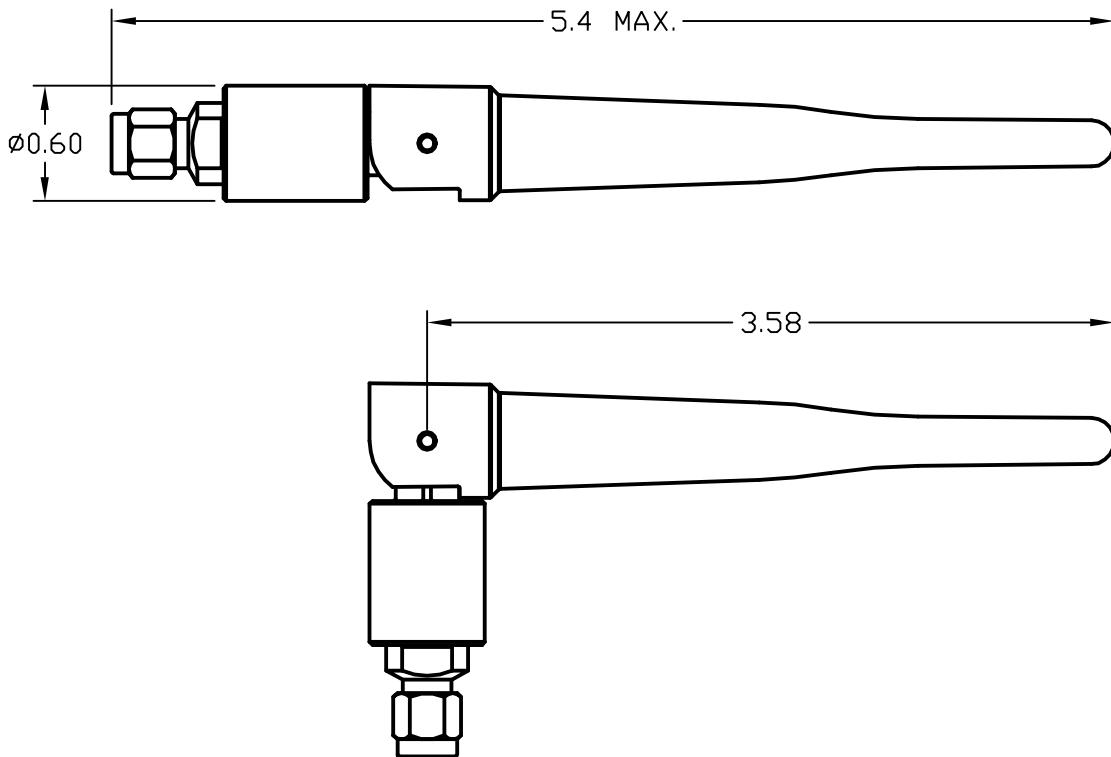

- *ML-5299-APA1-01R Indoor Rubber Flex Jointed Dipole: RP-SMA Male Connector*
- *ML-5299-HPA1-01R High Performance Omni-Directional Dipole Antenna: RP-SMA Male Connector*
- *ML-5299-PTA1-01R Low Profile Ceiling-Tile Mount Patch: RP-SMA Male Connector*
- *ML-5299-WPNA1-01R Wall Mount Panel Antenna w/Articulating Mount: RP-SMA Male*
- *ML-5299-FHPA10-01R Omni-Directional "Pipe" Antenna: N-Male Connector*
- *ML-5299-FHPA6-01R Omni-Directional "Pipe" Antenna: N-Male Connector*
- *ML-5299-BYGA15-012 Yagi Antenna: N-Female*

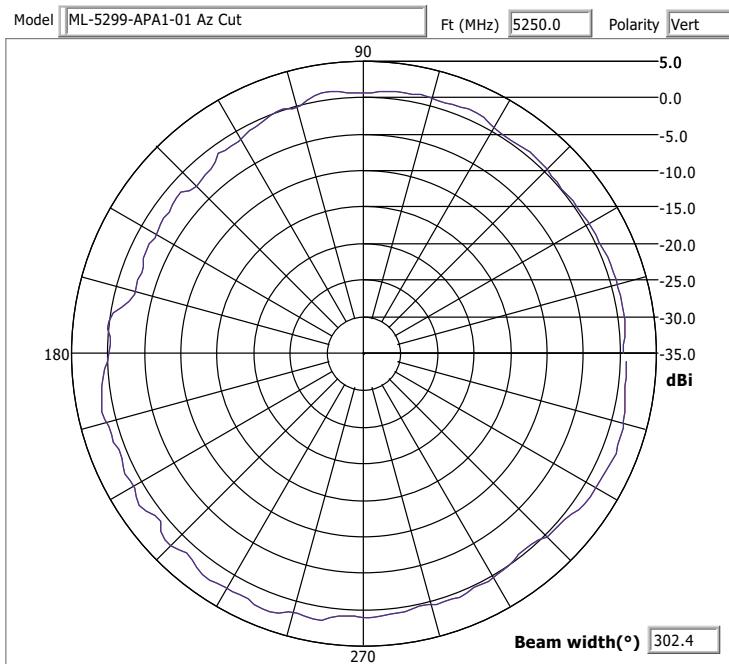

**NOTE:** For examples on how various antenna and connectors are deployed in a 5 GHz AP-5131 installation, see [5 GHz AP-5131 Antenna Connections](#).

## ***Antenna Cables***

### **6.1 Supported Antenna Cables**

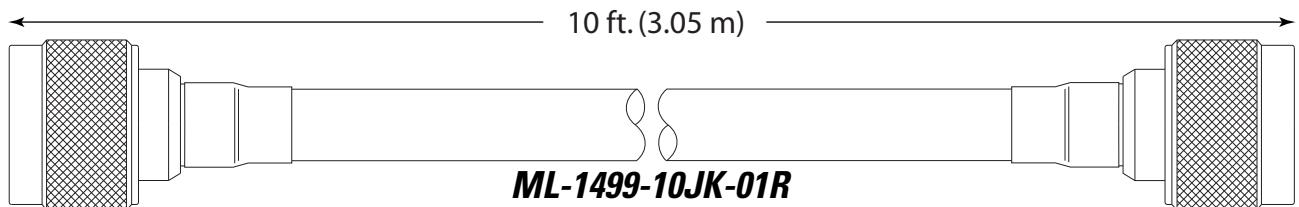

Motorola Solutions supports numerous cables to suit your unique access point or access port deployment. Check the Motorola Solutions Web site periodically, as new cables will be added to this document as they are released. For more information, go to <http://support.symbol.com/support/product/manuals.do>.

For detailed information on supported cables, refer to:

- *ML-1499-100JK-01R 100 ft. Low-Loss Coaxial Cable Jumper: N Male to N Male with 2 Connector Seal Kits*
- *ML-1499-10JK-01R 10 ft. Low-Loss Coaxial Cable Jumper: N Male to N Male*
- *ML-1499-25JK-01R 25 ft. Low-Loss Coaxial Cable Jumper: N Male to N Male with 2 Connector Seal Kits*
- *ML-1499-50JK-01R 50 ft. Low-Loss Coaxial Cable Jumper: N Male to N Male with 2 Connector Seal Kits*
- *ML-1499-72PJ-01R 6 ft. RP BNC Female to RP BNC Male Plenum Coaxial Jumper*

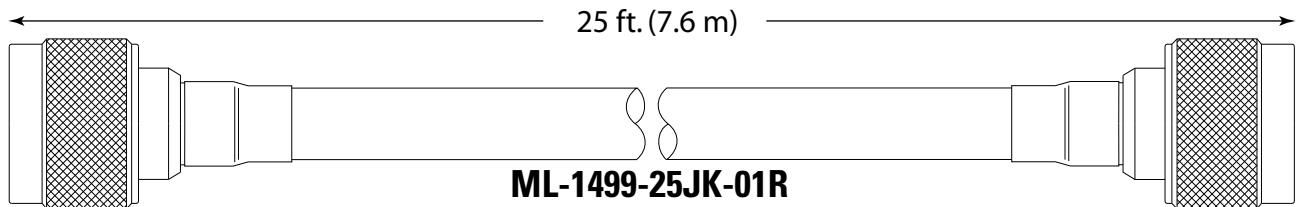

**6.1.1 ML-1499-100JK-01R 100 ft. Low-Loss Coaxial Cable Jumper: N Male to N Male with 2 Connector Seal Kits**

|                        |                                |
|------------------------|--------------------------------|
| Type                   | Ultralink TL 93605             |
| RF Connectors          | N (m) to N (m)                 |
| Cable Attenuation (dB) | 10.6 @ 2.4 GHz; 15.5 @ 5.8 GHz |
| Frequency              | 2 - 6 GHz                      |

**6.1.2 ML-1499-10JK-01R 10 ft. Low-Loss Coaxial Cable Jumper: N Male to N Male**

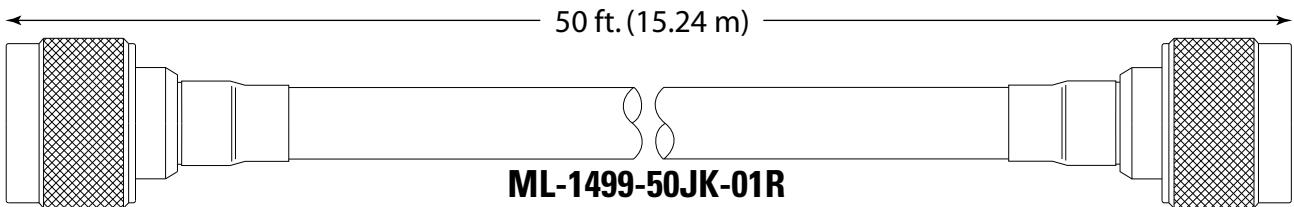

|                        |                              |
|------------------------|------------------------------|
| Type                   | Ultralink TL 93605           |
| RF Connectors          | N (m) to N (m)               |
| Cable Attenuation (dB) | 2.0 @ 2.4 GHz; 2.9 @ 5.8 GHz |
| Frequency              | 2 - 6 GHz                    |

**6.1.3 ML-1499-25JK-01R 25 ft. Low-Loss Coaxial Cable Jumper: N Male to N Male with 2 Connector Seal Kits**

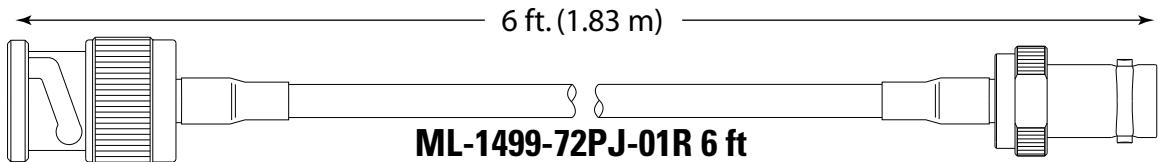

|                        |                              |
|------------------------|------------------------------|
| Type                   | Ultralink TL 93605           |
| RF Connectors          | N (m) to N (m)               |
| Cable Attenuation (dB) | 2.5 @ 2.4 GHz; 4.0 @ 5.8 GHz |
| Frequency              | 2 - 6 GHz                    |

**6.1.4 ML-1499-50JK-01R 50 ft. Low-Loss Coaxial Cable Jumper: N Male to N Male with 2 Connector Seal Kits**

|                        |                              |
|------------------------|------------------------------|
| Type                   | Ultralink TL 93605           |
| RF Connectors          | N (m) to N (m)               |
| Cable Attenuation (dB) | 4.5 @ 2.4 GHz; 7.0 @ 5.8 GHz |
| Frequency              | 2 - 6 GHz                    |

### **6.1.5 ML-1499-72PJ-01R 6 ft. RP BNC Female to RP BNC Male Plenum Coaxial Jumper**

|                        |                           |
|------------------------|---------------------------|
| Type                   | CMP Plenum, RG-58         |
| RF Connectors          | RP BNC (f) to RP. BNC (m) |
| Cable Attenuation (dB) | 2.3 dB                    |
| Frequency              | 2400-2500 Mhz             |

## ***Supported Antenna Adapters***

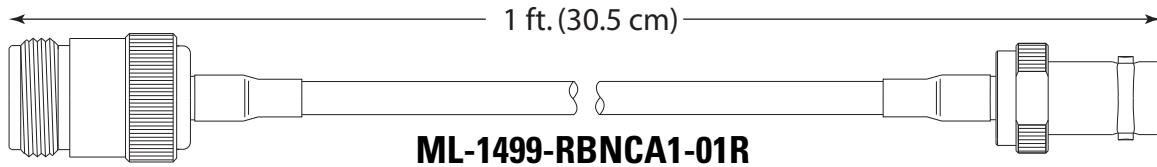

### **7.1 Supported Adapters**

Motorola Solutions supports many adapters to suit your unique access point or access port deployment. Check the Motorola Solutions Web site periodically, as new adapters will be added to this document as they are released. For more information, go to <http://support.symbol.com/support/product/manuals.do>.

For detailed information on supported antenna adapters, refer to:

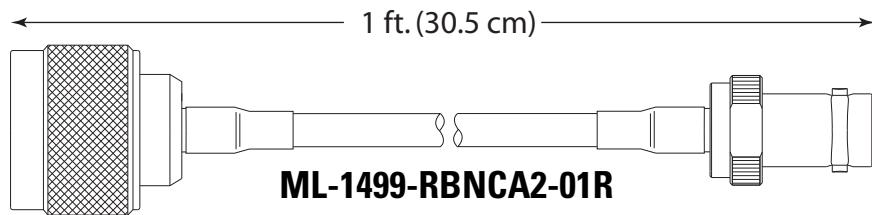

- [\*ML-1499-RBNCA1-01R 1 ft. N Female to RP BNC Female Cable Adapter with Connector Seal Kit\*](#)
- [\*ML-1499-RBNCA2-01R 1 ft. N Male to RP BNC Female Cable Adapter with Connector Seal Kit\*](#)
- [\*25-85391-01R 3.5 in. Jumper Cable, RP-SMA \(Male\) to Type N \(Male\) Adaptor\*](#)
- [\*25-85392-01R 3.5 in. Jumper Cable, RP-SMA \(Male\) to Type N \(Female\) Adaptor\*](#)
- [\*25-72178-01 Jumper, RP-SMA\(M\) to RP-BNC\(F\)\*](#)
- [\*25-90262-01R RP-SMA \(Female\) to Type N \(Female\) Adapter\*](#)
- [\*25-90263-01R Type N \(Male\) to RP-SMA \(Female\) Bulkhead Adapter\*](#)
- [\*25-97262-01R Connector for ML-2499-BYGA2-01R and AP300\*](#)
- [\*25-116485-01R Coax, RP-BNC\(M\) to N\(F\), 3.5 In.\*](#)
- [\*25-99175-01R Type N, Female to Female Adaptor\*](#)

### **7.1.1 ML-1499-RBNCA1-01R 1 ft. N Female to RP BNC Female Cable Adapter with Connector Seal Kit**

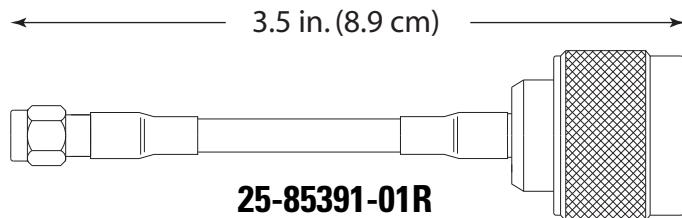

|               |                         |
|---------------|-------------------------|
| Type          | Black, Ultralink, RG-58 |
| RF Connectors | N (f) to RP. BNC (f)    |
| Frequency     | 2400-2500 MHz           |
| Attenuation   | 0.2 dB                  |

### **7.1.2 ML-1499-RBNCA2-01R 1 ft. N Male to RP BNC Female Cable Adapter with Connector Seal Kit**

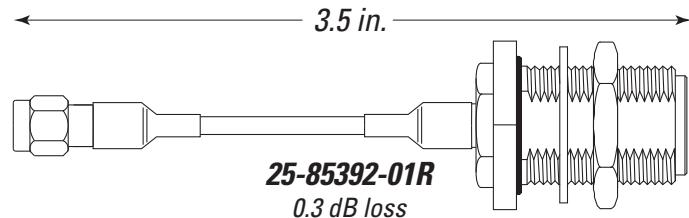

|                    |               |
|--------------------|---------------|
| Type               | RG-58         |
| Frequency          | 2400-2500 MHz |
| Cable Loss (dB)    | 0.85 dB       |
| Cable Length (in.) | 12            |
| Connector 1        | N - Male      |
| Connector 2        | RP-BNC-F      |
| Color              | Black         |

### 7.1.3 25-85391-01R 3.5 in. Jumper Cable, RP-SMA (Male) to Type N (Male) Adaptor

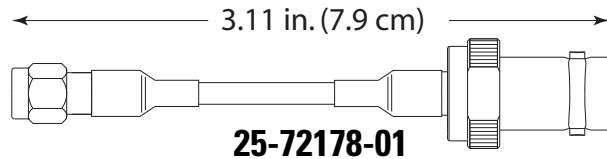

|                       |                      |
|-----------------------|----------------------|
| <i>Type</i>           | Clear Jacket, RG-316 |
| <i>Connector 1</i>    | RP-SMA, Male         |
| <i>Connector 2</i>    | Type N, Male         |
| <i>Insertion Loss</i> | 2.4 GHz: 0.2 dB MIN  |
| <i>Insertion Loss</i> | 5.2 GHz: 0.3 dB MIN  |

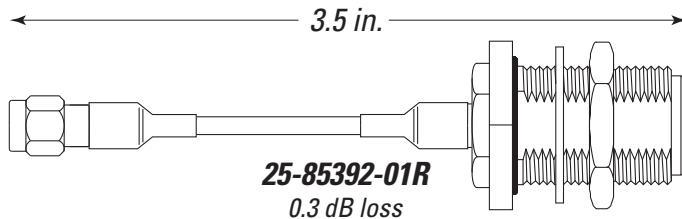

### 7.1.4 25-85392-01R 3.5 in. Jumper Cable, RP-SMA (Male) to Type N (Female) Adaptor

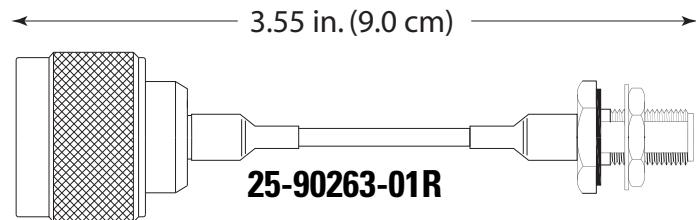

|                       |                          |
|-----------------------|--------------------------|
| <i>Type</i>           | Clear Jacket, RG-316     |
| <i>Connector 1</i>    | RP-SMA, Male             |
| <i>Connector 2</i>    | Type N, Female, Bulkhead |
| <i>Insertion Loss</i> | 2.4 GHz: 0.2 dB MIN      |
| <i>Insertion Loss</i> | 5.2 GHz: 0.3 dB MIN      |

**7.1.5 25-72178-01 Jumper, RP-SMA(M) to RP-BNC(F)**

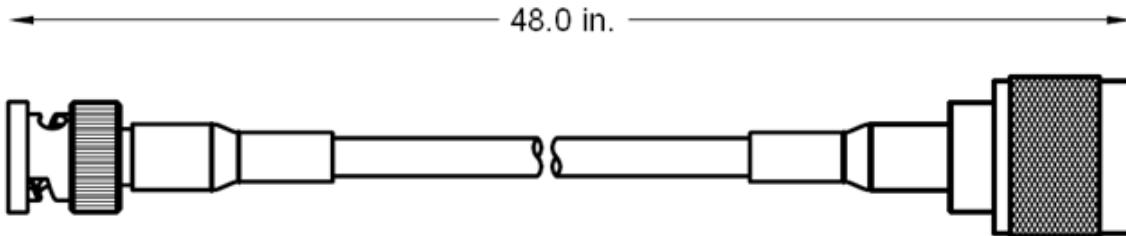

|                |                |
|----------------|----------------|
| Type           | RG-316         |
| Connector 1    | RP-SMA, Male   |
| Connector 2    | RP-BNC, Female |
| Insertion Loss | 2.4 GHz: .2 dB |
| Insertion Loss | 5.2 GHz: .3 dB |

**7.1.6 25-90262-01R RP-SMA (Female) to Type N (Female) Adapter**

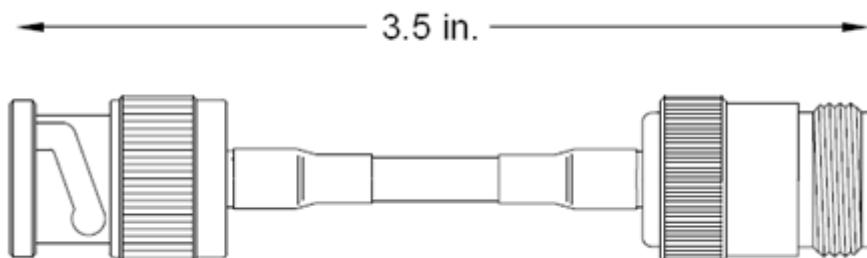

|                |                          |
|----------------|--------------------------|
| Type           | RG-316                   |
| Connector 1    | RP-SMA, Female, Bulkhead |
| Connector 2    | Type N, Female, Bulkhead |
| Insertion Loss | 2.4 GHz: .2 dB           |
| Insertion Loss | 5.2 GHz: .3 dB           |

**7.1.7 25-90263-01R Type N (Male) to RP-SMA (Female) Bulkhead Adapter**

|                |                          |
|----------------|--------------------------|
| Type           | RG-316                   |
| Connector 1    | Type N, Male             |
| Connector 2    | RP-SMA, Female, Bulkhead |
| Insertion Loss | 2.4 GHz: 0.2 dB MIN      |
| Insertion Loss | 5.2 GHz: 0.3 dB MIN      |

**7.1.8 25-97262-01R Connector for ML-2499-BYGA2-01R and AP300**

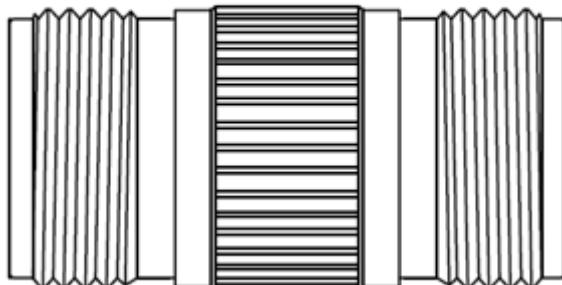

|                       |              |
|-----------------------|--------------|

## ***Supported Lightning Arrestors***

### **8.1 Lightning Arrestors**

Motorola Solutions supports several lightning arrestors to support your unique access point or access port deployment safety requirements. Check the Motorola Solutions Web site periodically, as new lightning arrestors will be added to this document as they are released. For more information, go to <http://support.symbol.com/support/product/manuals.do>.

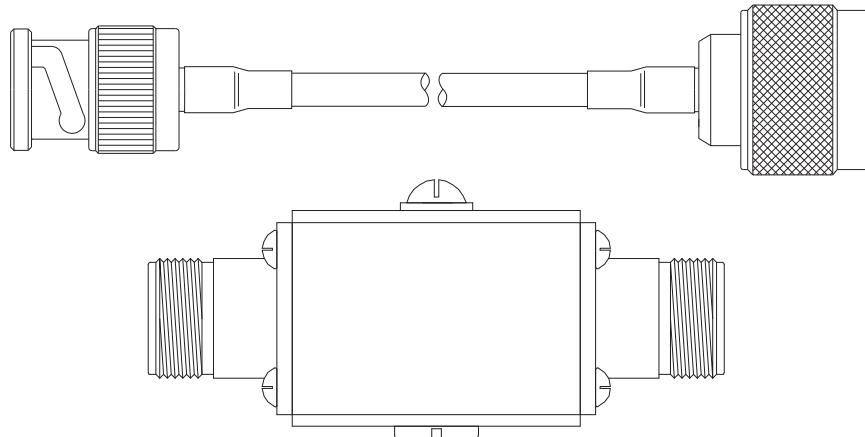

For detailed information on supported lightning arrestors refer to:

- *ML-1499-LAK1-01R 1 ft. N Male to RP BNC Male Lightning Arrestor with Connector Seal Kit*
- *ML-1499-LAK2-01R Lightning Arrestor Kit with N Male to N Male Barrel Adapter*
- *ML-2452-LAK1-01R Lightning Arrestor (N Female to N Female) with N Male to RP-SMA Male Adapter*

**WARNING! The grounding lug on a lightning arrestor must be grounded in compliance with local electrical codes.**

## ***Mounting Kits***

### **9.1 Mounting Kit Support**

Motorola Solutions supports mounting kits to support your unique access point or access port deployment. Check the Motorola Solutions Web site periodically, as new kits will be added to this document as they are released. For more information, go to <http://support.symbol.com/support/product/manuals.do>.

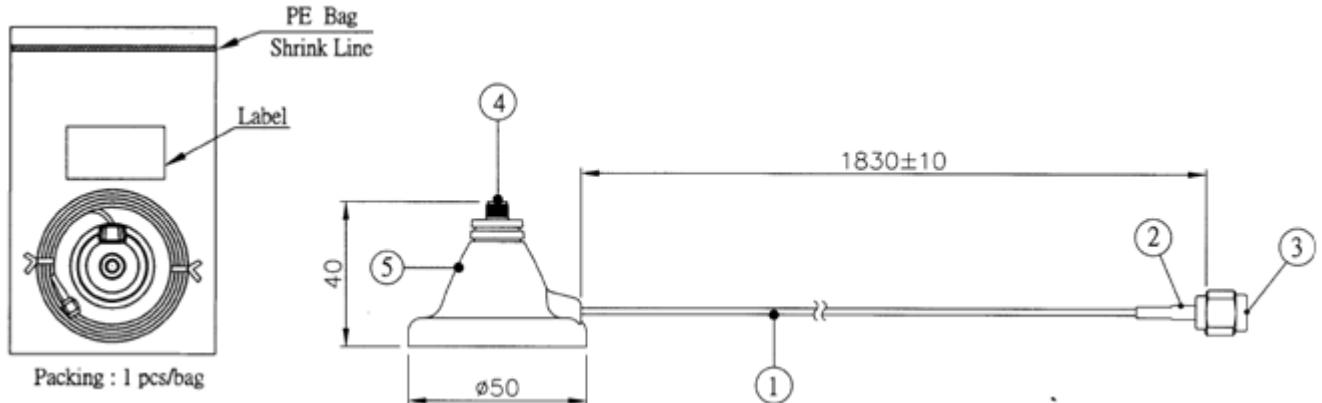

For detailed information on supported mounting kits refer to:

- *ML-1499-APAMK-01R Magnetic Base for ML-2452-APA2-01 with 6 Ft. Cable RP-SMA (Male)*
- *ML-1499-SD3MK-01R Articulating I-Beam Mount Kit for ML-2499-SD3-01 Omni Antenna*

### 9.1.1 ML-1499-APAMK-01R Magnetic Base for ML-2452-APA2-01 with 6 Ft. Cable RP-SMA (Male)

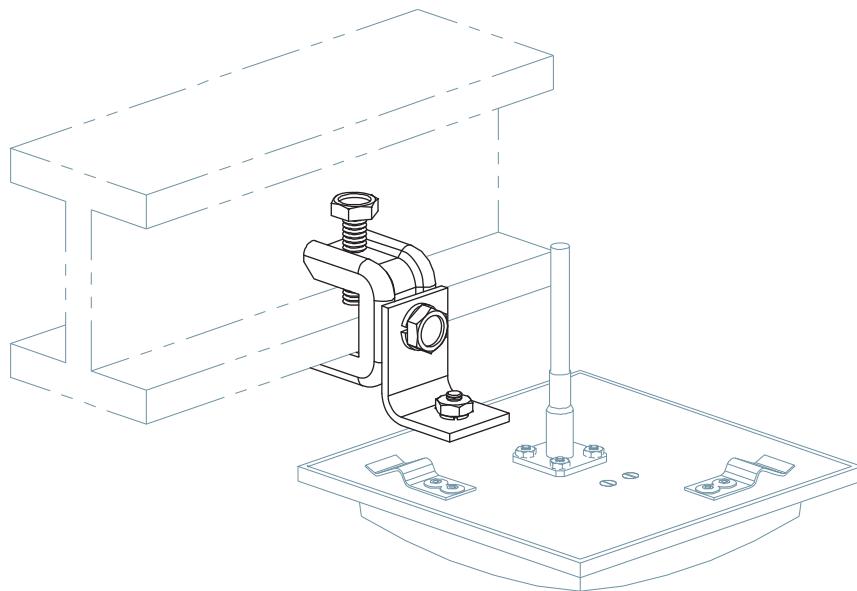

**NOTE:** The dimensions displayed for the ML-1499-APAMK-01R mounting kit in the illustration below are in millimeters (mm).

|                  |                              |
|------------------|------------------------------|
| Cable            | RG-178                       |
| Connector 3      | RP-SMA, Male                 |
| Connector 4      | RP-SMA, Female               |
| Attenuation (dB) | 2.6 @ 2.4 GHz; 4.6 @ 5.5 Ghz |

**9.1.2 ML-1499-SD3MK-01R Articulating I-Beam Mount Kit for ML-2499-SD3-01 Omni Antenna**

---

*Functionality*

Mounts Part No. ML-2499-SD3-01 to an I-beam.

## ***AP-5131 Antenna Connections***

This chapter describes how the 2.4 and 5 GHz antennas described within this guide are physically connected to an AP-5131 model access point. Central in this discussion are descriptions of the single and dual-band antennas supported, their supported connector models and how lightning arrestors are supported for specific antenna and connector combinations. For more information, see:

- [\*2.4 GHz AP-5131 Antenna Connections\*](#)
- [\*5 GHz AP-5131 Antenna Connections\*](#)

| P/N                     | Length   | Conn 1  | Conn 2       | Attn 2.4 | Attn 5.5 |

| ML-1499-RBNCA2-01R      | 1 ft     | N-m     | RBNC-f       | 0.85     | N/A      |
| ML-2452-LAK1 Arrestor   | 1.75 in. | N-m     | N-m          | 0.14     | 0.35     |
| ML-2452-LAK1 Cable      | 12 in.   | N-m     | RSMA-m       | 0.6      | 1.4      |

**CAUTION:** The installation of lightning arrestors (as described in several of the AP-5131 antenna connection scenarios in this chapter) must meet local electrical codes.

## 10.1 2.4 GHz AP-5131 Antenna Connections

This section describes how the components described within this guide are used collectively in the following AP-5131 installation scenarios supporting the 2.4 GHz band:

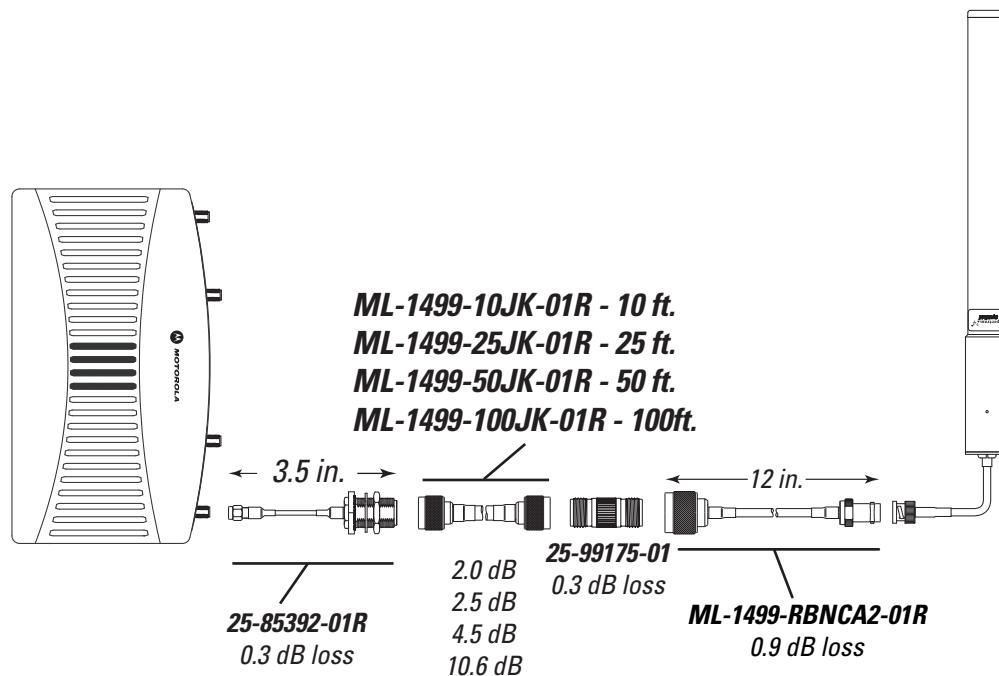

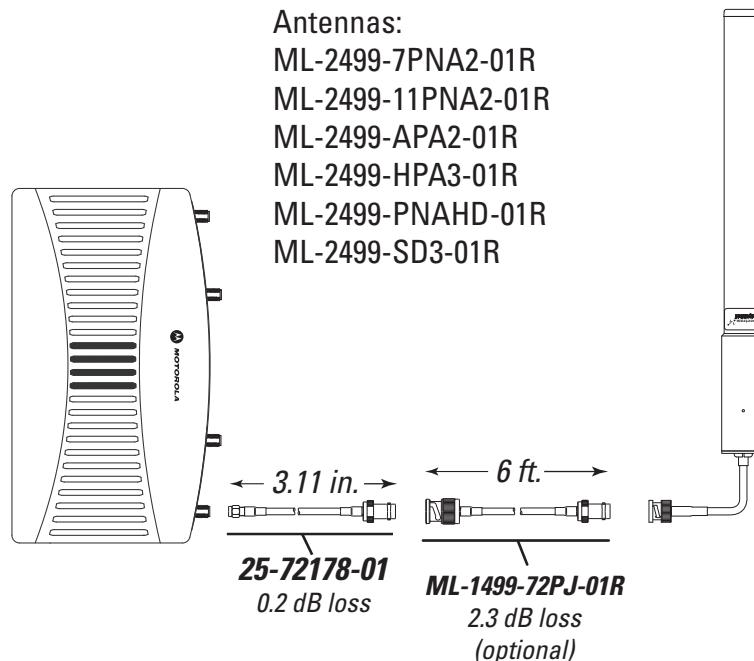

- *RP-BNC Male Antenna Installation*
- *Type N Male Connector Installation*

**NOTE:** For information on the individual 2.4 GHz antennas approved for use with an AP-5131, see [2.4 GHz Single Band Antenna Suite](#).

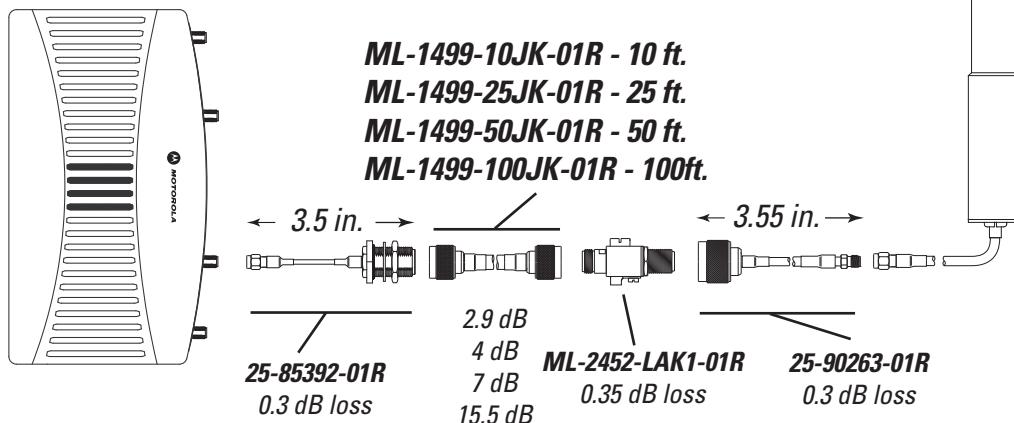

### 10.1.1 RP-BNC Male Antenna Installation

Refer to the following for a graphical depiction of the parts and connection options available for cabling an 2.4 GHz AP-5131 model access point using RP-BNC male antennas:

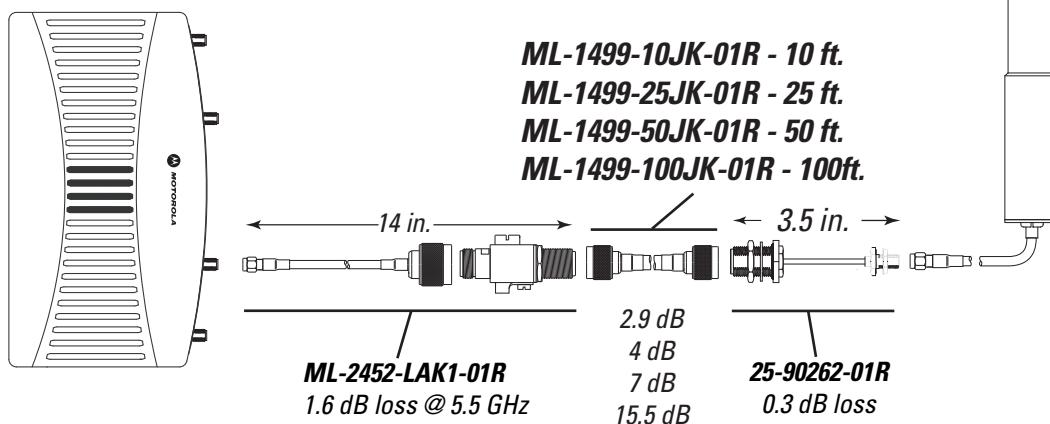

### Lightning Aressstor, Antenna side

Antennas:  
 ML-5299-PTA1-01R  
 ML-5299-WPNA1-01R  
 ML-5299-HPA1-01R

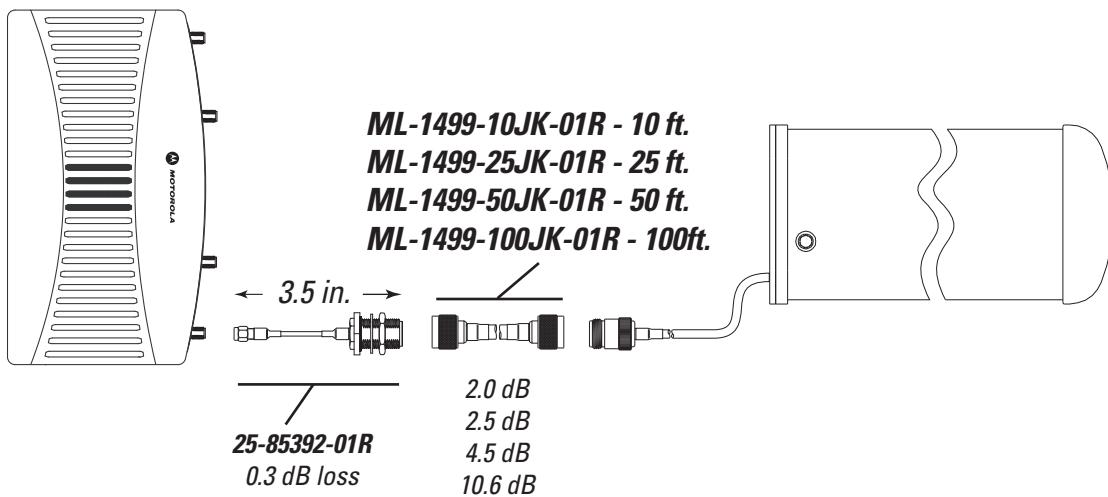

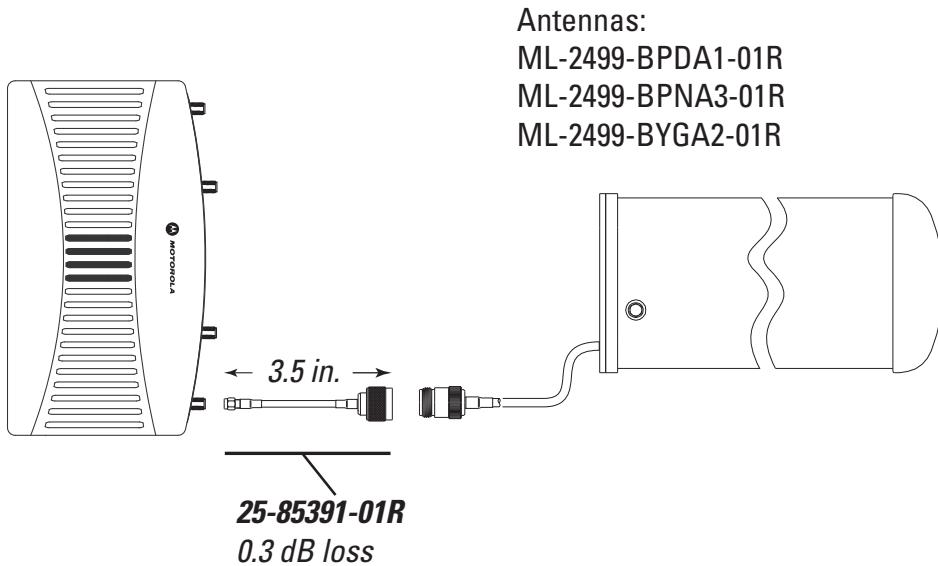

### Lightning Aressstor, AP side

Antennas:  
 ML-5299-PTA1-01R  
 ML-5299-WPNA1-01R  
 ML-5299-HPA1-01R

### 10.1.2 Type N Female Connector Installation

Refer to the following for a graphical depiction of the parts and connection options available for cabling an 2.4 GHz AP-5131 model access point using Type N female connectors:

---

**CAUTION:** The minimum cable configuration is required to meet regulatory requirements.

---

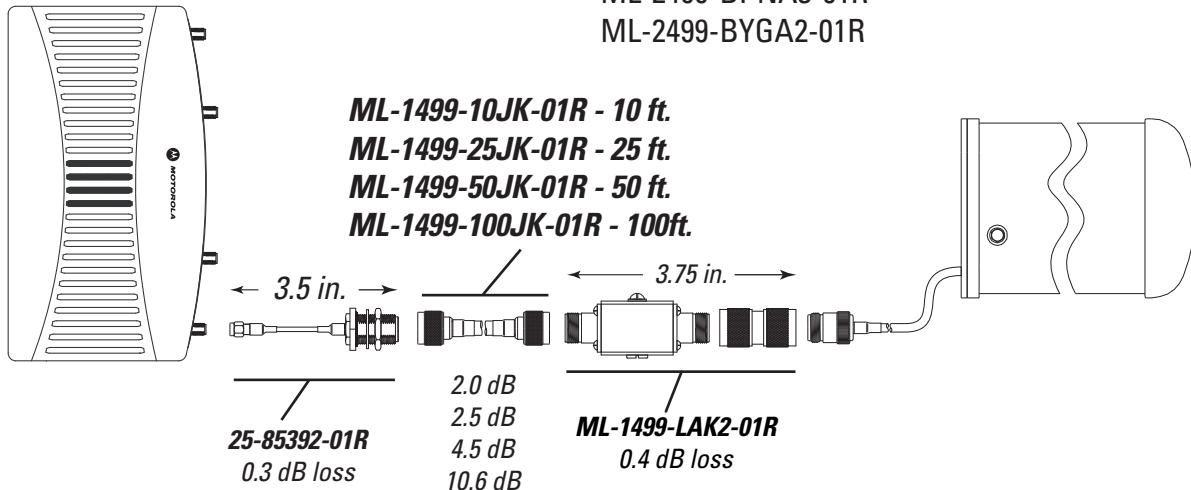

### ***Lightning Aressstor, Antenna side***

Antennas:

ML-2499-BPDA1-01R

ML-2499-BPNA3-01R

ML-2499-BYGA2-01R

Antennas:

ML-2499-BPDA1-01R

ML-2499-BPNA3-01R

ML-2499-BYGA2-01R

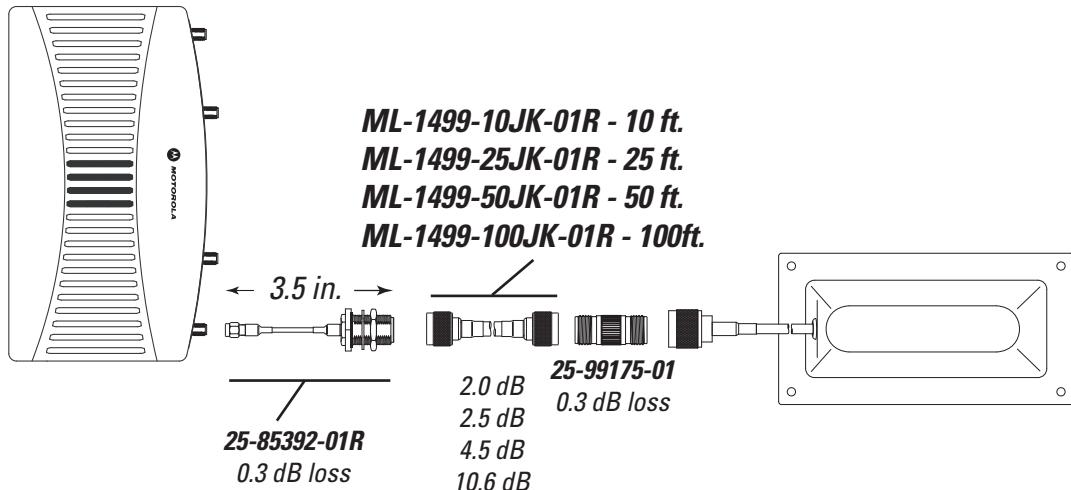

### 10.1.3 Type N Male Connector Installation

Refer to the following for a graphical depiction of the parts and connection options available for cabling an 2.4 GHz AP-5131 model access point using Type N male connectors:

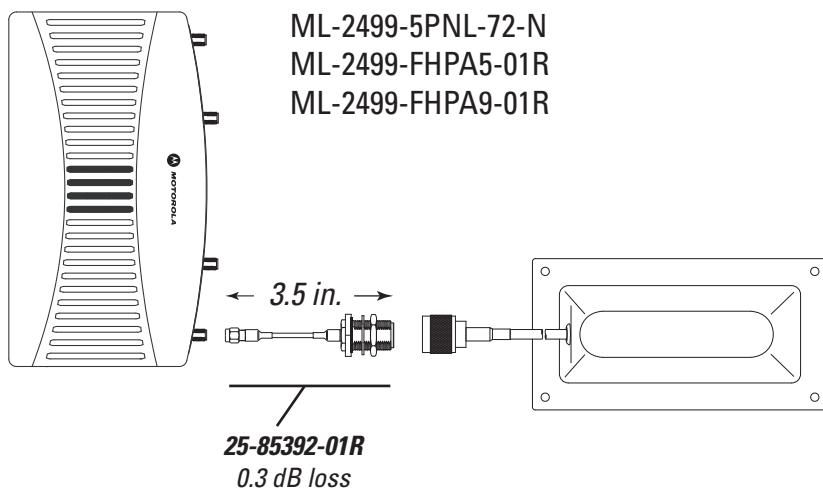

Antennas:

ML-2499-5PNL-72-N  
ML-2499-FHPA5-01R  
ML-2499-FHPA9-01R

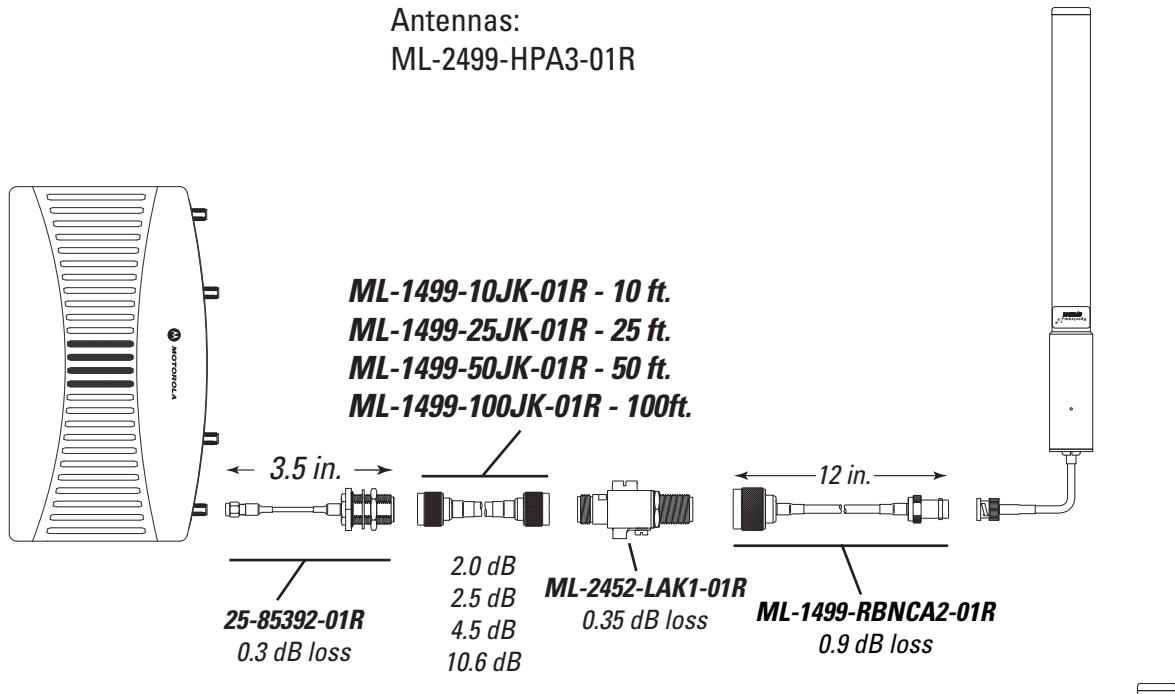

Antennas:

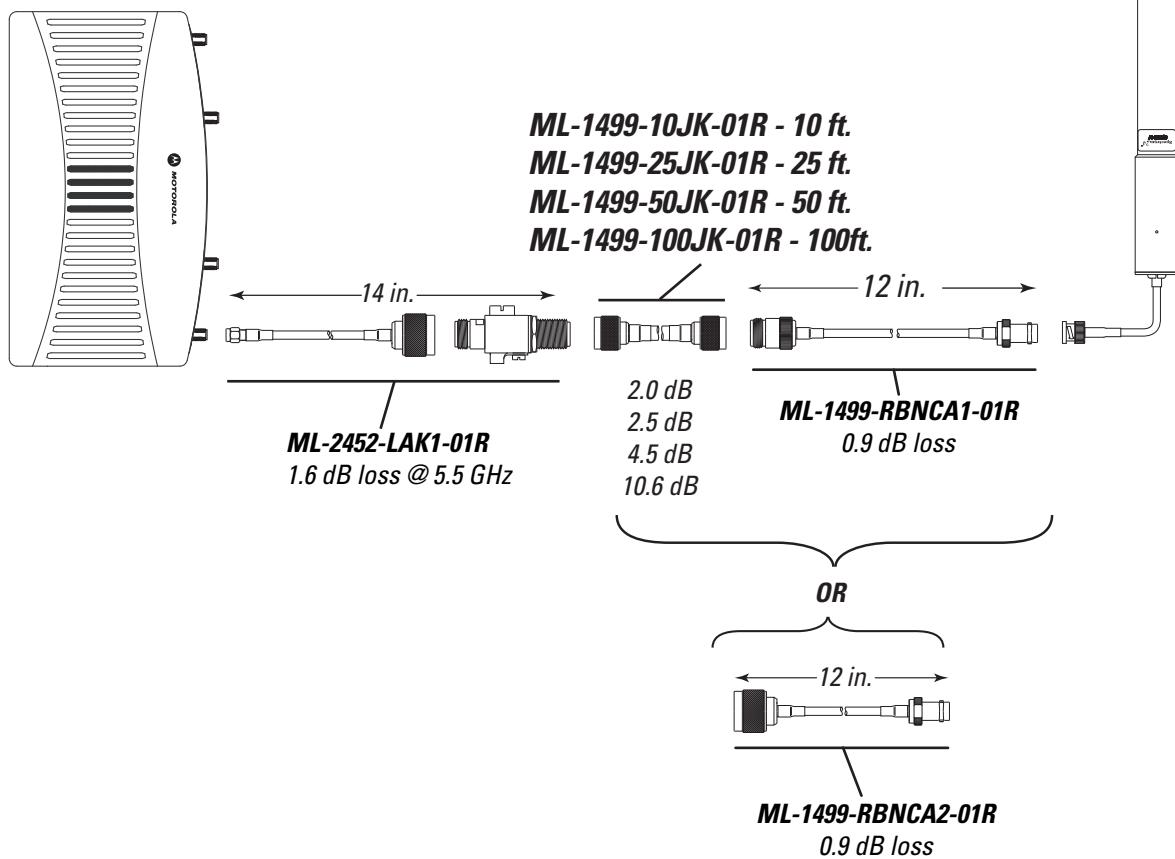

ML-2499-5PNL-72-N  
ML-2499-FHPA5-01R  
ML-2499-FHPA9-01R

Antennas:  
ML-2499-HPA3-01R

### ***Lightning Arrestor, AP side***

## 10.2 5 GHz AP-5131 Antenna Connections

This section describes how the components described within this guide are used collectively in the following AP-5131 installation scenarios supporting the 5 GHz band:

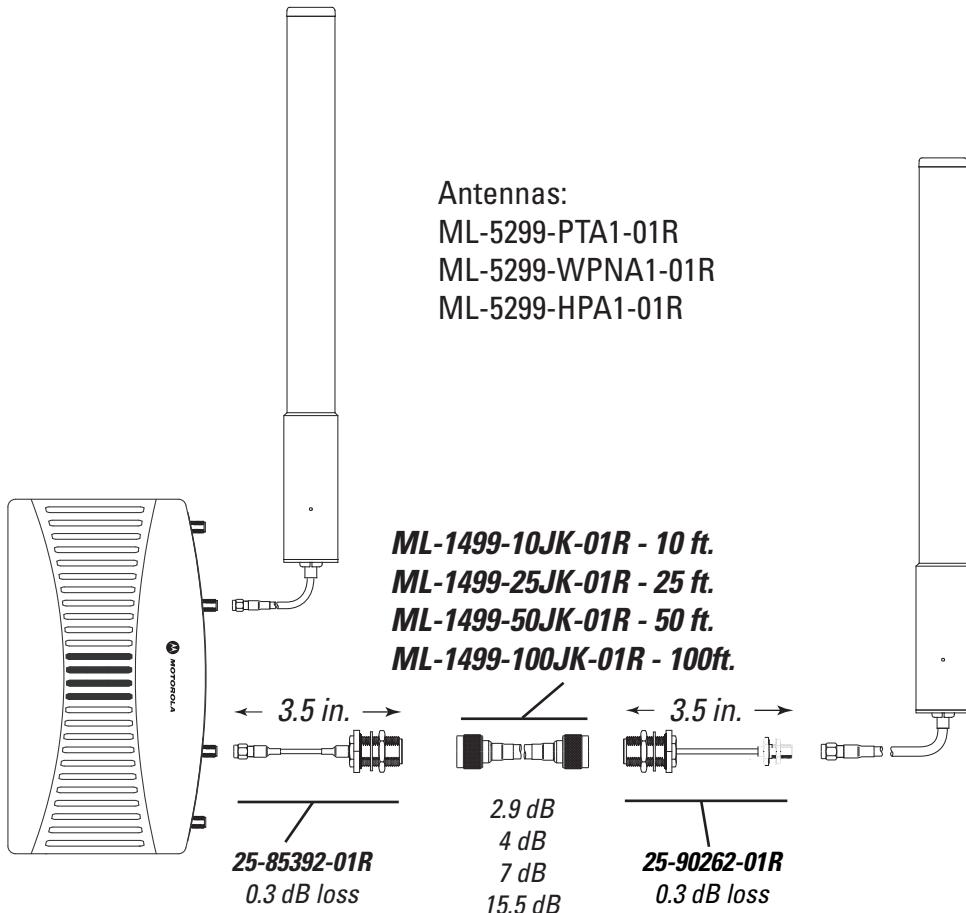

- *RP-SMA Male Antenna Installation*
- *Type N Male Connector Installation*

**NOTE:** For information on the individual 5 GHz antennas approved for use with an AP-5131, see [5.2 Ghz Single Band Antenna Suite](#).

### 10.2.1 RP-SMA Male Antenna Installation

Refer to the following for a graphical depiction of the parts and connection options available for cabling an 5 GHz AP-5131 model access point using a RP-SMA male antenna (with no lightning arrestor):

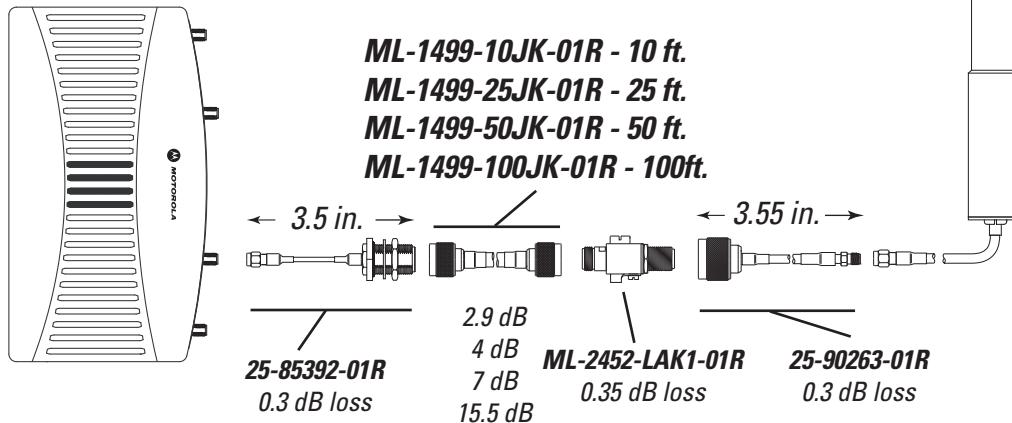

Refer to the following for a graphical depiction of the parts and connection options available for cabling an 5 GHz AP-5131 model access point using a RP-SMA male antenna (with a lightning arrestor):

### **Lightning Aressstor, Antenna side**

Antennas:

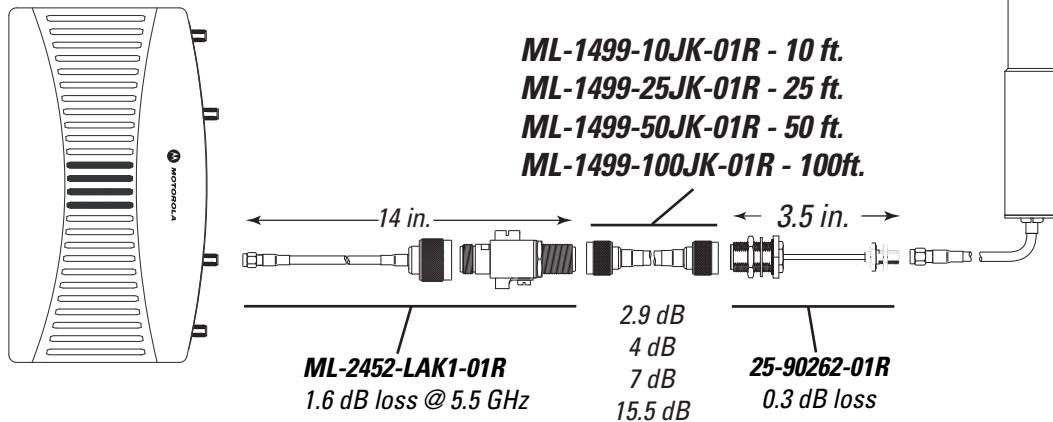

ML-5299-PTA1-01R  
ML-5299-WPNA1-01R  
ML-5299-HPA1-01R

### **Lightning Aressstor, AP side**

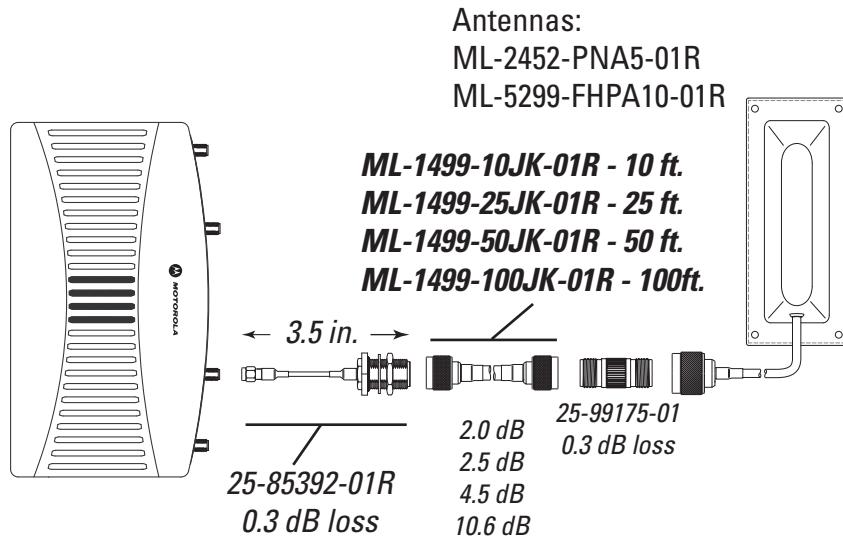

Antennas:

ML-5299-PTA1-01R  
ML-5299-WPNA1-01R  
ML-5299-HPA1-01R

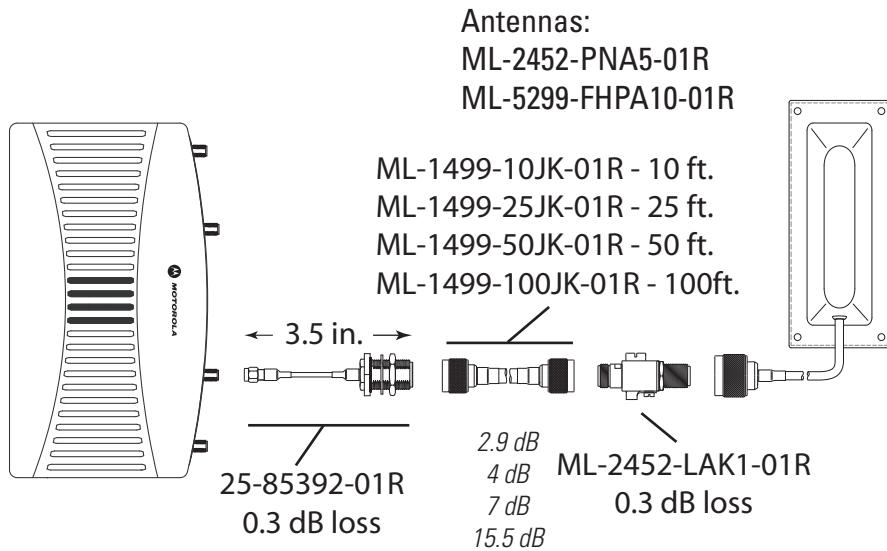

### 10.2.2 Type N Male Connector Installation

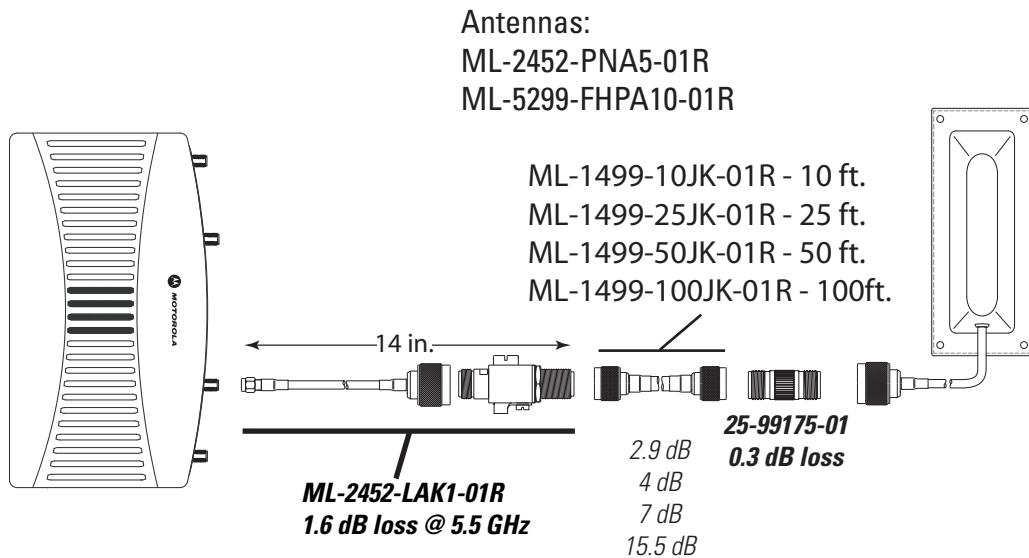

Refer to the following for a graphical depiction of the parts and connection options available for cabling an 5 GHz AP-5131 model access point using Type N male connectors:

### ***Lightning Aressstor, AP side***

# 11

## ***AP300 Antenna Connections***

This chapter describes how the 2.4 and 5 GHz antennas described within this guide are physically connected to an AP300 model access port. The information in this chapter supports an AP300 external antenna model only.

**CAUTION:** The installation of lightning arrestors (as described in several of the AP300 antenna connection scenarios in this chapter) must meet local electrical codes.

---

For more information, see:

- [\*2.4 GHz AP300 Antenna Connections\*](#)
- [\*5 GHz AP300 Antenna Connections\*](#)

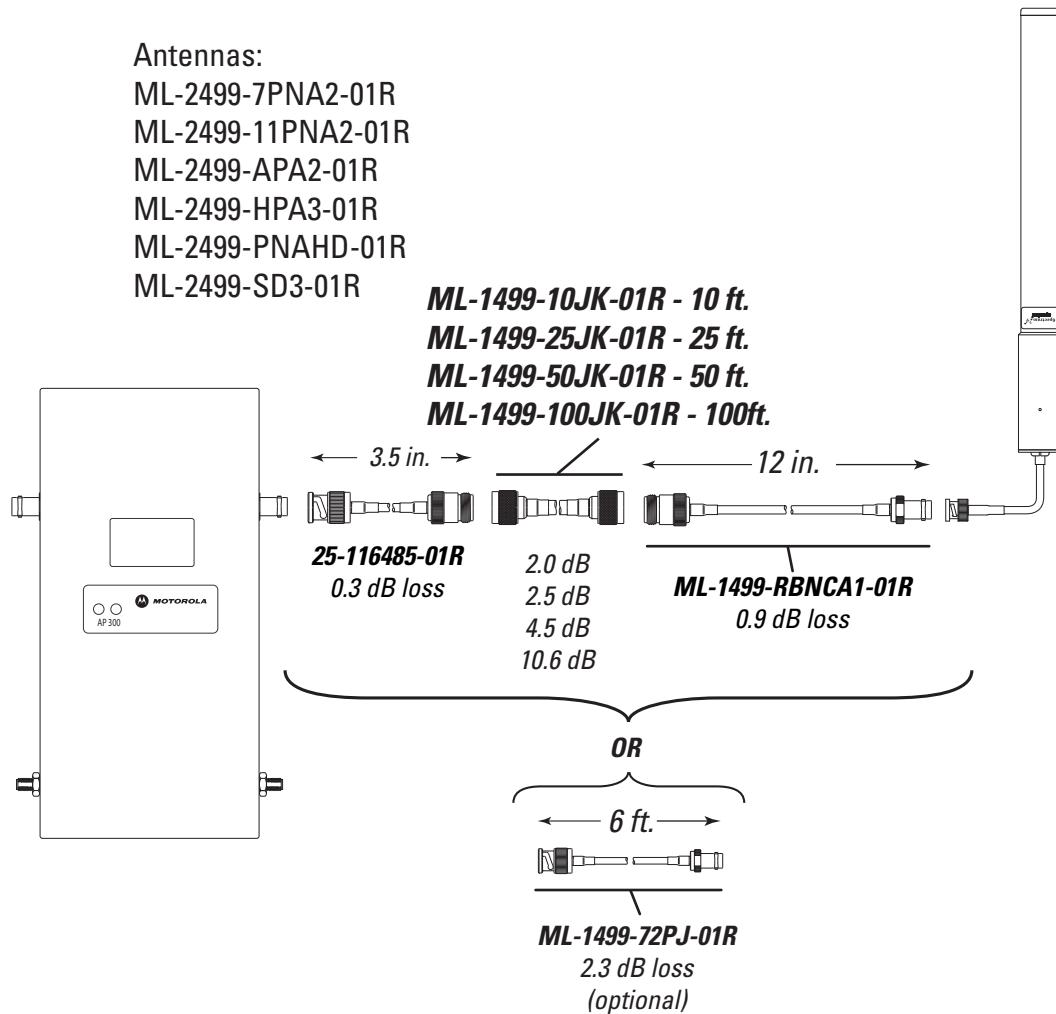

### **11.1 2.4 GHz AP300 Antenna Connections**

This section describes how the components described within this guide are used collectively in the following AP300 installation scenarios supporting the 2.4 GHz band:

- [\*RP-BNC Male Antenna Installation\*](#)
- [\*Type N Female Connector Installation\*](#)
- [\*Type N Male Connector Installation\*](#)

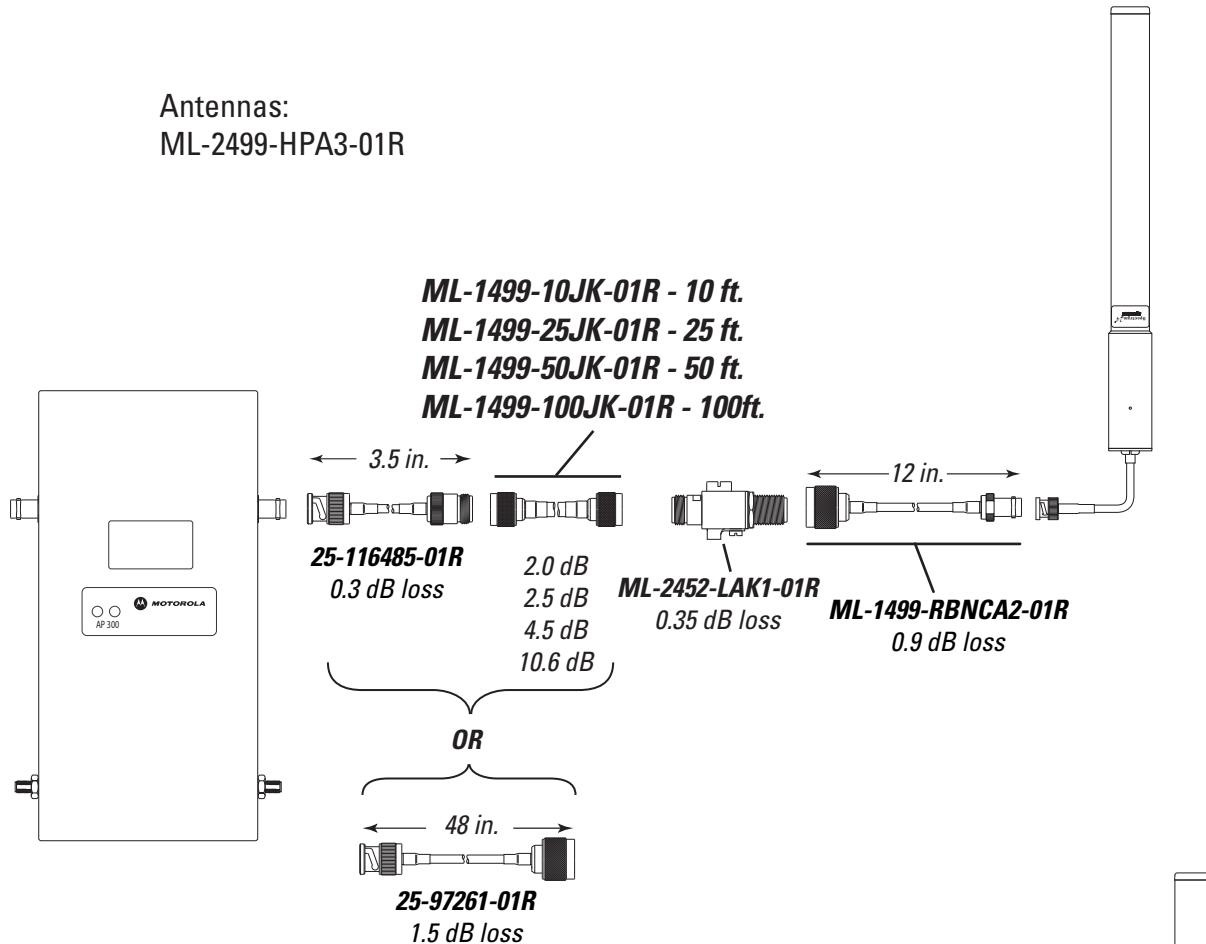

### 11.1.1 RP-BNC Male Antenna Installation

Refer to the following for a graphical depiction of the parts and connection options available for cabling an 2.4 GHz AP300 model access port using RP-BNC male antennas:

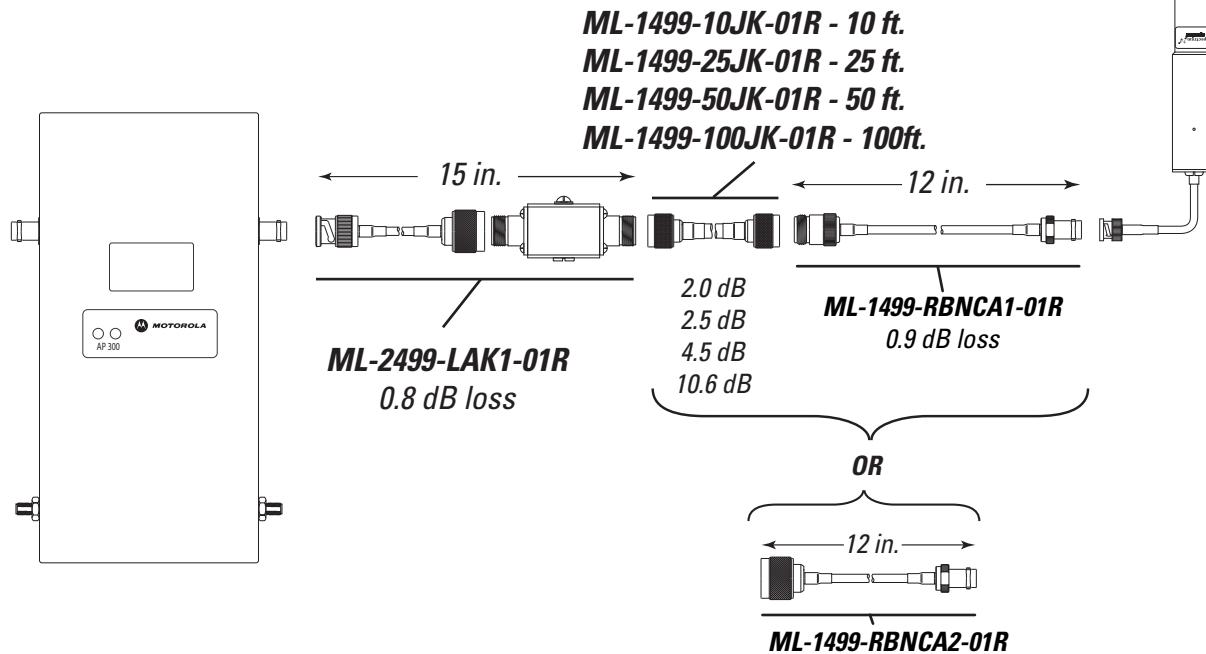

### ***Lightning Arrestor, Antenna side***

Antennas:  
ML-2499-HPA3-01R

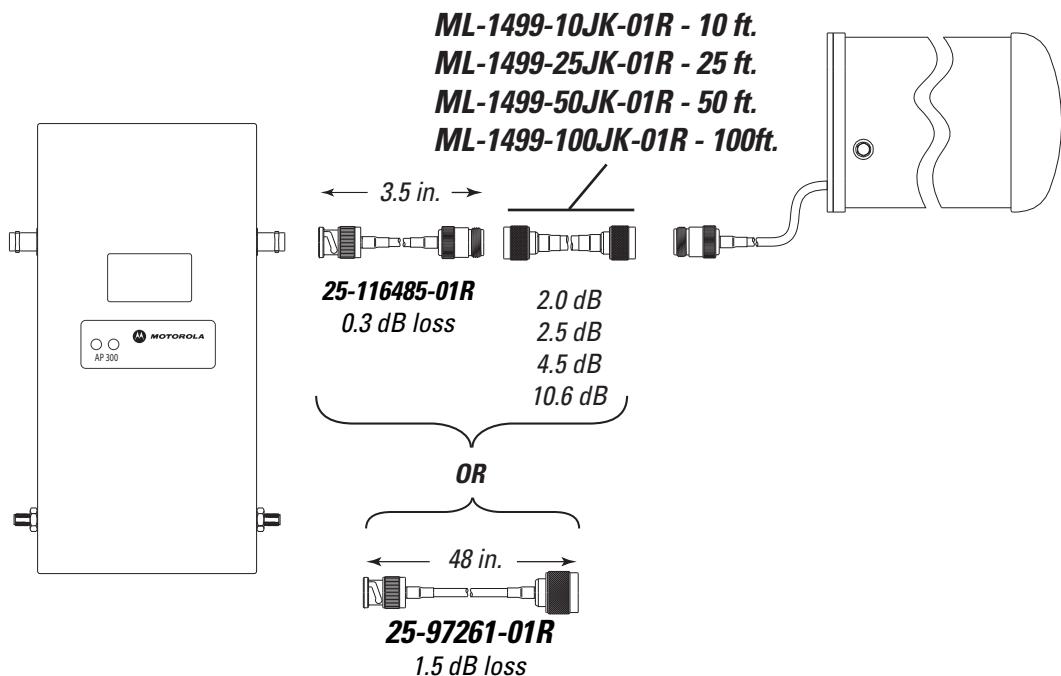

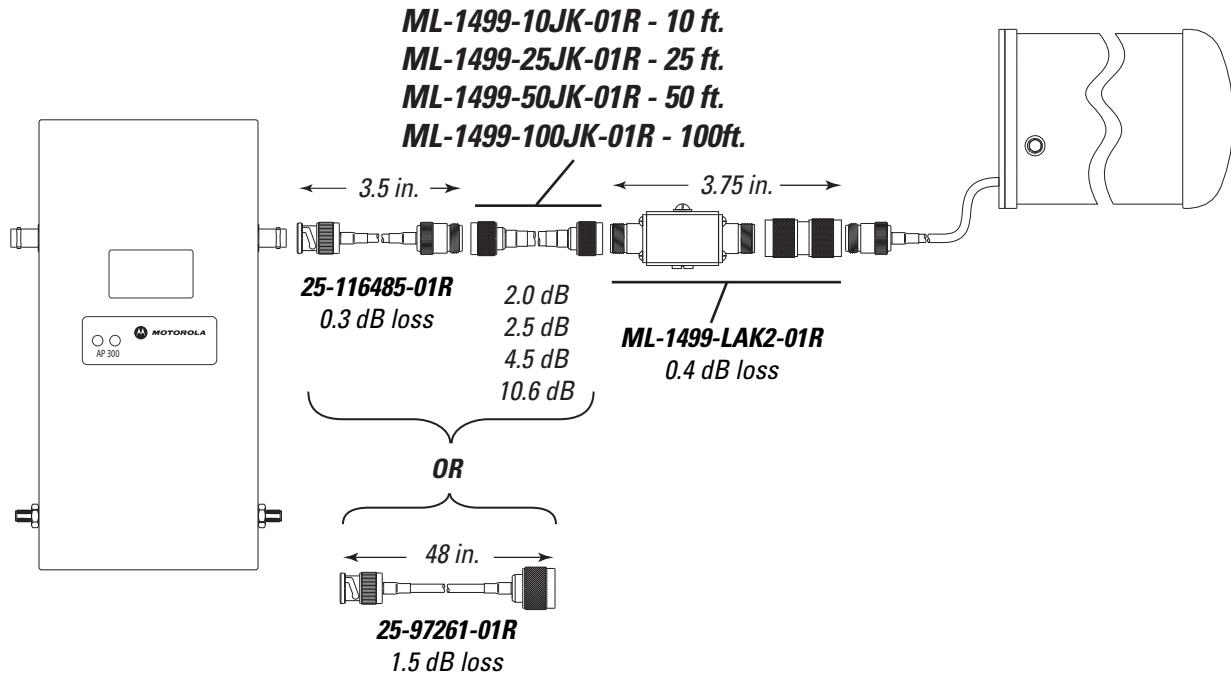

### ***Lightning Arrestor, AP side***

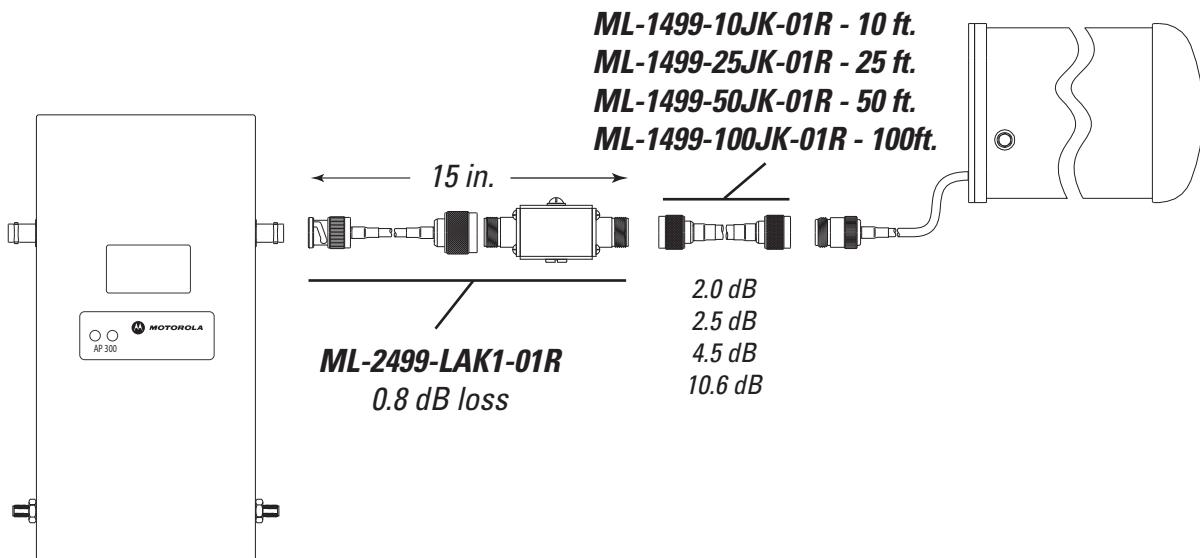

### 11.1.2 Type N Female Connector Installation

Refer to the following for a graphical depiction of the parts and connection options available for cabling an 2.4 GHz AP300 model access port using Type N female connectors.

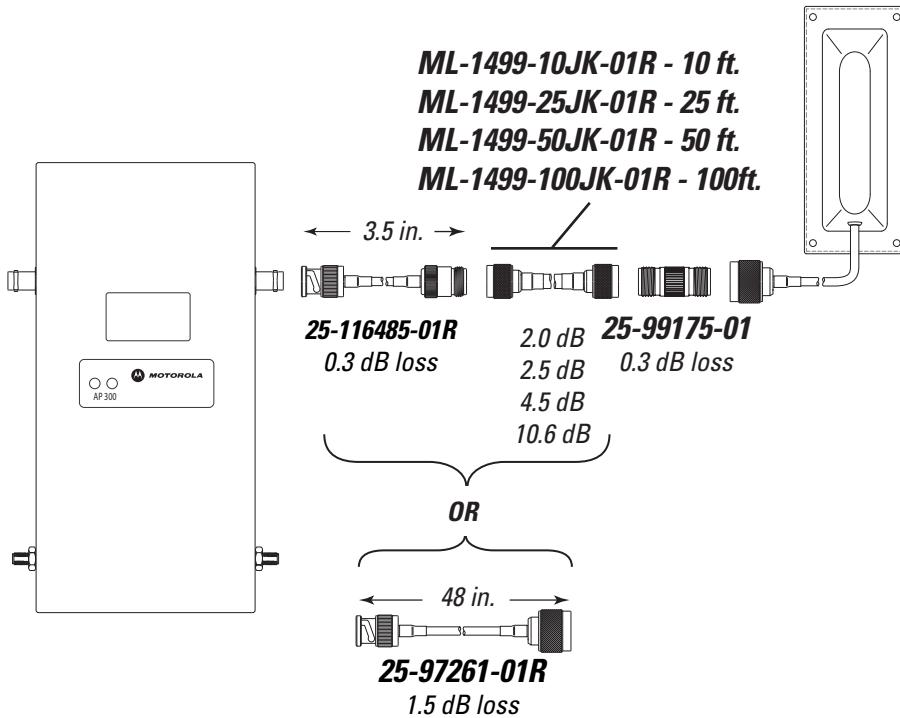

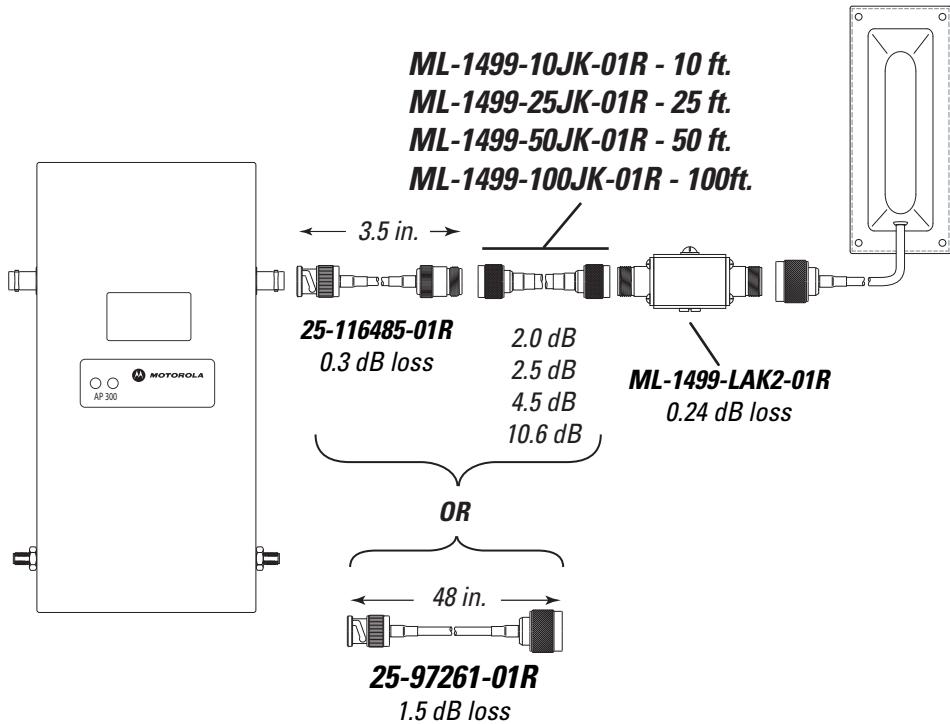

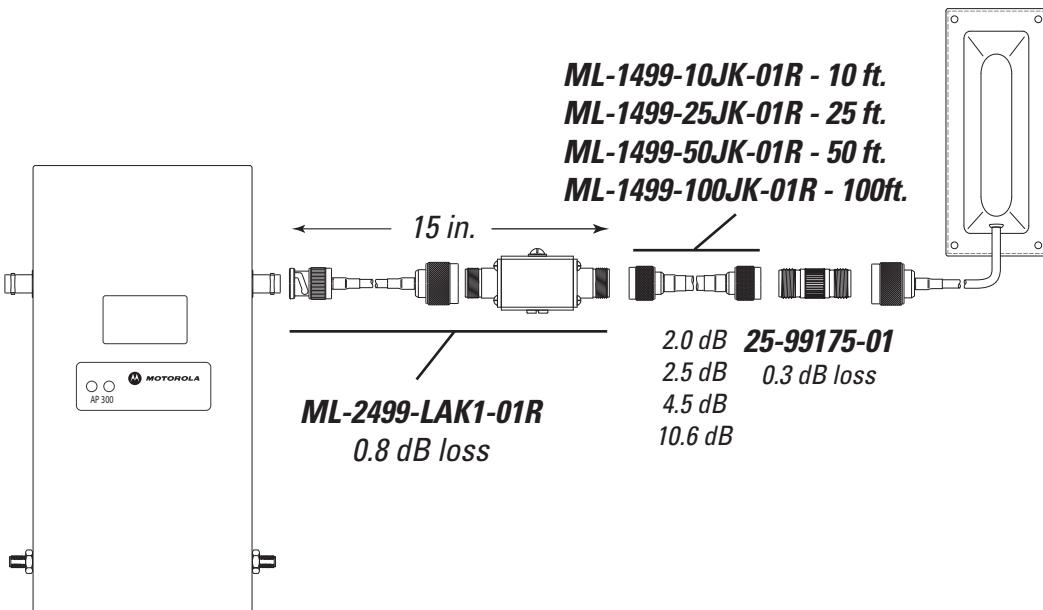

### ***Lightning Arrestor, AP side***

### 11.1.3 Type N Male Connector Installation

Refer to the following for a graphical depiction of the parts and connection options available for cabling an 2.4 GHz AP300 model access port using Type N male connectors:

***Lightning Arrestor, Antenna side******Lightning Arrestor, AP side***

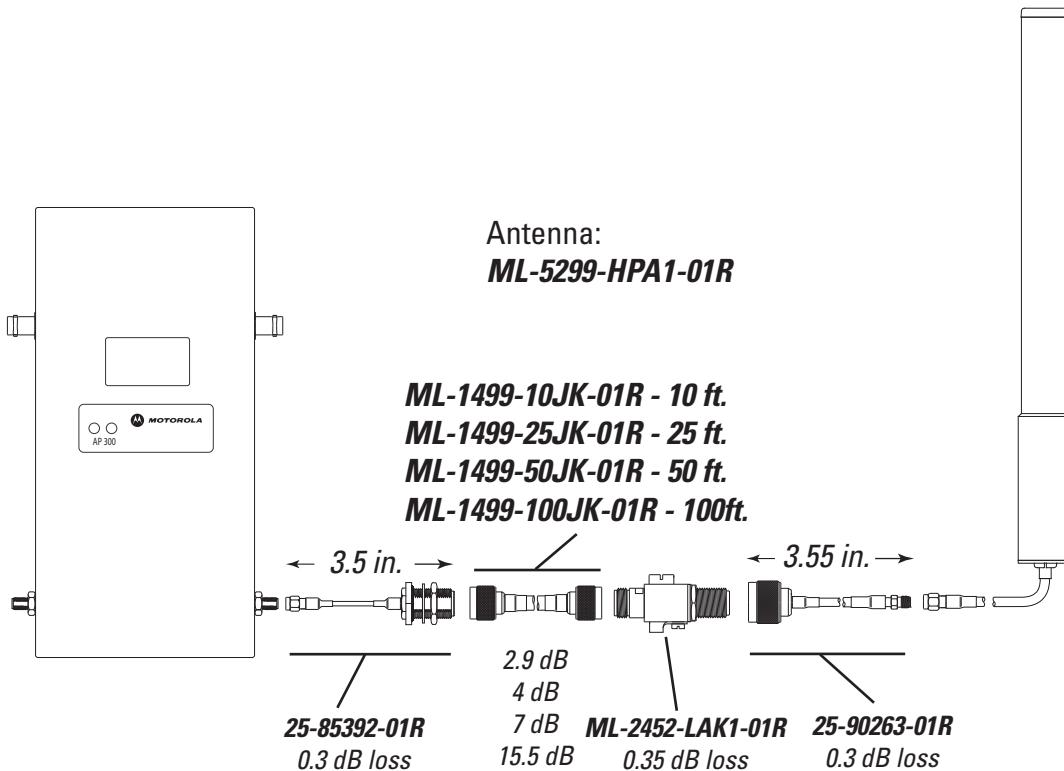

## 11.2 5 GHz AP300 Antenna Connections

This section describes how the components described within this guide are used collectively in the following AP300 installation scenarios supporting the 5 GHz band:

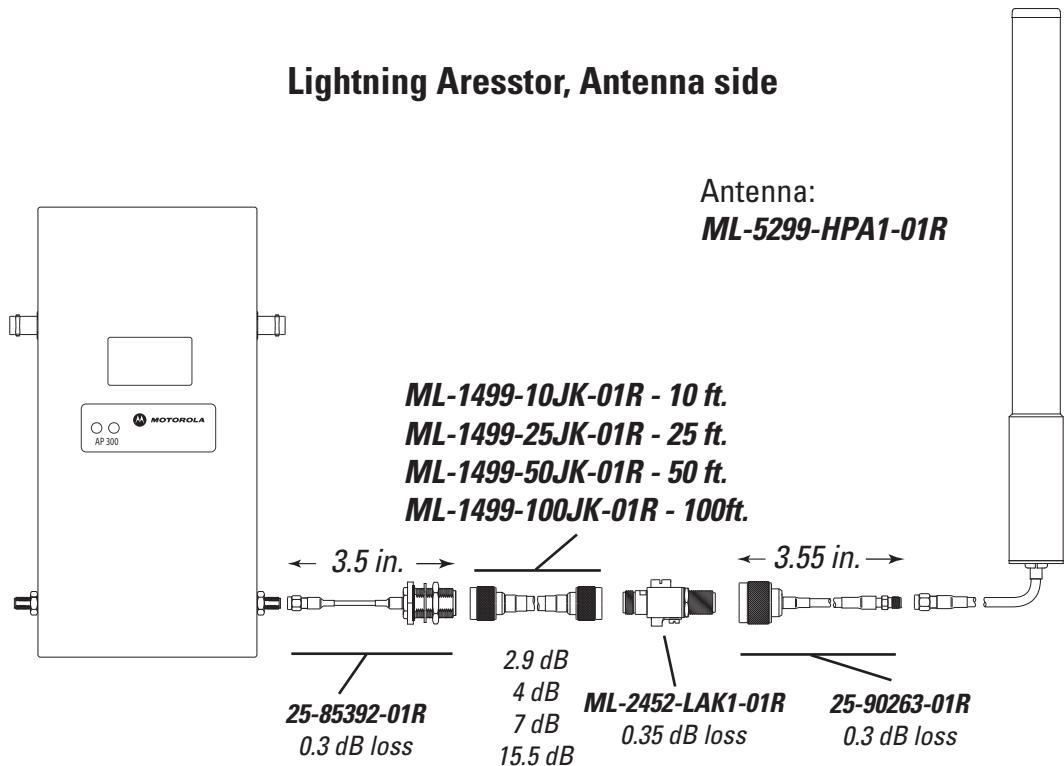

- *RP-SMA Male Antenna Installation*
- *Type N Male Connector Installation*

### 11.2.1 RP-SMA Male Antenna Installation

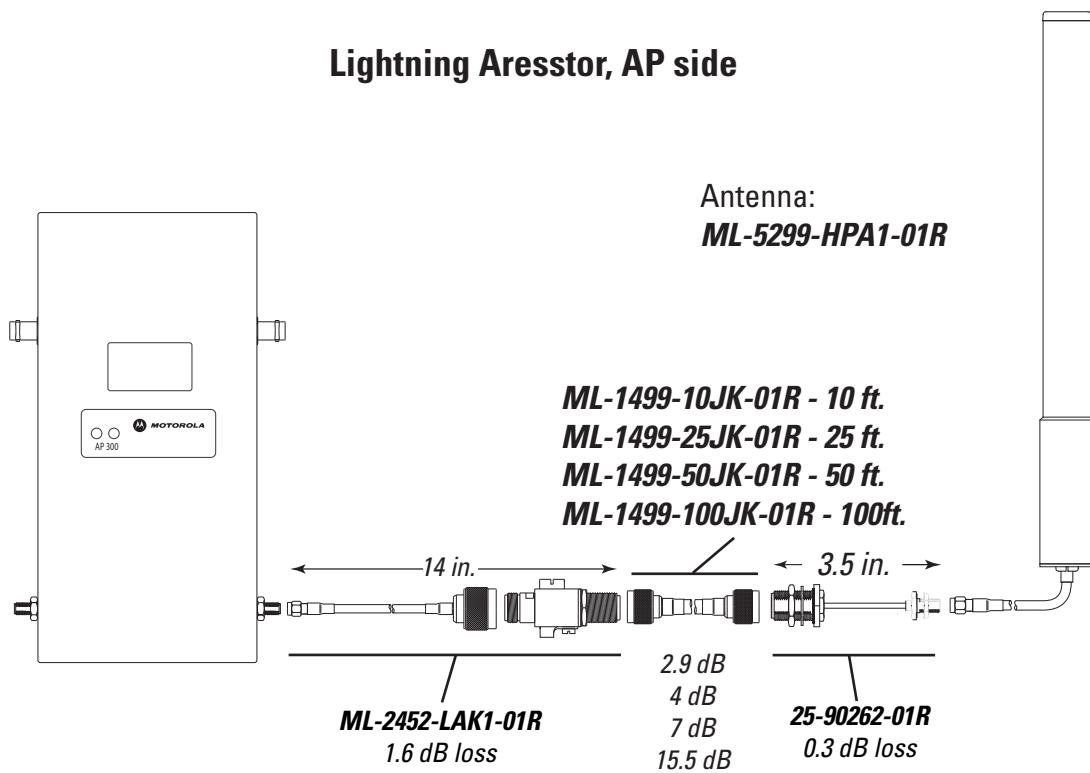

Refer to the following for a graphical depiction of the parts and connection options available for cabling an 5 GHz AP300 model access port using a RP-SMA male antenna.

### Lightning Aressstor, Antenna side

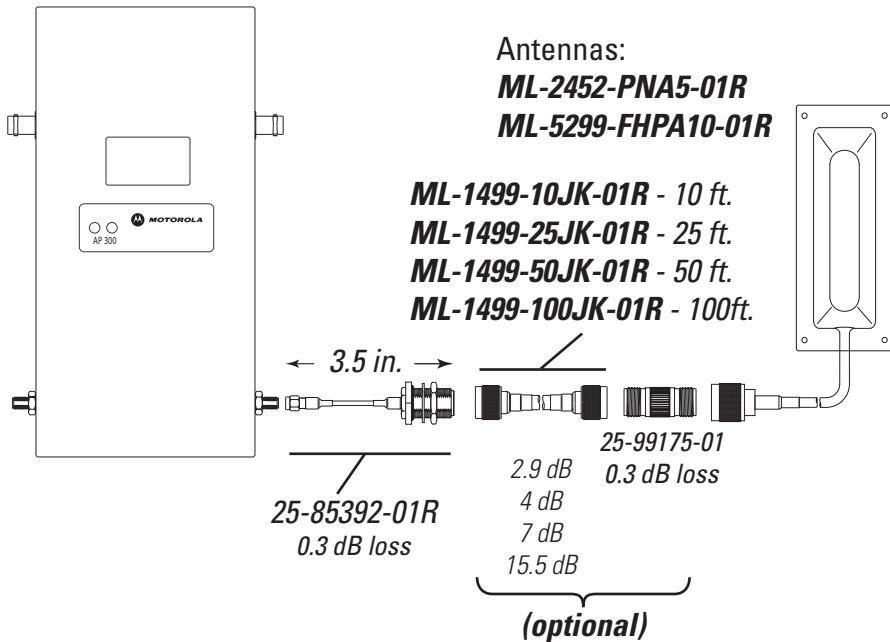

### Lightning Aressstor, AP side

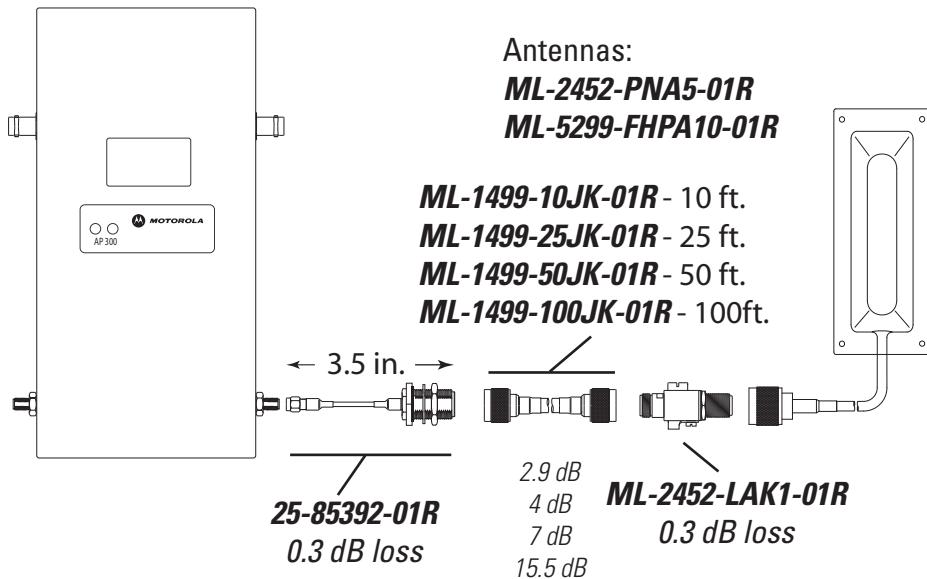

### 11.2.2 Type N Male Connector Installation

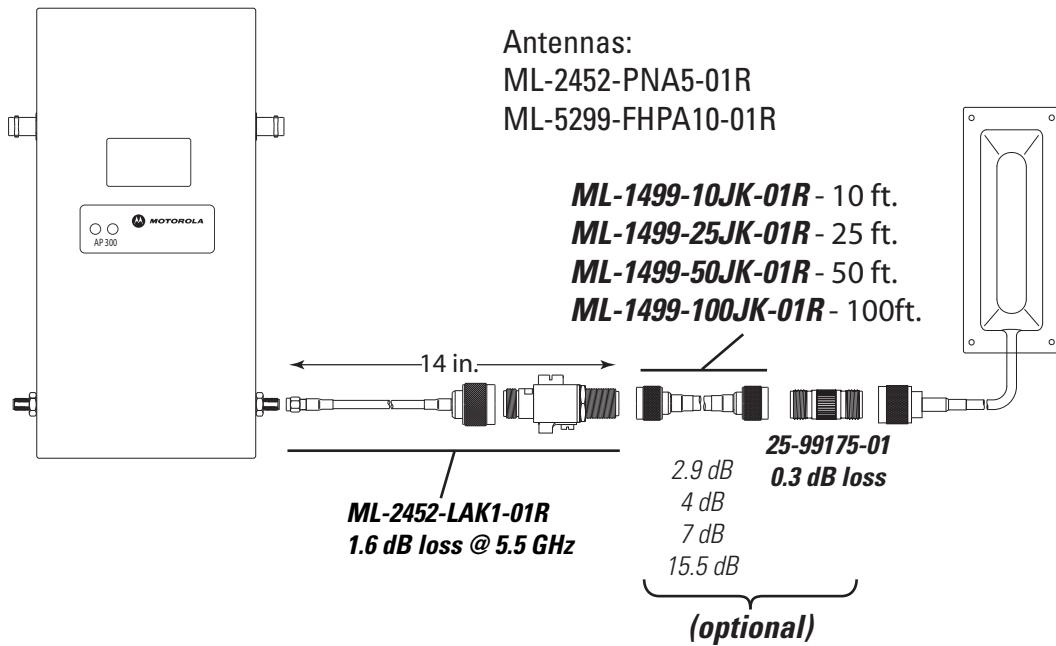

Refer to the following for a graphical depiction of the parts and connection options available for cabling an 5 GHz AP300 model access port using Type N male connectors:

### ***Lightning Aressstor, Antenna side***

### ***Lightning Aressstor, AP side***

# 12

## **AP7131 Transmit Power**

### **12.1 Configuring the AP7131 Series Transmit Power**

Professional installers must configure an AP7131 series access point so it does not violate FCC regulations pertaining to output transmit power.

This chapter describes how to adjust an AP7131 series access point's radio transmit power.

**NOTE:** Motorola Solutions assumes the AP7131 series access point radio and power configuration activities described in this chapter are conducted at the location that access point is actually installed and deployed.

To define an AP7131 series access point's radio transmit power:

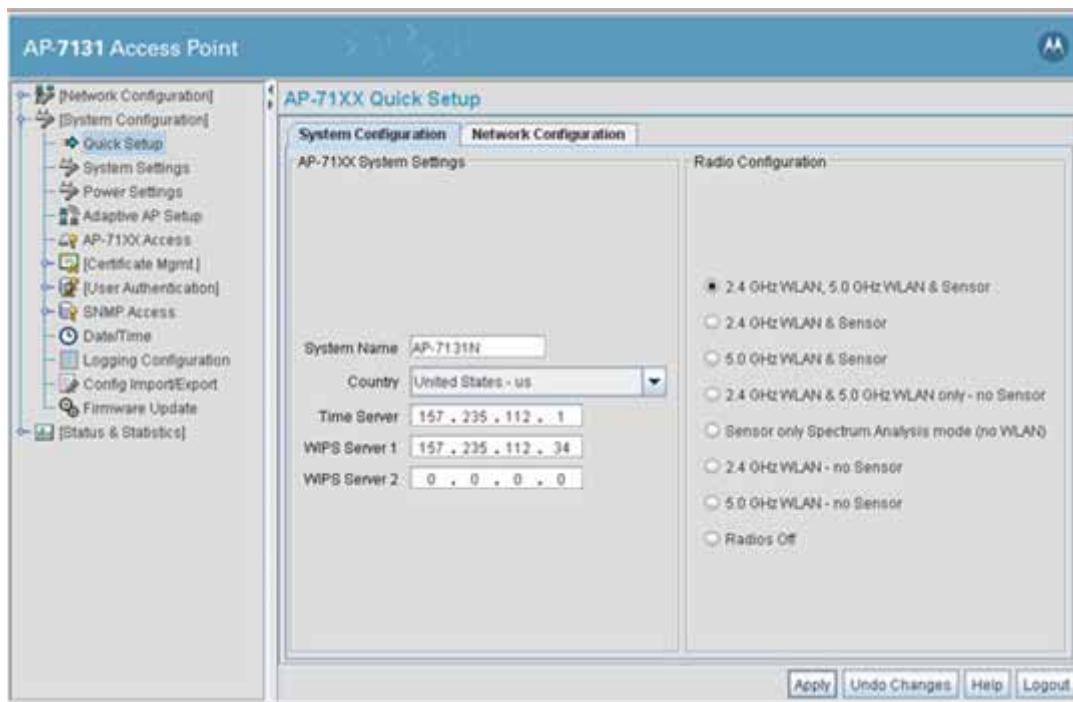

1. Complete the physical installation of the AP7131 series access point following one of the supported mounting options within either the *AP7131 Series Installation Guide* or *Product Reference Guide*. Both guides are available at <http://support.symbol.com/support/product/manuals.do>.

An AP7131 series access point can attach to a wall, mount under a suspended T Bar or above a ceiling (plenum or attic) following the same installation instructions. Choose a mounting option based on the physical environment of the coverage area. Do not mount the access point in a location that has not been approved in a site survey.

2. Start a browser and enter the access point's default static IP address for the WAN port (10.1.1.1).
3. Initially log in using **admin** as the default Username and **motorola** as the default Password. Use your new password if it has been updated from default.

If the default login is successful, the **Change Admin Password** window displays. Change the password immediately to ensure secure access.

4. Select **System Configuration > Quick Setup** from the menu tree.

5. Select the **System Configuration** tab to define the access point's country code and radio configuration.
6. Select the **Country** for the access point's country of operation.

The access point prompts for the correct country code on the first login. A warning message also displays stating an incorrect country setting may result in illegal radio operation. Selecting the correct country is central to legally operating the access point. Each country has its own regulatory restrictions concerning electromagnetic emissions and the maximum RF signal strength that can be transmitted. To ensure compliance with national and local laws, set the country accurately.

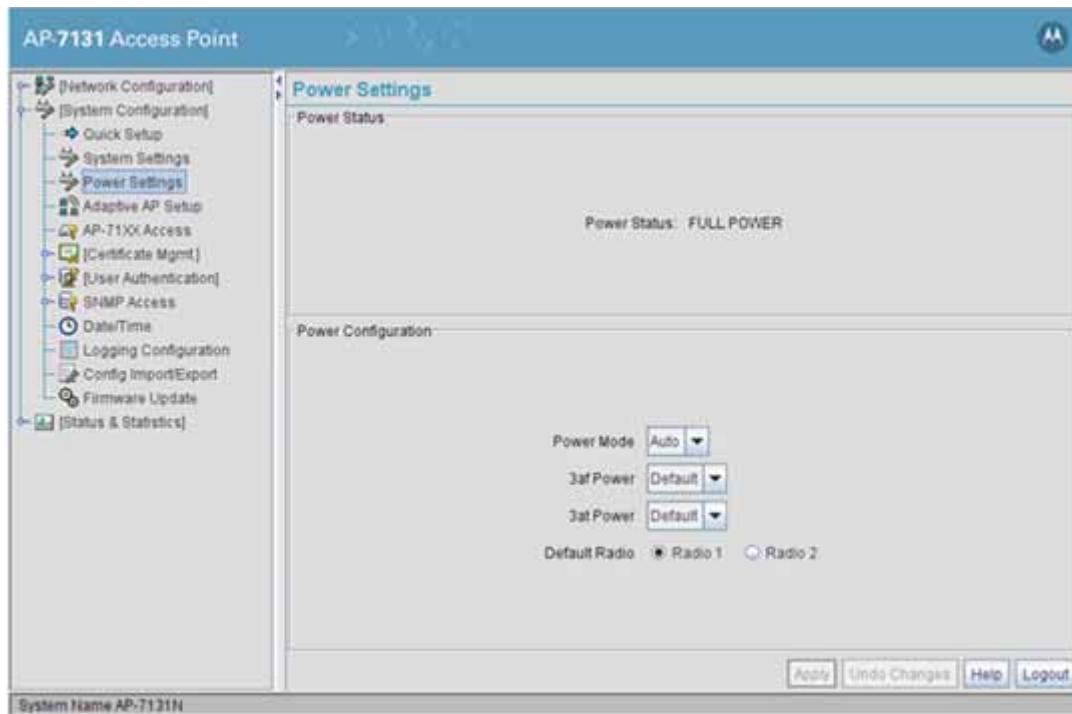

**NOTE:** If the access point is a US supported model, the country code is automatically set to US.

7. Refer to the **Radio Configuration** field to define how WLAN and WIPS are supported by the access point's radio(s). Remember, the options available depend on the single, dual or three radio model deployed. Apply your settings when finished with the updates.

| <b>Radio Button</b>                                | <b>Single Radio SKU</b> | <b>Dual Radio SKU</b>            | <b>Three Radio SKU</b>                                 |
|--|-------------------------|----------------------------------|--|
| 2.4 GHz WLAN,<br>5.0 GHz WLAN<br>& Sensor          | Not Available           | Not Available                    | Radio 1 WLAN,<br>Radio 2 WLAN,<br>Radio 3 WIPS         |
| 2.4 GHz WLAN,<br>& Sensor                          | Not Available           | Radio1 WLAN,<br>Radio 2 WIPS     | Radio 1 WLAN,<br>Radio 2 WIPS,<br>Radio 3 WIPS         |

| 2.4 GHz WLAN<br>no Sensor                          | Radio 1 WLAN (B/G/N)    | Radio1 WLAN,<br>Radio 2 Disabled | Radio 1 WLAN,<br>Radio 2 Disabled,<br>Radio 3 Disabled |
| 5.0 GHz WLAN<br>no Sensor                          | Radio 1 WLAN (A/N)      | Radio1 Disabled,<br>Radio 2 WLAN | Radio 1 Disabled,<br>Radio 2 WLAN,<br>Radio 3 Disabled |
| Radios Off   | Radio 1 Disabled        | Radios 1 and 2 Disabled          | Radios 1, 2 and 3<br>Disabled                          |

8. Select **System Configuration > Power Settings** from the menu tree.

Within the **Power Configuration** field, an installation professional selects a power mode based on the different power resources available to that access point's SKU. For 3af and 3at, choose between **Default** and **Option** as best suited to that hardware SKU. For example, if Option is selected for 3af Power, and the access point is a dual radio model, the following configuration is set:

LAN port ON (1000 BASE T)  
 WAN port OFF  
 Radio 1 (2.4) on, 2x3 mode with maximum transmit power 18dBm  
 Radio 2 (5.0) on, 2x3 mode with maximum transmit power 18dBm

9. For this example, set the Power Mode to **Auto** (if not already defined as Auto by default). Leave the 3af and 3at Power settings as Default.

When the access point is powered on for the first time, the system determines the power budget available to the access point. Using the Auto setting (default setting), the access point automatically determines the best power configuration based on the available power budget. Therefore, the Auto power mode option affords the professional installer a smaller margin of error for legally setting the access point's transmit output power. If changes are made, reboot the access point.

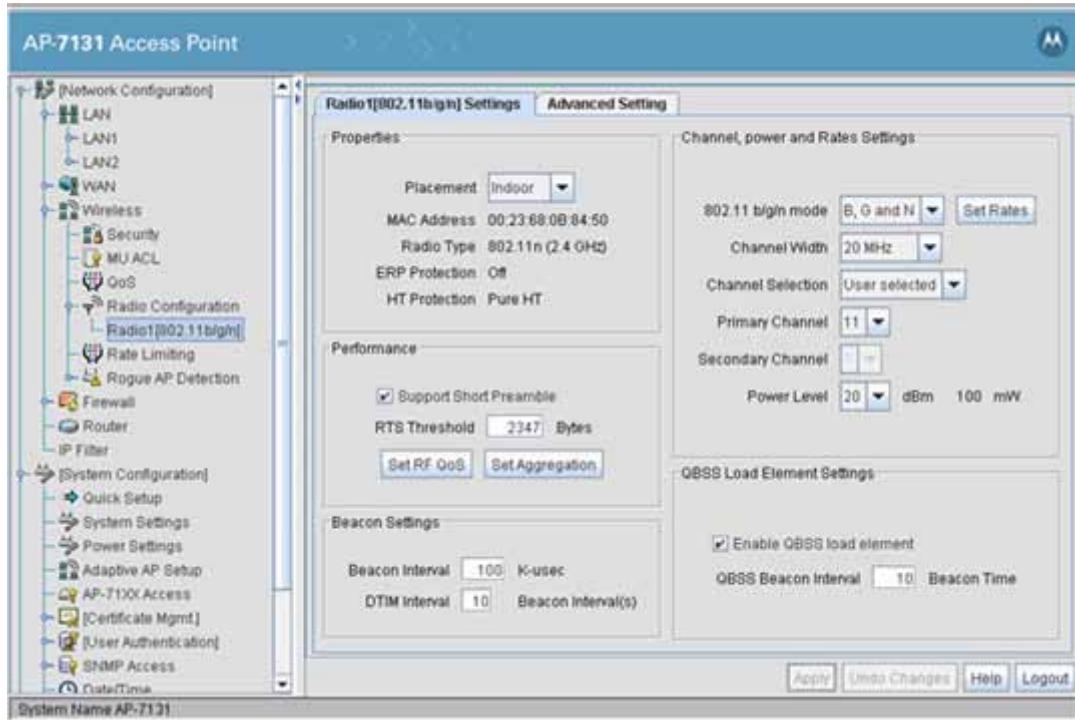

**NOTE:** Ensure the access point is connected to its expected power supply (3af, 3at or Full Power). Check available access point power by reviewing the Power Status field within the Power Settings screen (this value is cable length dependent). Compare available power to the *Maximum Transmit Power vs POE* table below. If available supply power does not allow the desired transmit power, then increase the supply power.

#### **Maximum Possible Transmit Power**

| <b>Power Status</b> | <b>2.4 GHz</b> | <b>5.2 GHz</b> |
|---------------------|----------------|----------------|
| 3af                 | +20            | +19            |
| 3at                 | +23            | +20            |
| Full Power          | +23            | +20            |

10. Select **Network Configuration > Wireless > Radio Configuration > Radio1** or **Radio 2** from the access point menu tree.

11. Refer to the **Channel, power and Rate Settings** field.

12. Set an 802.11 a/n or 802.11 b/g/n radio mode as appropriate.

For radio1, specify **B, G and N**, **B and G**, **G Only**, **B Only** or **N Only** to define whether the 802.11b/g/n radio transmits in the 2.4 GHz band exclusively for 802.11b (legacy) clients or transmits in the 2.4 GHz band for 802.11g/n clients. Selecting **B and G** enables the access point to transmit to both B and G clients if legacy clients (802.11b) partially comprise the network. Select accordingly based on the MU requirements of the network.

**NOTE:** Select the access point radio's 802.11 a/n or 802.11b/g/n mode carefully in respect to the radio's intended data rate and client support requirements, as the rates available differ depending on the selected mode. For more information on selected mode versus data rate, see [2.4 GHz Mode Versus Data Rate on page 12-8](#) or [5.2 GHz Mode Versus Data Rate on page 12-13](#).

The rates for the access point's 2.4 GHz radio are:

- **B, G and N** Allows only basic rates (default setting)
- **B and G** Allows 11b basic rates. Does not allow MCS rates
- **G and N** Requires basic rates (either 6, 12, 24 or 1, 2, 5.5, 11, 6, 12, 24)
- **G Only** Requires one 11g basic rate. Does not allow MCS rates
- **B Only** Allows for 11b rates only. Does not allow G or N rates
- **N Only** Requires basic MCS rates

If the mode is **B and G**, the Channel Width option is not available, and a Secondary Channel cannot be defined.

For the 5.2 GHz radio, specify **A and N**, **A Only** or **N Only** to define whether the 802.11a/n radio transmits in the 5.2 GHz band exclusively for 802.11a clients, 802.11n clients or transmits in the 5.2 GHz band for both 802.11a/n clients.

The rates for the access point's 5.2 GHz radio are:

- *A Only* Allows 11a rates
- *N Only* Requires basic MCS rates
- *A and N* Allows only 11a basic rates (default setting)

13. For this example, leave the Channel Width at **20/40** and set the Channel to **User selected** for both the 802.11 b/g/n and 802.11 a/n radios.

20/40 MHz operation (the default setting for the 5 GHz radio) allows the access point to receive packets from clients using 20 MHz of bandwidth while transmitting a packet using 40 MHz bandwidth. This mode is supported for 11n users on both the 2.4 and 5 GHz radios. If an 11n user selects two channels (a Primary and Secondary channel), the system is configured for dynamic 20/40 operation. When 20/40 is selected, clients can take advantage of “wider channels.” 802.11n clients experience improved throughput using 40 MHz while legacy clients (either 802.11a or 802.11b/g depending on the radio selected) can still be serviced without interruption using 20 MHz.

**User selected** is the default Channel Selection setting. If 20/40 MHz is selected as the Channel Width (supporting 11n), the Secondary Channel drop down menu becomes enabled. The user must define the primary channel first. Then, depending on the primary channel defined, the secondary channel list is filled with channels making the combination of primary and secondary channels valid. The actual channels available depend on regulatory domain requirements.

14. Set the **Power Level** in respect to the antennas deployed and the defined channel.

**NOTE:** If you set the transmit power too high (in relation to FCC transmit requirements), the access point will display an Input Error message stating the maximum power level for the selected channel has been exceeded.

---

15. Select **Status and Statistics > Radio Stats > Radio1(802.11b/g/n) Statistics or Radio2 (802.11a/n) Statistics** from the access point menu tree.

Refer to the **Current Channel** parameter from within the Information field. This value displays (in red) the two channels utilized as a result of selecting 20/40 as the Channel Width. The first value represents the channel utilized for the 20 MHz bandwidth and the second value (displayed in parenthesis) is the channel supporting 40 MHz.

### 12.1.1 Supported Antennas by Band, Model, Rate and Transmit Power

Refer to the following Motorola Solutions AP7131 supported antennas for their US Regulatory Domain transmit power (in both the 2.4 and 5.2 GHz bands), rates and supported channels.

#### *US Regulatory Domain 2.4 GHz Band*

## 12.2 US Regulatory Domain 2.4 GHz Band

### 12.2.1 2.4 GHz Mode Versus Data Rate

When setting 2.4 GHz data rates using the access point's GUI applet, use the following chart to cross reference data rates to the radio's selected operational mode.

|   | <b>B, G and N</b> | <b>G and N</b> | <b>N Only</b> | <b>B and G</b> | <b>G Only</b> | <b>B Only</b> |
|---|-------------------|----------------|---------------|----------------|---------------|---------------|
| <b>LEGACY DSSS RATES (1, 2, 5.5, 11 MBPS)</b>         | X                 |                |               | X              |               | X             |
| <b>LEGACY OFDM RATES (6,9,12,18,24,36,48,54 MBPS)</b> | X                 | X              |               | X              | X             |               |
| <b>802.11n HT20 RATES (MCS 0 MCS 15)</b>              | X                 | X              | X             |                |               |               |
| <b>802.11n HT40 RATES (MCS 0 MCS15)</b>               | X                 | X              | X             |                |               |               |

### 12.2.2 Yagi Antenna Models

The following is the Yagi antenna model for 2.4 GHz:

---

**Motorola Solutions Part Number**

---

ML-2499-BYGA2-01R

---

#### 12.2.2.1 Yagi Antenna Maximum Conducted Transmit Power Settings

The following is a transmit power table (US domain) per Yagi antenna in the 2.4 GHz band:

| <b>20 MHZ CHANNEL</b> | <b>40 MHZ CHANNEL</b> | <b>LEGACY DSSS RATES (1, 2, 5.5, 11 MBPS)</b> | <b>LEGACY OFDM RATES (6,9,12,18,24,36, 48,54 MBPS)</b> | <b>802.11n HT20 RATES (MCS 0 MCS 15)</b> | <b>802.11n HT40 RATES (MCS 0 MCS15)</b> |
|-----------------------|-----------------------|---|--|--|---|
| 1                     |                       | 13  | 7  | 7  |   |
| 2                     |                       | 13  | 7  | 7  |   |
| 3                     | (1, 5)                | 13  | 7  | 7  | 2                                       |
| 4                     | (2, 6)                | 13  | 7  | 7  | 2                                       |
| 5                     | (3, 7)                | 13  | 7  | 7  | 2                                       |
| 6                     | (4, 8)                | 13  | 8  | 8  | 5                                       |
| 7                     | (5, 9)                | 12  | 7  | 6  | 2                                       |
| 8                     | (6, 10)               | 12  | 7  | 6  | 2                                       |
| 9                     | (7, 11)               | 12  | 7  | 6  | 2                                       |
| 10                    |                       | 12  | 7  | 6  |   |
| 11                    |                       | 12  | 7  | 6  |   |

With the most recent AP7131 series software release (4.0.0.0) the Web browser of the command line interface do not allow setting the transmit power to any value less than 4dBm.

**NOTE:** When a Yagi antenna is used, a 2dB external RF attenuator must be added. Lower power settings will be provided in subsequent software releases.

### 12.2.3 Panel Antenna Models

The following is the panel antenna model for 2.4 GHz:

---

**Motorola Solutions Part Number**

---

ML-2452-PTA3M3-036

---

#### 12.2.3.1 Panel Antenna Maximum Conducted Transmit Power Settings

The following is a transmit power table (US domain) per panel antenna in the 2.4 GHz band:

| <b>20 MHZ CHANNEL</b> | <b>40 MHZ CHANNEL</b> | <b>LEGACY DSSS RATES (1, 2, 5.5, 11 MBPS)</b> | <b>LEGACY OFDM RATES (6,9,12,18,24,36, 48,54 MBPS)</b> | <b>802.11n HT20 RATES (MCS 0 MCS 15)</b> | <b>802.11n HT40 RATES (MCS 0 MCS15)</b> |
|-----------------------|-----------------------|---|--|--|---|
| 1                     |                       | 16  | 11   | 10                                       |   |
| 2                     |                       | 16  | 11   | 10                                       |   |
| 3                     | (1, 5)                | 16  | 11   | 10                                       | 7                                       |
| 4                     | (2, 6)                | 16  | 11   | 10                                       | 7                                       |
| 5                     | (3, 7)                | 16  | 11   | 10                                       | 7                                       |
| 6                     | (4, 8)                | 16  | 11   | 11                                       | 8                                       |
| 7                     | (5, 9)                | 16  | 11   | 9  | 5                                       |
| 8                     | (6, 10)               | 16  | 11   | 9  | 5                                       |
| 9                     | (7, 11)               | 16  | 11   | 9  | 5                                       |
| 10                    |                       | 16  | 11   | 9  |   |
| 11                    |                       | 16  | 11   | 9  |   |

## 12.2.4 Embedded Antenna Models

The following is the embedded antenna model for 2.4 GHz:

| <b>Motorola Solutions Part Number</b> |
|---------------------------------------|
| ML-2452-PTA2M3X3-1                    |

### 12.2.4.1 Embedded Antenna Maximum Conducted Transmit Power Settings

The following is a transmit power table (US domain) per embedded antenna in the 2.4 GHz band:

| <b>20 MHZ CHANNEL</b> | <b>40 MHZ CHANNEL</b> | <b>LEGACY DSSS RATES (1, 2, 5.5, 11 MBPS)</b> | <b>LEGACY OFDM RATES (6,9,12,18,24,36, 48,54 MBPS)</b> | <b>802.11n HT20 RATES (MCS 0 MCS 15)</b> | <b>802.11n HT40 RATES (MCS 0 MCS15)</b> |
|-----------------------|-----------------------|---|--|--|---|
| 1                     |                       | 20  | 16   | 16                                       |   |
| 2                     |                       | 20  | 16   | 16                                       |   |
| 3                     | (1, 5)                | 20  | 16   | 16                                       | 11                                      |
| 4                     | (2, 6)                | 20  | 16   | 16                                       | 11                                      |
| 5                     | (3, 7)                | 20  | 16   | 16                                       | 11                                      |
| 6                     | (4, 8)                | 18  | 14   | 14                                       | 12                                      |
| 7                     | (5, 9)                | 16  | 15   | 15                                       | 12                                      |
| 8                     | (6, 10)               | 16  | 15   | 15                                       | 12                                      |
| 9                     | (7, 11)               | 16  | 15   | 15                                       | 12                                      |
| 10                    |                       | 16  | 15   | 15                                       |   |
| 11                    |                       | 16  | 15   | 15                                       |   |

## 12.2.5 Dipole Antenna Models

The following are the dipole antenna models for 2.4 GHz:

| <b>Motorola Solutions Part Number</b> | <b>2.4 GHz Antenna Net Gain</b> |
|---------------------------------------|---------------------------------|
| ML-2452-APA2-01                       | 3                               |
| ML-2499-HPA3-01R                      | 4.7                             |
| ML-2452-APA6J-01 (microcell)          | - 6                             |

### 12.2.5.1 Dipole Antenna Maximum Conducted Transmit Power Settings

The following is a transmit power table (US domain) per dipole antenna in the 2.4 GHz band:

**NOTE:** The access point GUI only allows whole numbers be entered for transmit power. The decimal values are displayed within these tables to help installers accommodate for cable and accessory losses.

| <b>20 MHZ CHANNEL</b> | <b>40 MHZ CHANNEL</b> | <b>LEGACY DSSS RATES (1, 2, 5.5, 11 MBPS)</b> | <b>LEGACY OFDM RATES (6,9,12,18,24,36, 48,54 MBPS)</b> | <b>802.11n HT20 RATES (MCS 0 MCS 15)</b> | <b>802.11n HT40 RATES (MCS0 MCS15)</b> |
|-----------------------|-----------------------|---|--|--|--|
| 1                     |                       | 18.5  | 15.0   | 15.0                                     |  |
| 2                     |                       | 18.5  | 15.0   | 15.0                                     |  |
| 3                     | (1, 5)                | 18.5  | 16.0   | 16.5                                     | 10.0                                   |
| 4                     | (2, 6)                | 18.5  | 16.0   | 16.5                                     | 11.0                                   |
| 5                     | (3, 7)                | 18.5  | 16.0   | 16.0                                     | 12.0                                   |
| 6                     | (4, 8)                | 23.0  | 16.0   | 16.5                                     | 13.0                                   |
| 7                     | (5, 9)                | 19.0  | 16.0   | 16.5                                     | 12.0                                   |
| 8                     | (6, 10)               | 19.0  | 16.0   | 16.5                                     | 11.0                                   |
| 9                     | (7, 11)               | 19.0  | 15.0   | 16.5                                     | 9.0                                    |
| 10                    |                       | 19.0  | 14.0   | 16.0                                     |  |
| 11                    |                       | 19.0  | 13.5   | 13.0                                     |  |

## 12.2.6 Patch Antenna Models

The following is the patch antenna model for 2.4 GHz:

| <b>Motorola Solutions Part Number</b> | <b>2.4 GHz Antenna Net Gain</b> |
|---------------------------------------|---------------------------------|
| ML-2452-PTA3M3-036                    | 3                               |

### 12.2.6.1 Patch Antenna Maximum Conducted Transmit Power Settings

The following is a transmit power table (US domain) per patch antenna in the 2.4 GHz band:

| <b>20 MHZ CHANNEL</b> | <b>40 MHZ CHANNEL</b> | <b>LEGACY DSSS RATES (1, 2, 5.5, 11 MBPS)</b> | <b>LEGACY OFDM RATES (6,9,12,18,24,36, 48,54 MBPS)</b> | <b>802.11n HT20 RATES (MCS 0 MCS 15)</b> | <b>802.11n HT40 RATES (MCS0 MCS15)</b> |
|-----------------------|-----------------------|---|--|--|--|
| 1                     |                       | 16  | 15   | 12                                       |  |
| 2                     |                       | 16  | 15   | 12                                       |  |
| 3                     | (1, 5)                | 16  | 15   | 12                                       | 9                                      |
| 4                     | (2, 6)                | 16  | 15   | 12                                       | 9                                      |
| 5                     | (3, 7)                | 16  | 15   | 12                                       | 9                                      |
| 6                     | (4, 8)                | 20  | 15   | 15                                       | 12                                     |
| 7                     | (5, 9)                | 18  | 13   | 12                                       | 10                                     |
| 8                     | (6, 10)               | 18  | 13   | 12                                       | 10                                     |
| 9                     | (7, 11)               | 18  | 13   | 12                                       | 10                                     |
| 10                    |                       | 18  | 13   | 12                                       |  |
| 11                    |                       | 18  | 13   | 12                                       |  |

## 12.3 US Regulatory Domain 5.2 GHz Band

### 12.3.1 5.2 GHz Mode Versus Data Rate

When setting 5.2 GHz data rates using the access point's GUI applet, use the following chart to cross reference data rates to the radio's selected operational mode.

|   | <b>A and N</b> | <b>N Only</b> | <b>A Only</b> |
|---|----------------|---------------|---------------|
| <b>LEGACY OFDM RATES<br/>(6,9,12,18,24,36,48,54 MBPS)</b> | X              |               | X             |
| <b>802.11n HT20 RATES<br/>(MCS 0 MCS 15)</b>              | X              | X             |               |
| <b>802.11n HT40 RATES<br/>(MCS 0 MCS 15)</b>              | X              | X             |               |

### 12.3.2 Yagi Antenna Models

The following is the Yagi antenna model for 5.2 GHz:

| <b>Motorola Solutions Part Number</b> |
|---------------------------------------|
| ML-5299-BYGA15-012                    |

#### 12.3.2.1 Yagi Antenna Maximum Conducted Transmit Power Settings

The following is a transmit power table (US domain) per Yagi antenna in the 5 GHz band:

| <b>20 MHZ CHANNEL</b> | <b>40 MHZ CHANNEL</b> | <b>LEGACY OFDM RATES<br/>(6,9,12,18,24,36,48,54 MBPS)</b> | <b>802.11n HT20 RATES<br/>(MCS 0 MCS 15)</b> | <b>802.11n HT40 RATES<br/>(MCS 0 MCS 15)</b> |
|-----------------------|-----------------------|---|--|--|
| 36                    |                       | 2   | 2.5  |  |
| 38                    | (36, 40)              |   |  | 4  |
| 40                    |                       | 2   | 2.5  |  |
| 42                    |                       | 2.5   | 2.5  |  |
| 44                    |                       | 2.5   | 2.5  |  |
| 46                    | (44, 48)              |   |  | 4  |
| 48                    |                       | 2.5   | 4  |  |
| 52                    |                       | 9   | 9  |  |
| 54                    | (52, 56)              |   |  | 11   |
| 56                    |                       | 9   | 9  |  |
| 60                    |                       | 8.5   | 9  |  |
| 62                    | (60, 64)              |   |  | 10   |
| 64                    |                       | 8.5   | 9  |  |
| 100                   |                       | 8   | 8.5  |  |

| <b>20 MHZ CHANNEL</b> | <b>40 MHZ CHANNEL</b> | <b>LEGACY OFDM RATES (6,9,12,18,24,36,48,54 MBPS)</b> | <b>802.11n HT20 RATES (MCS 0 MCS 15)</b> | <b>802.11n HT40 RATES (MCS 0 MCS 15)</b> |
|-----------------------|-----------------------|---|--|--|
| 102                   | (100, 104)            |   |  | 5  |
| 104                   |                       | 8   | 8.5                                      |  |
| 108                   |                       | 8   | 8.5                                      |  |
| 112                   |                       | 8   | 8.5                                      |  |
| 110                   | (108, 112)            |   |  | 11                                       |
| 116                   |                       | 8   | 8.5                                      |  |
| 118                   | (116, 120)            |   |  | 10                                       |
| 120                   |                       | 8   | 8.5                                      |  |
| 124                   |                       | 7.5   | 7.5                                      |  |
| 126                   | (124, 128)            |   |  | 10                                       |
| 128                   |                       | 7.5   | 7.5                                      |  |
| 132                   |                       | 7.5   | 7.5                                      |  |
| 134                   | (132, 136)            |   |  | 10                                       |
| 136                   |                       | 7.5   | 7.5                                      |  |
| 140                   |                       | 7.5   | 7.5                                      |  |
| 149                   |                       | 7.0   | 7.5                                      |  |
| 151                   | (149, 153)            |   |  | 4.5                                      |
| 153                   |                       | 7.0   | 7.5                                      |  |
| 157                   |                       | 7.5   | 8.0                                      |  |
| 159                   | (157, 161)            |   |  | 5.0                                      |
| 161                   |                       | 8.0   | 9.0                                      |  |
| 165                   |                       | 8.0   | 9.0                                      |  |

### 12.3.3 Panel Antenna Models

The following are the panel antenna models for 5.2 GHz:

| <b>Motorola Solutions Part Number</b> |
|---------------------------------------|
| ML-5299-WPNA1-01R                     |
| ML-2452-PNL9M3-036                    |

#### 12.3.3.1 Panel Antenna Maximum Conducted Transmit Power Settings

The following is a transmit power table (US domain) per panel antenna in the 5 GHz band:

| <b>20 MHZ CHANNEL</b> | <b>40 MHZ CHANNEL</b> | <b>LEGACY OFDM RATES (6,9,12,18,24,36,48,54 MBPS)</b> | <b>802.11n HT20 RATES (MCS 0 MCS 15)</b> | <b>802.11n HT40 RATES (MCS 0 MCS 15)</b> |
|-----------------------|-----------------------|---|--|--|
| 36                    |                       | 4   | 4  |  |
| 38                    | (36, 40)              |   |  | 6  |
| 40                    |                       | 4   | 4  |  |
| 42                    |                       | 4   | 4  |  |
| 44                    |                       | 4   | 4  |  |
| 46                    | (44, 48)              |   |  | 6  |
| 48                    |                       | 4   | 4  |  |
| 52                    |                       | 10  | 10                                       |  |
| 54                    | (52, 56)              |   |  | 13                                       |
| 56                    |                       | 10  | 10                                       |  |
| 60                    |                       | 10  | 10                                       |  |
| 62                    | (60, 64)              |   |  | 11                                       |
| 64                    |                       | 10  | 10                                       |  |
| 100                   |                       | 10  | 10                                       |  |
| 102                   | (100, 104)            |   |  | 5  |
| 104                   |                       | 10  | 10                                       |  |
| 108                   |                       | 10  | 10                                       |  |
| 112                   |                       | 10  | 10                                       |  |
| 110                   | (108, 112)            |   |  | 13                                       |
| 116                   |                       | 10  | 10                                       |  |
| 118                   | (116, 120)            |   |  | 13                                       |
| 120                   |                       | 10  | 10                                       |  |
| 124                   |                       | 10  | 10                                       |  |
| 126                   | (124, 128)            |   |  | 12                                       |

| <b>20 MHZ CHANNEL</b> | <b>40 MHZ CHANNEL</b> | <b>LEGACY OFDM RATES (6,9,12,18,24,36,48,54 MBPS)</b> | <b>802.11n HT20 RATES (MCS 0 MCS 15)</b> | <b>802.11n HT40 RATES (MCS 0 MCS 15)</b> |
|-----------------------|-----------------------|---|--|--|

### 12.3.4 Embedded Antenna Models

The following is the embedded antenna model for 5.2 GHz:

| <b>Motorola Solutions Part Number</b> |
|---------------------------------------|
| ML-2452-PTA2M3X3-1                    |

#### 12.3.4.1 Embedded Antenna Maximum Conducted Transmit Power Settings

The following is a transmit power table (US domain) per embedded antenna in the 5 GHz band:

| <b>20 MHZ CHANNEL</b> | <b>40 MHZ CHANNEL</b> | <b>LEGACY OFDM RATES<br/>(6,9,12,18,24,36,48,54 MBPS)</b> | <b>802.11n HT20 RATES<br/>(MCS 0 MCS 15)</b> | <b>802.11n HT40 RATES<br/>(MCS 0 MCS 15)</b> |
|-----------------------|-----------------------|---|--|--|
| 36                    |                       | 11  | 11   |  |
| 38                    | (36, 40)              |   |  | 12   |
| 40                    |                       | 11  | 11   |  |
| 42                    |                       | 11  | 11   |  |
| 44                    |                       | 11  | 11   |  |
| 46                    | (44, 48)              |   |  | 13   |
| 48                    |                       | 11  | 11   |  |
| 52                    |                       | 18  | 18   |  |
| 54                    | (52, 56)              |   |  | 20   |
| 56                    |                       | 18  | 18   |  |
| 60                    |                       | 18  | 18   |  |
| 62                    | (60, 64)              |   |  | 14   |
| 64                    |                       | 18  | 18   |  |
| 100                   |                       | 15  | 16   |  |
| 102                   | (100, 104)            |   |  | 8  |
| 104                   |                       | 14  | 16   |  |
| 108                   |                       | 14  | 16   |  |
| 112                   |                       | 14  | 16   |  |
| 110                   | (108, 112)            |   |  | 19   |
| 116                   |                       | 14  | 16   |  |
| 118                   | (116, 120)            |   |  | 19   |
| 120                   |                       | 18  | 18   |  |
| 124                   |                       | 18  | 13   |  |
| 126                   | (124, 128)            |   |  | 19   |
| 128                   |                       | 14  | 13   |  |

| <b>20 MHZ CHANNEL</b> | <b>40 MHZ CHANNEL</b> | <b>LEGACY OFDM RATES (6,9,12,18,24,36,48,54 MBPS)</b> | <b>802.11n HT20 RATES (MCS 0 MCS 15)</b> | <b>802.11n HT40 RATES (MCS 0 MCS 15)</b> |
|-----------------------|-----------------------|---|--|--|
| 132                   |                       | 14  | 13                                       |  |
| 134                   | (132, 136)            |   |  | 14                                       |
| 136                   |                       | 13  | 13                                       |  |

| 151                   | (149, 153)            |   |  | 15.0                                     |
| 153                   |                       | 18.0  | 18.0                                     |  |
| 157                   |                       | 18.0  | 18.0                                     |  |
| 159                   | (157, 161)            |   |  | 16.0                                     |
| 161                   |                       | 19.0  | 19.0                                     |  |
| 165                   |                       | 19.0  | 19.0                                     |  |

### 12.3.5 Dipole Antenna Models

The following are the dipole antenna models for 5.2 GHz:

| <b>Motorola Solutions Part Number</b> |
|---------------------------------------|
| ML-5299HPA1-01R                       |
| ML-2452-APA6J-01                      |
| ML-2452-APA2-01                       |

#### 12.3.5.1 Dipole Antenna Maximum Conducted Transmit Power Settings

The following is a transmit power table (US domain) per dipole antenna in the 5 GHz band:

| <b>20 MHZ CHANNEL</b> | <b>40 MHZ CHANNEL</b> | <b>LEGACY OFDM RATES<br/>(6,9,12,18,24,36,48,54 MBPS)</b> | <b>802.11n HT20 RATES<br/>(MCS 0 MCS 15)</b> | <b>802.11n HT40 RATES<br/>(MCS 0 MCS 15)</b> |
|-----------------------|-----------------------|---|--|--|
| 36                    |                       | 11  | 11   |  |
| 38                    | (36, 40)              |   |  | 12   |
| 40                    |                       | 11  | 11   |  |
| 42                    |                       | 11  | 11   |  |
| 44                    |                       | 11  | 11   |  |
| 46                    | (44, 48)              |   |  | 13   |
| 48                    |                       | 11  | 11   |  |
| 52                    |                       | 18  | 18   |  |
| 54                    | (52, 56)              |   |  | 20   |
| 56                    |                       | 18  | 18   |  |
| 60                    |                       | 18  | 18   |  |
| 62                    | (60, 64)              |   |  | 14   |
| 64                    |                       | 18  | 18   |  |
| 100                   |                       | 15  | 14   |  |
| 102                   | (100, 104)            |   |  | 7  |
| 104                   |                       | 15  | 14   |  |
| 108                   |                       | 15  | 14   |  |
| 112                   |                       | 15  | 14   |  |
| 110                   | (108, 112)            |   |  | 19   |
| 116                   |                       | 15  | 14   |  |

## 12.4 Japanese TELEC Regulatory Domain 2.4 GHz Band

### 12.4.1 Panel Antenna Model

The following is the panel antenna model for 2.4 GHz:

| <b>Motorola Solutions Part Number</b> |
|---------------------------------------|
| ML-2499-11PNA2-01R                    |

#### 12.4.1.1 Panel Antenna Maximum Conducted Transmit Power Settings

The following is a transmit power table (Japanese domain) per panel antenna in the 2.4 GHz band:

| <b>20 MHZ CHANNEL</b> | <b>40 MHZ CHANNEL</b> | <b>LEGACY DSSS RATES (1, 2, 5.5, 11 MBPS)</b> | <b>LEGACY OFDM RATES (6,9,12,18,24,36, 48,54 MBPS)</b> | <b>802.11n HT20 RATES (MCS 0 MCS 15)</b> | <b>802.11n HT40 RATES (MCS 0 MCS15)</b> |
|-----------------------|-----------------------|---|--|--|---|
| 1                     |                       | 19.0  | 19.0   | 19.0                                     |   |
| 2                     |                       | 19.0  | 19.0   | 19.0                                     |   |
| 3                     | (1, 5)                | 19.0  | 19.0   | 19.0                                     | 16.0                                    |
| 4                     | (2, 6)                | 19.0  | 19.0   | 19.0                                     | 16.0                                    |
| 5                     | (3, 7)                | 19.0  | 19.0   | 19.0                                     | 16.0                                    |
| 6                     | (4, 8)                | 19.0  | 19.0   | 19.0                                     | 16.0                                    |
| 7                     | (5, 9)                | 19.0  | 19.0   | 19.0                                     | 16.0                                    |
| 8                     | (6, 10)               | 19.0  | 19.0   | 19.0                                     | 16.0                                    |
| 9                     | (7, 11)               | 19.0  | 19.0   | 19.0                                     | 16.0                                    |
| 10                    |                       | 19.0  | 19.0   | 19.0                                     |   |
| 11                    |                       | 19.0  | 19.0   | 19.0                                     |   |
| 12                    |                       | 19.0  | 19.0   | 19.0                                     |   |
| 13                    |                       | 19.0  | 19.0   | 19.0                                     |   |
| 14                    |                       | 19.0  |  |  |   |

## 12.4.2 Embedded Antenna Model

The following is the embedded antenna model for 2.4 GHz:

| <b>Motorola Solutions Part Number</b> |
|---------------------------------------|
| ML-2452-PTA2M3X3-1                    |

### 12.4.2.1 Panel Antenna Maximum Conducted Transmit Power Settings

The following is a transmit power table (Japanese domain) per embedded antenna in the 2.4 GHz band:

| <b>20 MHZ CHANNEL</b> | <b>40 MHZ CHANNEL</b> | <b>LEGACY DSSS RATES (1, 2, 5.5, 11 MBPS)</b> | <b>LEGACY OFDM RATES (6,9,12,18,24,36, 48,54 MBPS)</b> | <b>802.11n HT20 RATES (MCS 0 MCS 15)</b> | <b>802.11n HT40 RATES (MCS 0 MCS15)</b> |
|-----------------------|-----------------------|---|--|--|---|
| 1                     |                       | 11.0  | 11.0   | 11.0                                     |   |
| 2                     |                       | 11.0  | 11.0   | 11.0                                     |   |
| 3                     | (1, 5)                | 11.0  | 11.0   | 11.0                                     | 8.0                                     |
| 4                     | (2, 6)                | 11.0  | 11.0   | 11.0                                     | 8.0                                     |
| 5                     | (3, 7)                | 11.0  | 11.0   | 11.0                                     | 8.0                                     |
| 6                     | (4, 8)                | 11.0  | 11.0   | 11.0                                     | 8.0                                     |
| 7                     | (5, 9)                | 11.0  | 11.0   | 11.0                                     | 8.0                                     |
| 8                     | (6, 10)               | 11.0  | 11.0   | 11.0                                     | 8.0                                     |
| 9                     | (7, 11)               | 11.0  | 11.0   | 11.0                                     | 8.0                                     |
| 10                    |                       | 11.0  | 11.0   | 11.0                                     |   |
| 11                    |                       | 11.0  | 11.0   | 11.0                                     |   |
| 12                    |                       | 11.0  | 11.0   | 11.0                                     |   |
| 13                    |                       | 11.0  | 11.0   | 11.0                                     |   |
| 14                    |                       | 11.0  |  |  |   |

### 12.4.3 Dipole Antenna Model

The following is the patch antenna model for 2.4 GHz:

| <b>Motorola Solutions Part Number</b> |
|---------------------------------------|
| ML-2452-APA2-01                       |
| ML-2499-HPA3-01R                      |
| ML-2452-APA6J-01 (microcell)          |

#### 12.4.3.1 Dipole Antenna Maximum Conducted Transmit Power Settings

The following is a transmit power table (Japanese domain) per dipole antenna in the 2.4 GHz band:

| <b>20 MHZ CHANNEL</b> | <b>40 MHZ CHANNEL</b> | <b>LEGACY DSSS RATES (1, 2, 5.5, 11 MBPS)</b> | <b>LEGACY OFDM RATES (6,9,12,18,24,36, 48,54 MBPS)</b> | <b>802.11n HT20 RATES (MCS 0 MCS 15)</b> | <b>802.11n HT40 RATES (MCS 0 MCS15)</b> |
|-----------------------|-----------------------|---|--|--|---|
| 1                     |                       | 14.0  | 14.0   | 14.0                                     |   |
| 2                     |                       | 14.0  | 14.0   | 14.0                                     |   |
| 3                     | (1, 5)                | 14.0  | 14.0   | 14.0                                     | 11                                      |
| 4                     | (2, 6)                | 14.0  | 14.0   | 14.0                                     | 11                                      |
| 5                     | (3, 7)                | 14.0  | 14.0   | 14.0                                     | 11                                      |
| 6                     | (4, 8)                | 14.0  | 14.0   | 14.0                                     | 11                                      |
| 7                     | (5, 9)                | 14.0  | 14.0   | 14.0                                     | 11                                      |
| 8                     | (6, 10)               | 14.0  | 14.0   | 14.0                                     | 11                                      |
| 9                     | (7, 11)               | 14.0  | 14.0   | 14.0                                     | 11                                      |
| 10                    |                       | 14.0  | 14.0   | 14.0                                     |   |
| 11                    |                       | 14.0  | 14.0   | 14.0                                     |   |
| 12                    |                       | 14.0  | 14.0   | 14.0                                     |   |
| 13                    |                       | 14.0  | 14.0   | 14.0                                     |   |
| 14                    |                       | 14.0  |  |  |   |

### 12.4.4 Patch Antenna Model

The following is the patch antenna model for 2.4 GHz:

| <b>Motorola Solutions Part Number</b> | <b>2.4 GHz Antenna Net Gain</b> |
|---------------------------------------|---------------------------------|
| ML-2452-PTA3M3-036                    | 3                               |

#### 12.4.4.1 Patch Antenna Maximum Conducted Transmit Power Settings

The following is a transmit power table (Japanese domain) per patch antenna in the 2.4 GHz band:

| <b>20 MHZ CHANNEL</b> | <b>40 MHZ CHANNEL</b> | <b>LEGACY DSSS RATES (1, 2, 5.5, 11 MBPS)</b> | <b>LEGACY OFDM RATES (6,9,12,18,24,36, 48,54 MBPS)</b> | <b>802.11n HT20 RATES (MCS 0 MCS 15)</b> | <b>802.11n HT40 RATES (MCS0 MCS15)</b> |
|-----------------------|-----------------------|---|--|--|--|
| 1                     |                       | 16.0  | 16.0   | 16.0                                     |  |
| 2                     |                       | 16.0  | 16.0   | 16.0                                     |  |
| 3                     | (1, 5)                | 16.0  | 16.0   | 16.0                                     | 10.0                                   |
| 4                     | (2, 6)                | 16.0  | 16.0   | 16.0                                     | 10.0                                   |
| 5                     | (3, 7)                | 16.0  | 16.0   | 16.0                                     | 10.0                                   |
| 6                     | (4, 8)                | 16.0  | 16.0   | 16.0                                     | 100                                    |
| 7                     | (5, 9)                | 16.0  | 16.0   | 16.0                                     | 10.0                                   |
| 8                     | (6, 10)               | 16.0  | 16.0   | 16.0                                     | 10.0                                   |
| 9                     | (7, 11)               | 16.0  | 16.0   | 16.0                                     | 10.0                                   |
| 10                    |                       | 16.0  | 16.0   | 16.0                                     |  |
| 11                    |                       | 16.0  | 16.0   | 16.0                                     |  |
| 12                    |                       | 16.0  | 16.0   | 16.0                                     |  |
| 13                    |                       | 16.0  | 16.0   | 16.0                                     |  |
| 14                    |                       | 16.0  |  |  |  |

## 12.5 Japan TELEC Regulatory Domain 5.2 GHz Band

### 12.5.1 Panel Antenna Models

The following are the panel antenna models for 5.2 GHz:

| <b>Motorola Solutions Part Number</b> |
|---------------------------------------|
| ML-5299-WPNA1-01R                     |
| ML-2452-PNL9M3-036                    |

#### 12.5.1.1 Panel Antenna Maximum Conducted Transmit Power Settings

The following is a transmit power table (Japanese domain) per panel antenna in the 5 GHz band:

| <b>20 MHz Channel</b> | <b>40 MHz Channel</b> | <b>Legacy OFDM Rates (6,9,12,18,24,36,48,54 Mbps)</b> | <b>802.11n HT20 Rates (MCS 0 MCS 15)</b> | <b>802.11n HT40 Rates (MCS 0 MCS 15)</b> |
|-----------------------|-----------------------|---|--|--|
| 36                    |                       | 12.0  | 12.0                                     |  |
| 38                    | (36, 40)              |   |  | 18.0                                     |
| 40                    |                       | 12.0  | 12.0                                     |  |
| 42                    |                       | 12.0  | 12.0                                     |  |
| 44                    |                       | 12.0  | 12.0                                     |  |
| 46                    | (44, 48)              |   |  | 18.0                                     |
| 48                    |                       | 12.0  | 12.0                                     |  |
| 52                    |                       | 12.0  | 12.0                                     |  |
| 54                    | (52, 56)              |   |  | 18.0                                     |
| 56                    |                       | 12.0  | 12.0                                     |  |
| 60                    |                       | 12.0  | 12.0                                     |  |
| 62                    | (60, 64)              |   |  | 18.0                                     |
| 64                    |                       | 12.0  | 12.0                                     |  |
| 100                   |                       | 19.0  | 19.0                                     |  |
| 102                   | (100, 104)            |   |  | 18.0                                     |
| 104                   |                       | 19.0  | 19.0                                     |  |
| 108                   |                       | 19.0  | 19.0                                     |  |
| 112                   |                       | 19.0  | 19.0                                     |  |
| 110                   | (108, 112)            |   |  | 18.0                                     |
| 116                   |                       | 19.0  | 19.0                                     |  |
| 118                   | (116, 120)            |   |  | 18.0                                     |
| 120                   |                       | 19.0  | 19.0                                     |  |
| 124                   |                       | 19.0  | 19.0                                     |  |

| <b>20 MHZ CHANNEL</b> | <b>40 MHZ CHANNEL</b> | <b>LEGACY OFDM RATES (6,9,12,18,24,36,48,54 MBPS)</b> | <b>802.11n HT20 RATES (MCS 0 MCS 15)</b> | <b>802.11n HT40 RATES (MCS 0 MCS 15)</b> |
|-----------------------|-----------------------|---|--|--|
| 126                   | (124, 128)            |   |  | 18.0                                     |

| 132                   |                       | 19.0  | 19.0                                     |  |
| 134                   | (132, 136)            |   |  | 18.0                                     |
| 136                   |                       | 19.0  | 19.0                                     |  |
| 140                   |                       | 19.0  | 19.0                                     |  |
| 149                   |                       |   |  |  |
| 151                   | (149, 153)            |   |  |  |
| 153                   |                       |   |  |  |
| 157                   |                       |   |  |  |
| 159                   | (157, 161)            |   |  |  |
| 161                   |                       |   |  |  |
| 165                   |                       |   |  |  |

## 12.5.2 Embedded Antenna Model

The following is the embedded antenna model for 5.2 GHz:

| <b>Motorola Solutions Part Number</b> |
|---------------------------------------|
| ML-5299-WPNA1-01R                     |

### 12.5.2.1 Embedded Antenna Maximum Conducted Transmit Power Settings

The following is a transmit power table (Japanese domain) per embedded antenna in the 5 GHz band:

| <b>20 MHZ CHANNEL</b> | <b>40 MHZ CHANNEL</b> | <b>LEGACY OFDM RATES<br/>(6,9,12,18,24,36,48,54 MBPS)</b> | <b>802.11n HT20 RATES<br/>(MCS 0 MCS 15)</b> | <b>802.11n HT40 RATES<br/>(MCS 0 MCS 15)</b> |
|-----------------------|-----------------------|---|--|--|
| 36                    |                       | 10.0  | 10.0   |  |
| 38                    | (36, 40)              |   |  | 7.0  |
| 40                    |                       | 10.0  | 10.0   |  |
| 42                    |                       | 10.0  | 10.0   |  |
| 44                    |                       | 10.0  | 10.0   |  |
| 46                    | (44, 48)              |   |  | 7.0  |
| 48                    |                       | 10.0  | 10.0   |  |
| 52                    |                       | 10.0  | 10.0   |  |
| 54                    | (52, 56)              |   |  | 7.0  |
| 56                    |                       | 10.0  | 10.0   |  |
| 60                    |                       | 10.0  | 10.0   |  |
| 62                    | (60, 64)              |   |  | 7.0  |
| 64                    |                       | 10.0  | 10.0   |  |
| 100                   |                       | 17.0  | 17.0   |  |
| 102                   | (100, 104)            |   |  | 7.0  |
| 104                   |                       | 17.0  | 17.0   |  |
| 108                   |                       | 17.0  | 17.0   |  |
| 112                   |                       | 17.0  | 17.0   |  |
| 110                   | (108, 112)            |   |  | 7.0  |
| 116                   |                       | 17.0  | 17.0   |  |
| 118                   | (116, 120)            |   |  | 7.0  |
| 120                   |                       | 17.0  | 17.0   |  |
| 124                   |                       | 17.0  | 17.0   |  |
| 126                   | (124, 128)            |   |  | 7.0  |
| 128                   |                       | 17.0  | 17.0   |  |

| <b>20 MHZ CHANNEL</b> | <b>40 MHZ CHANNEL</b> | <b>LEGACY OFDM RATES<br/>(6,9,12,18,24,36,48,54 MBPS)</b> | <b>802.11n HT20 RATES (MCS 0 MCS 15)</b> | <b>802.11n HT40 RATES (MCS 0 MCS 15)</b> |
|-----------------------|-----------------------|---|--|--|
| 132                   |                       | 17.0  | 17.0                                     |  |
| 134                   | (132, 136)            |   |  | 7.0                                      |
| 136                   |                       | 17.0  | 17.0                                     |  |
| 140                   |                       | 17.0  | 17.0                                     |  |
| 149                   |                       |   |  |  |
| 151                   | (149, 153)            |   |  |  |
| 153                   |                       |   |  |  |
| 157                   |                       |   |  |  |
| 159                   | (157, 161)            |   |  |  |

| 165                   |                       |   |  |  |

### 12.5.3 Dipole Antenna Models

The following are the dipole antenna models for 5.2 GHz:

| <b>Motorola Solutions Part Number</b> |
|---------------------------------------|
| ML-5299-HPA1-01R                      |
| ML-2452-APA6J-01                      |
| ML-2452-APA2-01                       |

#### 12.5.3.1 Dipole Antenna Maximum Conducted Transmit Power Settings

The following is a transmit power table (Japanese domain) per dipole antenna in the 5 GHz band:

| <b>20 MHZ CHANNEL</b> | <b>40 MHZ CHANNEL</b> | <b>LEGACY OFDM RATES (6,9,12,18,24,36,48,54 MBPS)</b> | <b>802.11n HT20 RATES (MCS 0 MCS 15)</b> | <b>802.11n HT40 RATES (MCS 0 MCS 15)</b> |
|-----------------------|-----------------------|---|--|--|
| 36                    |                       | 12.0  | 12.0                                     |  |
| 38                    | (36, 40)              |   |  | 9.0                                      |
| 40                    |                       | 12.0  | 12.0                                     |  |
| 42                    |                       | 12.0  | 12.0                                     |  |
| 44                    |                       | 12.0  | 12.0                                     |  |
| 46                    | (44, 48)              |   |  | 9.0                                      |
| 48                    |                       | 12.0  | 12.0                                     |  |
| 52                    |                       | 12.0  | 12.0                                     |  |
| 54                    | (52, 56)              |   |  | 9.0                                      |
| 56                    |                       | 12.0  | 12.0                                     |  |
| 60                    |                       | 12.0  | 12.0                                     |  |
| 62                    | (60, 64)              |   |  | 9.0                                      |
| 64                    |                       | 12.0  | 12.0                                     |  |
| 100                   |                       | 19.0  | 19.0                                     |  |
| 102                   | (100, 104)            |   |  | 9.0                                      |
| 104                   |                       | 19.0  | 19.0                                     |  |
| 108                   |                       | 19.0  | 19.0                                     |  |
| 112                   |                       | 19.0  | 19.0                                     |  |
| 110                   | (108, 112)            |   |  | 9.0                                      |
| 116                   |                       | 19.0  | 19.0                                     |  |
| 118                   | (116, 120)            |   |  | 9.0                                      |
| 120                   |                       | 19.0  | 19.0                                     |  |
| 124                   |                       | 19.0  | 19.0                                     |  |
| 126                   | (124, 128)            |   |  | 9.0                                      |

| <b>20 MHZ CHANNEL</b> | <b>40 MHZ CHANNEL</b> | <b>LEGACY OFDM RATES<br/>(6,9,12,18,24,36,48,54 MBPS)</b> | <b>802.11n HT20 RATES<br/>(MCS 0 MCS 15)</b> | <b>802.11n HT40 RATES<br/>(MCS 0 MCS 15)</b> |
|-----------------------|-----------------------|---|--|--|
| 128                   |                       | 19.0  | 19.0   |  |
| 132                   |                       | 19.0  | 19.0   |  |
| 134                   | (132, 136)            |   |  | 9.0  |
| 136                   |                       | 19.0  | 19.0   |  |
| 140                   |                       | 19.0  | 19.0   |  |
| 149                   |                       |   |  |  |
| 151                   | (149, 153)            |   |  |  |
| 153                   |                       |   |  |  |
| 157                   |                       |   |  |  |
| 159                   | (157, 161)            |   |  |  |
| 161                   |                       |   |  |  |
| 165                   |                       |   |  |  |

## 12.5.4 Patch Antenna Model

The following is the patch antenna model for 5.2 GHz:

| <b>Motorola Solutions Part Number</b> |
|---------------------------------------|
| ML-2452-PTA3M3-036                    |

### 12.5.4.1 Patch Antenna Maximum Conducted Transmit Power Settings

The following is a transmit power table (Japanese domain) per patch antenna in the 5 GHz band:

| <b>20 MHZ CHANNEL</b> | <b>40 MHZ CHANNEL</b> | <b>LEGACY OFDM RATES<br/>(6,9,12,18,24,36,48,54 MBPS)</b> | <b>802.11n HT20 RATES<br/>(MCS 0 MCS 15)</b> | <b>802.11n HT40 RATES<br/>(MCS 0 MCS 15)</b> |
|-----------------------|-----------------------|---|--|--|
| 36                    |                       | 21.0  | 21.0   |  |
| 38                    | (36, 40)              |   |  | 10.0   |
| 40                    |                       | 21.0  | 21.0   |  |
| 42                    |                       | 21.0  | 21.0   |  |
| 44                    |                       | 21.0  | 21.0   |  |
| 46                    | (44, 48)              |   |  | 10.0   |
| 48                    |                       | 21.0  | 21.0   |  |
| 52                    |                       | 21.0  | 21.0   |  |
| 54                    | (52, 56)              |   |  | 10.0   |
| 56                    |                       | 21.0  | 21.0   |  |
| 60                    |                       | 21.0  | 21.0   |  |
| 62                    | (60, 64)              |   |  | 10.0   |
| 64                    |                       | 21.0  | 21.0   |  |
| 100                   |                       | 20.0  | 20.0   |  |
| 102                   | (100, 104)            |   |  | 17.0   |
| 104                   |                       | 20.0  | 20.0   |  |
| 108                   |                       | 20.0  | 20.0   |  |
| 112                   |                       | 20.0  | 20.0   |  |
| 110                   | (108, 112)            |   |  | 17.0   |
| 116                   |                       | 20.0  | 20.0   |  |
| 118                   | (116, 120)            |   |  | 17.0   |
| 120                   |                       | 20.0  | 20.0   |  |
| 124                   |                       | 20.0  | 20.0   |  |
| 126                   | (124, 128)            |   |  | 17.0   |
| 128                   |                       | 20.0  | 20.0   |  |

| <b>20 MHZ CHANNEL</b> | <b>40 MHZ CHANNEL</b> | <b>LEGACY OFDM RATES (6,9,12,18,24,36,48,54 MBPS)</b> | <b>802.11n HT20 RATES (MCS 0 MCS 15)</b> | <b>802.11n HT40 RATES (MCS 0 MCS 15)</b> |
|-----------------------|-----------------------|---|--|--|
| 132                   |                       | 20.0  | 20.0                                     |  |
| 134                   | (132, 136)            |   |  | 17.0                                     |
| 136                   |                       | 20.0  | 20.0                                     |  |

# 13

## ***AP650 Regulatory Domains***

### **13.1 US Regulatory Domain 2.4 GHz Band**

#### **13.1.1 Dipole Antenna Model**

The following is the dipole antenna model for 2.4 GHz:

| <b><i>Motorola Solutions Part Number</i></b> |
|--|
| ML-2452-APA2-01                              |

##### **13.1.1.1 Dipole Antenna Maximum Conducted Transmit Power Settings**

The following is a transmit power table (US domain) per dipole antenna in the 2.4 GHz band:

| <b><i>20 MHz Channel</i></b> | <b><i>40 MHz Channel</i></b> | <b><i>Legacy DSSS Rates (1, 2, 5.5, 11 MBPS)</i></b> | <b><i>Legacy OFDM Rates (6,9,12,18,24,36, 48,54 MBPS)</i></b> | <b><i>802.11n HT20 Rates (MCS 0 MCS 15)</i></b> | <b><i>802.11n HT40 Rates (MCS 0 MCS15)</i></b> |
|------------------------------|------------------------------|--|---|---|--|
| 1                            |                              | 19.5   | 17.0  | 16.0  |  |
| 2                            |                              | 19.5   | 17.0  | 16.0  |  |
| 3                            | (1, 5)                       | 21.0   | 21.0  | 20.0  | 14.5   |
| 4                            | (2, 6)                       | 21.0   | 21.0  | 21.0  | 14.5   |
| 5                            | (3, 7)                       | 21.0   | 21.0  | 20.0  | 14.5   |
| 6                            | (4, 8)                       | 21.0   | 21.0  | 20.0  | 16.5   |
| 7                            | (5, 9)                       | 21.0   | 21.0  | 20.0  | 13.0   |
| 8                            | (6, 10)                      | 21.0   | 21.0  | 20.0  | 13.0   |
| 9                            | (7, 11)                      | 20.0   | 16.5  | 16.5  | 13.0   |
| 10                           | (8, 12)                      | 20.0   | 16.5  | 16.5  |  |
| 11                           | (9, 13)                      | 20.0   | 16.5  | 16.5  |  |

### 13.1.2 Internal AP650 Dual Band Antenna Models

The following is the internal dual band antenna model for 2.4 GHz:

| <b>Motorola Solutions Part Number</b> |
|---------------------------------------|
| 57RPAA13.G66                          |
| 57RPAA13.G67                          |
| 57RPAA13.G68                          |
| 57RPAA13.G69                          |
| 57RPAA13.G6A                          |
| 57RPAA13.G6B                          |

#### 13.1.2.1 AP650 Internal Dual Band Antenna Maximum Conducted Transmit Power Settings

The following is a transmit power table (US domain) per internal dual band antenna in the 2.4 GHz band:

| <b>20 MHZ CHANNEL</b> | <b>40 MHZ CHANNEL</b> | <b>LEGACY DSSS RATES (1, 2, 5.5, 11 MBPS)</b> | <b>LEGACY OFDM RATES (6,9,12,18,24,36, 48,54 MBPS)</b> | <b>802.11n HT20 RATES (MCS 0 MCS 15)</b> | <b>802.11n HT40 RATES (MCS 0 MCS15)</b> |
|-----------------------|-----------------------|---|--|--|---|
| 1                     |                       | 19.0  | 16.0   | 15.0                                     |   |
| 2                     |                       | 19.0  | 16.0   | 15.0                                     |   |
| 3                     | (1, 5)                | 21.0  | 16.0   | 15.0                                     | 12.5                                    |
| 4                     | (2, 6)                | 21.0  | 21.0   | 20.0                                     | 12.5                                    |
| 5                     | (3, 7)                | 21.0  | 21.0   | 20.0                                     | 12.5                                    |
| 6                     | (4, 8)                | 21.0  | 21.0   | 20.0                                     | 15.5                                    |
| 7                     | (5, 9)                | 21.0  | 21.0   | 20.0                                     | 11.5                                    |
| 8                     | (6, 10)               | 21.0  | 21.0   | 20.0                                     | 11.5                                    |
| 9                     | (7, 11)               | 21.0  | 16.0   | 15.0                                     | 11.5                                    |
| 10                    | (8, 12)               | 18.5  | 16.0   | 15.0                                     |   |
| 11                    | (9, 13)               | 18.5  | 16.0   | 15.0                                     |   |

### 13.1.3 Indoor Patch Antenna Model

The following is the indoor patch antenna model for 2.4 GHz:

| <b>Motorola Solutions Part Number</b> |
|---------------------------------------|
| ML-2499- SD3-01R                      |

#### 13.1.3.1 Indoor Patch Antenna Maximum Conducted Transmit Power Settings

The following is a transmit power table (US domain) per Indoor Patch antenna in the 2.4 GHz band:

| <b>20 MHZ CHANNEL</b> | <b>40 MHZ CHANNEL</b> | <b>LEGACY DSSS RATES (1, 2, 5.5, 11 MBPS)</b> | <b>LEGACY OFDM RATES (6,9,12,18,24,36, 48,54 MBPS)</b> | <b>802.11n HT20 RATES (MCS 0 MCS 15)</b> | <b>802.11n HT40 RATES (MCS 0 MCS15)</b> |
|-----------------------|-----------------------|---|--|--|---|
| 1                     |                       | 17.5  | 15.0   | 13.0                                     |   |
| 2                     |                       | 17.5  | 15.0   | 13.0                                     |   |
| 3                     | (1, 5)                | 17.5  | 15.0   | 13.0                                     | 10.0                                    |
| 4                     | (2, 6)                | 20.5  | 19.0   | 19.0                                     | 10.0                                    |
| 5                     | (3, 7)                | 20.5  | 19.0   | 19.0                                     | 10.0                                    |
| 6                     | (4, 8)                | 20.5  | 19.0   | 19.0                                     | 13.5                                    |
| 7                     | (5, 9)                | 20.5  | 19.0   | 19.0                                     | 10.0                                    |
| 8                     | (6, 10)               | 20.5  | 19.0   | 19.0                                     | 10.0                                    |
| 9                     | (7, 11)               | 19.0  | 13.5   | 13.5                                     | 10.0                                    |
| 10                    | (8, 12)               | 19.0  | 13.5   | 13.5                                     |   |
| 11                    | (9, 13)               | 19.0  | 13.5   | 13.5                                     |   |

### 13.1.4 Outdoor Omni Antenna Model

The following is the Outdoor Omni antenna model for 2.4 GHz:

| <b>Motorola Solutions Part Number</b> |
|---------------------------------------|
| ML-2499-HPA3-01R                      |

#### 13.1.4.1 Outdoor Omni Antenna Maximum Conducted Transmit Power Settings

The following is a transmit power table (US domain) per outdoor omni antenna in the 2.4 GHz band:

| <b>20 MHZ CHANNEL</b> | <b>40 MHZ CHANNEL</b> | <b>LEGACY DSSS RATES (1, 2, 5.5, 11 MBPS)</b> | <b>LEGACY OFDM RATES (6,9,12,18,24,36, 48,54 MBPS)</b> | <b>802.11n HT20 RATES (MCS 0 MCS 15)</b> | <b>802.11n HT40 RATES (MCS0 MCS15)</b> |
|-----------------------|-----------------------|---|--|--|--|
| 1                     |                       | 19.0  | 13.5   | 14.0                                     |  |
| 2                     |                       | 19.0  | 13.5   | 14.0                                     |  |
| 3                     | (1, 5)                | 19.0  | 13.5   | 14.0                                     | 10.5                                   |
| 4                     | (2, 6)                | 21.0  | 19.0   | 19.0                                     | 10.5                                   |
| 5                     | (3, 7)                | 21.0  | 19.0   | 19.0                                     | 10.5                                   |
| 6                     | (4, 8)                | 21.0  | 19.0   | 19.0                                     | 14.0                                   |
| 7                     | (5, 9)                | 21.0  | 19.0   | 19.0                                     | 9.5                                    |
| 8                     | (6, 10)               | 21.0  | 19.0   | 19.0                                     | 9.5                                    |
| 9                     | (7, 11)               | 19.5  | 14.0   | 13.0                                     | 9.5                                    |
| 10                    | (8, 12)               | 19.5  | 14.0   | 13.0                                     |  |
| 11                    | (9, 13)               | 19.5  | 14.0   | 13.0                                     |  |

### 13.1.5 Panel Antenna Models

The following is the panel antenna model for 2.4 GHz:

| <b>Motorola Solutions Part Number</b> |
|---------------------------------------|
| ML-2452-PNA5-01R                      |

#### 13.1.5.1 Panel Antenna Maximum Conducted Transmit Power Settings

The following is a transmit power table (US domain) per panel antenna in the 2.4 GHz band:

| <b>20 MHZ CHANNEL</b> | <b>40 MHZ CHANNEL</b> | <b>LEGACY DSSS RATES (1, 2, 5.5, 11 MBPS)</b> | <b>LEGACY OFDM RATES (6,9,12,18,24,36, 48,54 MBPS)</b> | <b>802.11n HT20 RATES (MCS 0 MCS 15)</b> | <b>802.11n HT40 RATES (MCS0 MCS15)</b> |
|-----------------------|-----------------------|---|--|--|--|
| 1                     |                       | 16.5  | 13.0   | 12.5                                     |  |
| 2                     |                       | 16.5  | 13.0   | 12.5                                     |  |
| 3                     | (1, 5)                | 16.5  | 13.0   | 12.5                                     | 10.0                                   |
| 4                     | (2, 6)                | 20.0  | 17.0   | 18.0                                     | 10.0                                   |
| 5                     | (3, 7)                | 20.0  | 17.0   | 18.0                                     | 10.0                                   |
| 6                     | (4, 8)                | 20.0  | 17.0   | 18.0                                     | 13.0                                   |
| 7                     | (5, 9)                | 20.0  | 17.0   | 18.0                                     | 9.0                                    |
| 8                     | (6, 10)               | 20.0  | 17.0   | 18.0                                     | 9.0                                    |
| 9                     | (7, 11)               | 17.0  | 13.0   | 12.0                                     | 9.0                                    |
| 10                    | (8, 12)               | 17.0  | 13.0   | 12.0                                     |  |
| 11                    | (9, 13)               | 17.0  | 13.0   | 12.0                                     |  |

## 13.2 US Regulatory Domain 5 GHz Band

### 13.2.1 Dual Band Dipole Antenna Model

The following is the dual band dipole antenna model for 5 GHz:

| <b>Motorola Solutions Part Number</b> |
|---------------------------------------|
| ML-2452-APA2-01                       |

#### 13.2.1.1 Dual Band Dipole Antenna Maximum Conducted Transmit Power Settings

The following is a transmit power table (US domain) per dual band dipole antenna in the 5 GHz band:

| <b>20 MHZ CHANNEL</b> | <b>40 MHZ CHANNEL</b> | <b>LEGACY OFDM RATES<br/>(6,9,12,18,24,36,48,54 MBPS)</b> | <b>802.11n HT20 RATES<br/>(MCS 0 MCS 15)</b> | <b>802.11n HT40 RATES<br/>(MCS 0 MCS 15)</b> |
|-----------------------|-----------------------|---|--|--|
| 36                    |                       | 11.0  | 11.0   |  |
| 38                    | (36, 40)              | 11.0  | 11.0   | 11.0   |
| 40                    |                       | 11.0  | 11.0   |  |
| 42                    |                       | 11.0  | 11.0   |  |

| 153                   |                       | 19.0  | 18.0   |  |
| 157                   |                       | 19.0  | 18.0   |  |
| 159                   | (157, 161)            | 19.0  | 18.0   | 18.0   |
| 161                   |                       | 19.0  | 18.0   |  |
| 165                   |                       | 19.0  | 18.0   |  |

## 13.3 Japan TELEC Regulatory Domain 2.4 GHz Band

### 13.3.1 Dipole Antenna Model

The following is the dipole antenna model for 2.4 GHz:

| <b>Motorola Solutions Part Number</b> |
|---------------------------------------|
| ML-2452-APA2-01                       |

#### 13.3.1.1 Dipole Antenna Maximum Conducted Transmit Power Settings

The following is a transmit power table (Japanese domain) per dipole antenna in the 2.4 GHz band:

| <b>20 MHZ CHANNEL</b> | <b>40 MHZ CHANNEL</b> | <b>LEGACY DSSS RATES (1, 2, 5.5, 11 MBPS)</b> | <b>LEGACY OFDM RATES (6,9,12,18,24,36, 48,54 MBPS)</b> | <b>802.11n HT20 RATES (MCS 0 MCS 15)</b> | <b>802.11n HT40 RATES (MCS 0 MCS15)</b> |
|-----------------------|-----------------------|---|--|--|---|
| 1                     |                       | 2412  | 13.5   | 16.0                                     |   |
| 2                     |                       | 2417  | 13.5   | 15.5                                     |   |
| 3                     | (1, 5)                | 2422  | 13.5   | 15.5                                     | 18.5                                    |
| 4                     | (2, 6)                | 2427  | 13.5   | 15.5                                     | 18.5                                    |
| 5                     | (3, 7)                | 2432  | 13.5   | 15.5                                     | 18.5                                    |
| 6                     | (4, 8)                | 2437  | 13.5   | 15.5                                     | 18.5                                    |
| 7                     | (5, 9)                | 2442  | 13.5   | 15.5                                     | 18.5                                    |
| 8                     | (6, 10)               | 2447  | 13.5   | 15.5                                     | 18.5                                    |
| 9                     | (7, 11)               | 2452  | 13.5   | 15.5                                     | 18.5                                    |
| 10                    |                       | 2457  | 13.5   | 15.5                                     |   |
| 11                    |                       | 2462  | 13.5   | 15.5                                     |   |
| 12                    |                       | 2467  | 13.5   | 15.5                                     |   |
| 13                    |                       | 2472  | 13.5   | 15.5                                     |   |
| 14                    |                       | 2484  |  |  |   |

### 13.3.2 Internal AP650 Dual Band Antenna Models

The following is the internal dual band antenna model for 2.4 GHz:

| <b>Motorola Solutions Part Number</b> |
|---------------------------------------|
| 57RPAA13.G66                          |
| 57RPAA13.G67                          |
| 57RPAA13.G68                          |
| 57RPAA13.G69                          |
| 57RPAA13.G6A                          |
| 57RPAA13.G6B                          |

#### 13.3.2.1 AP650 Internal Dual Band Antenna Maximum Conducted Transmit Power Settings

The following is a transmit power table (Japanese domain) per internal dual band antenna in the 2.4 GHz band:

| <b>20 MHZ CHANNEL</b> | <b>40 MHZ CHANNEL</b> | <b>LEGACY DSSS RATES<br/>(1, 2, 5.5, 11 MBPS)</b> | <b>LEGACY OFDM RATES<br/>(6,9,12,18,24,36, 48,54 MBPS)</b> | <b>802.11n HT20 RATES<br/>(MCS 0 MCS 15)</b> | <b>802.11n HT40 RATES<br/>(MCS 0 MCS15)</b> |
|-----------------------|-----------------------|---|--|--|---|
| 1                     |                       | 14.0  | 16.5   |  | 14.0  |
| 2                     |                       | 14.0  | 16.0   |  | 14.0  |
| 3                     | (1, 5)                | 14.0  | 16.0   | 18.5   | 14.0  |
| 4                     | (2, 6)                | 14.0  | 16.0   | 18.5   | 14.0  |
| 5                     | (3, 7)                | 14.0  | 16.0   | 18.5   | 14.0  |
| 6                     | (4, 8)                | 14.0  | 16.0   | 18.5   | 14.0  |
| 7                     | (5, 9)                | 14.0  | 16.0   | 18.5   | 14.0  |
| 8                     | (6, 10)               | 14.0  | 16.0   | 18.5   | 14.0  |
| 9                     | (7, 11)               | 14.0  | 16.0   | 18.5   | 14.0  |
| 10                    |                       | 14.0  | 16.0   |  | 14.0  |
| 11                    |                       | 14.0  | 16.0   |  | 14.0  |
| 12                    |                       | 14.0  | 16.0   |  | 14.0  |
| 13                    |                       | 14.5  | 16.0   |  | 14.5  |
| 14                    |                       |   |  |  |   |

### 13.3.3 Indoor Patch Antenna Model

The following is the indoor patch antenna model for 2.4 GHz:

| <b>Motorola Solutions Part Number</b> |
|---------------------------------------|
| ML-2499-SD3-01R                       |

#### 13.3.3.1 Indoor Patch Antenna Maximum Conducted Transmit Power Settings

The following is a transmit power table (Japanese domain) per Indoor Patch antenna in the 2.4 GHz band:

| <b>20 MHZ CHANNEL</b> | <b>40 MHZ CHANNEL</b> | <b>LEGACY DSSS RATES (1, 2, 5.5, 11 MBPS)</b> | <b>LEGACY OFDM RATES (6,9,12,18,24,36, 48,54 MBPS)</b> | <b>802.11n HT20 RATES (MCS 0 MCS 15)</b> | <b>802.11n HT40 RATES (MCS 0 MCS15)</b> |
|-----------------------|-----------------------|---|--|--|---|
| 1                     |                       | 10.5  | 13.0   | 15.5                                     |   |
| 2                     |                       | 10.5  | 13.0   | 15.0                                     |   |
| 3                     | (1, 5)                | 10.5  | 13.0   | 15.0                                     | 18.5                                    |
| 4                     | (2, 6)                | 10.5  | 13.0   | 15.0                                     | 18.5                                    |
| 5                     | (3, 7)                | 10.5  | 13.0   | 15.0                                     | 18.5                                    |
| 6                     | (4, 8)                | 10.5  | 13.0   | 15.0                                     | 18.5                                    |
| 7                     | (5, 9)                | 10.5  | 13.0   | 15.0                                     | 18.5                                    |
| 8                     | (6, 10)               | 10.5  | 13.0   | 15.0                                     | 18.5                                    |
| 9                     | (7, 11)               | 10.5  | 13.0   | 15.0                                     | 18.5                                    |
| 10                    |                       | 10.5  | 13.0   | 15.0                                     |   |
| 11                    |                       | 10.5  | 13.0   | 15.0                                     |   |
| 12                    |                       | 10.5  | 13.0   | 15.0                                     |   |
| 13                    |                       | 10.5  | 13.0   | 15.0                                     |   |
| 14                    |                       | 11.5  |  |  |   |

### 13.3.4 Outdoor Omni Antenna Model

The following is the outdoor omni antenna model for 2.4 GHz:

| <b>Motorola Solutions Part Number</b> |
|---------------------------------------|
| ML-2499-HPA3-01R                      |

#### 13.3.4.1 Outdoor Omni Antenna Maximum Conducted Transmit Power Settings

The following is a transmit power table (Japanese domain) per outdoor omni antenna in the 2.4 GHz band:

| <b>20 MHZ CHANNEL</b> | <b>40 MHZ CHANNEL</b> | <b>LEGACY DSSS RATES (1, 2, 5.5, 11 MBPS)</b> | <b>LEGACY OFDM RATES (6,9,12,18,24,36, 48,54 MBPS)</b> | <b>802.11n HT20 RATES (MCS 0 MCS 15)</b> | <b>802.11n HT40 RATES (MCS0 MCS15)</b> |
|-----------------------|-----------------------|---|--|--|--|
| 1                     |                       | 10.5  | 13.0   | 15.5                                     |  |
| 2                     |                       | 10.5  | 13.0   | 15.0                                     |  |
| 3                     | (1, 5)                | 10.5  | 13.0   | 15.0                                     | 18.5                                   |
| 4                     | (2, 6)                | 10.5  | 13.0   | 15.0                                     | 18.5                                   |
| 5                     | (3, 7)                | 10.5  | 13.0   | 15.0                                     | 18.5                                   |
| 6                     | (4, 8)                | 10.5  | 13.0   | 15.0                                     | 18.5                                   |
| 7                     | (5, 9)                | 10.5  | 13.0   | 15.0                                     | 18.5                                   |
| 8                     | (6, 10)               | 10.5  | 13.0   | 15.0                                     | 18.5                                   |
| 9                     | (7, 11)               | 10.5  | 13.0   | 15.0                                     | 18.5                                   |
| 10                    |                       | 10.5  | 13.0   | 15.0                                     |  |
| 11                    |                       | 10.5  | 13.0   | 15.0                                     |  |
| 12                    |                       | 10.5  | 13.0   | 15.0                                     |  |
| 13                    |                       | 10.5  | 13.0   | 15.0                                     |  |
| 14                    |                       | 11.5  |  |  |  |

### 13.3.5 Panel Antenna Models

The following is the panel antenna model for 2.4 GHz:

| <b>Motorola Solutions Part Number</b> |
|---------------------------------------|
| ML-2452-PNA5-01R                      |

#### 13.3.5.1 Panel Antenna Maximum Conducted Transmit Power Settings

The following is a transmit power table (Japanese domain) per panel antenna in the 2.4 GHz band:

| <b>20 MHZ CHANNEL</b> | <b>40 MHZ CHANNEL</b> | <b>LEGACY DSSS RATES (1, 2, 5.5, 11 MBPS)</b> | <b>LEGACY OFDM RATES (6,9,12,18,24,36, 48,54 MBPS)</b> | <b>802.11n HT20 RATES (MCS 0 MCS 15)</b> | <b>802.11n HT40 RATES (MCS0 MCS15)</b> |
|-----------------------|-----------------------|---|--|--|--|
| 1                     |                       | 9.5   | 12.0   | 14.5                                     |  |
| 2                     |                       | 9.5   | 12.0   | 14.0                                     |  |
| 3                     | (1, 5)                | 9.5   | 12.0   | 14.0                                     | 18.5                                   |
| 4                     | (2, 6)                | 9.5   | 12.0   | 14.0                                     | 18.5                                   |
| 5                     | (3, 7)                | 9.5   | 12.0   | 14.0                                     | 18.5                                   |
| 6                     | (4, 8)                | 9.5   | 12.0   | 14.0                                     | 18.5                                   |
| 7                     | (5, 9)                | 9.5   | 12.0   | 14.0                                     | 18.5                                   |
| 8                     | (6, 10)               | 9.5   | 12.0   | 14.0                                     | 18.5                                   |
| 9                     | (7, 11)               | 9.5   | 12.0   | 14.0                                     | 18.5                                   |
| 10                    |                       | 9.5   | 12.0   | 14.0                                     |  |
| 11                    |                       | 9.5   | 12.0   | 14.0                                     |  |
| 12                    |                       | 9.5   | 12.0   | 14.0                                     |  |
| 13                    |                       | 9.5   | 13.0   | 14.0                                     |  |
| 14                    |                       | 10.5  |  |  |  |

### 13.3.6 Omni Antenna Model

The following is the omni antenna model for 2.4 GHz:

| <b>Motorola Solutions Part Number</b> |
|---------------------------------------|
| ML-2452-PTA3M3-036                    |

#### 13.3.6.1 Omni Antenna Maximum Conducted Transmit Power Settings

The following is a transmit power table (Japanese domain) per omni antenna in the 2.4 GHz band:

| <b>20 MHZ CHANNEL</b> | <b>40 MHZ CHANNEL</b> | <b>LEGACY DSSS RATES (1, 2, 5.5, 11 MBPS)</b> | <b>LEGACY OFDM RATES (6,9,12,18,24,36, 48,54 MBPS)</b> | <b>802.11n HT20 RATES (MCS 0 MCS 15)</b> | <b>802.11n HT40 RATES (MCS0 MCS15)</b> |
|-----------------------|-----------------------|---|--|--|--|
| 1                     |                       | 11.5  | 14.0   | 16.0                                     |  |
| 2                     |                       | 11.5  | 14.0   | 16.0                                     |  |
| 3                     | (1, 5)                | 11.5  | 14.0   | 16.0                                     | 18.5                                   |
| 4                     | (2, 6)                | 11.5  | 14.0   | 16.0                                     | 18.5                                   |
| 5                     | (3, 7)                | 11.5  | 14.0   | 16.0                                     | 18.5                                   |
| 6                     | (4, 8)                | 11.5  | 14.0   | 16.0                                     | 18.5                                   |
| 7                     | (5, 9)                | 11.5  | 14.0   | 16.0                                     | 18.5                                   |
| 8                     | (6, 10)               | 11.5  | 14.0   | 16.0                                     | 18.5                                   |
| 9                     | (7, 11)               | 11.5  | 14.0   | 16.0                                     | 18.5                                   |
| 10                    |                       | 11.5  | 14.0   | 16.0                                     |  |
| 11                    |                       | 11.5  | 14.0   | 16.0                                     |  |
| 12                    |                       | 11.5  | 14.0   | 16.0                                     |  |
| 13                    |                       | 11.5  | 14.0   | 16.0                                     |  |
| 14                    |                       | 10.0  |  |  |  |

## 13.4 Japan TELEC Regulatory Domain 5 GHz Band

### 13.4.1 Dual Band Dipole Antenna Model

The following is the dual band dipole antenna model for 5 GHz:

| <b>Motorola Solutions Part Number</b> |
|---------------------------------------|
| ML-2452-APA2-01                       |

#### 13.4.1.1 Dual Band Dipole Antenna Maximum Conducted Transmit Power Settings

The following is a transmit power table (Japanese domain) per dual band dipole antenna in the 5 GHz band:

| <b>20 MHZ CHANNEL</b> | <b>40 MHZ CHANNEL</b> | <b>LEGACY OFDM RATES<br/>(6,9,12,18,24,36,48,54 MBPS)</b> | <b>802.11n HT20 RATES<br/>(MCS 0 MCS 15)</b> | <b>802.11n HT40 RATES<br/>(MCS 0 MCS 15)</b> |
|-----------------------|-----------------------|---|--|--|
| 36                    |                       | 12.0  | 14.0   |  |
| 38                    | (36, 40)              | 12.0  | 14.0   | 15.5   |
| 40                    |                       | 12.0  | 14.0   |  |
| 42                    |                       | 12.0  | 14.0   |  |
| 44                    |                       | 12.0  | 14.0   |  |
| 46                    | (44, 48)              | 12.0  | 14.0   | 16.0   |
| 48                    |                       | 12.0  | 14.0   |  |
| 52                    |                       | 12.0  | 14.0   |  |
| 54                    | (52, 56)              | 12.0  | 14.0   | 14.0   |
| 56                    |                       | 12.0  | 14.0   |  |
| 60                    |                       | 12.0  | 14.0   |  |
| 62                    | (60, 64)              | 12.0  | 14.0   | 15.5   |
| 64                    |                       | 12.0  | 14.0   |  |
| 100                   |                       | 15.0  | 14.0   |  |
| 102                   | (100, 104)            | 12.0  | 14.0   | 18.0   |
| 104                   |                       | 12.0  | 14.0   |  |
| 108                   |                       | 12.0  | 14.0   |  |
| 112                   |                       | 12.0  | 14.0   |  |
| 110                   | (108, 112)            | 12.0  | 14.0   | 18.0   |
| 116                   |                       | 12.0  | 14.0   |  |
| 118                   | (116, 120)            | 12.0  | 14.0   | 18.0   |
| 120                   |                       | 15.0  | 14.0   |  |
| 124                   |                       | 12.0  | 14.0   |  |

| <b>20 MHZ CHANNEL</b> | <b>40 MHZ CHANNEL</b> | <b>LEGACY OFDM RATES<br/>(6,9,12,18,24,36,48,54 MBPS)</b> | <b>802.11n HT20 RATES (MCS 0 MCS 15)</b> | <b>802.11n HT40 RATES (MCS 0 MCS 15)</b> |
|-----------------------|-----------------------|---|--|--|
| 126                   | (124, 128)            | 12.0  | 14.0                                     | 18.0                                     |
| 128                   |                       | 12.0  | 14.0                                     |  |
| 132                   |                       | 12.0  | 14.0                                     |  |
| 134                   | (132, 136)            | 12.0  | 14.0                                     | 18.0                                     |
| 136                   |                       | 12.0  | 14.0                                     |  |
| 140                   |                       | 15.0  | 14.0                                     |  |
| 149                   |                       |   |  |  |
| 151                   | (149, 153)            |   |  |  |
| 153                   |                       |   |  |  |
| 157                   |                       |   |  |  |
| 159                   | (157, 161)            |   |  |  |
| 161                   |                       |   |  |  |
| 165                   |                       |   |  |  |

### 13.4.2 Internal Dual Band Antenna Models

The following are the internal dual band antenna models for 5.2 GHz:

| <b>Motorola Solutions Part Number</b> |
|---------------------------------------|
| 57RPAA13.G66                          |
| 57RPAA13.G67                          |
| 57RPAA13.G68                          |
| 57RPAA13.G69                          |
| 57RPAA13.G6A                          |
| 57RPAA13.G6B                          |

#### 13.4.2.1 Internal Dual Band Antenna Maximum Conducted Transmit Power Settings

The following is a transmit power table (Japanese domain) per internal dual band antenna in the 5 GHz band:

| <b>20 MHZ CHANNEL</b> | <b>40 MHZ CHANNEL</b> | <b>LEGACY OFDM RATES (6,9,12,18,24,36,48,54 MBPS)</b> | <b>802.11n HT20 RATES (MCS 0 MCS 15)</b> | <b>802.11n HT40 RATES (MCS 0 MCS 15)</b> |
|-----------------------|-----------------------|---|--|--|
| 36                    |                       | 12.0  | 14.0                                     |  |
| 38                    | (36,40)               | 12.0  | 14.0                                     | 15.0                                     |
| 40                    |                       | 12.0  | 14.0                                     |  |
| 42                    |                       | 12.0  | 14.0                                     |  |
| 44                    |                       | 12.0  | 14.0                                     |  |
| 46                    | (44,48)               | 12.0  | 14.0                                     | 15.5                                     |

### 13.4.3 Indoor Patch Model

The following is the indoor patch antenna model for 5.2 GHz:

| <b>Motorola Solutions Part Number</b> |
|---------------------------------------|
| ML-5299-PTA1-01R                      |

#### 13.4.3.1 Indoor Patch Antenna Maximum Conducted Transmit Power Settings

The following is a transmit power table (Japanese domain) per indoor patch antenna in the 5 GHz band:

| <b>20 MHZ CHANNEL</b> | <b>40 MHZ CHANNEL</b> | <b>LEGACY OFDM RATES<br/>(6,9,12,18,24,36,48,54 MBPS)</b> | <b>802.11n HT20 RATES<br/>(MCS 0 MCS 15)</b> | <b>802.11n HT40 RATES<br/>(MCS 0 MCS 15)</b> |
|-----------------------|-----------------------|---|--|--|
| 36                    |                       | 12.0  | 14.0   |  |
| 38                    | (36, 40)              | 12.0  | 14.0   | 15.0   |
| 40                    |                       | 12.0  | 14.0   |  |
| 42                    |                       | 12.0  | 14.0   |  |
| 44                    |                       | 12.0  | 14.0   |  |
| 46                    | (44, 48)              | 12.0  | 14.0   | 15.5   |
| 48                    |                       | 12.0  | 14.0   |  |
| 52                    |                       | 12.0  | 14.0   |  |
| 54                    | (52, 56)              | 12.0  | 14.0   | 15.5   |
| 56                    |                       | 12.0  | 14.0   |  |
| 60                    |                       | 12.0  | 14.0   |  |
| 62                    | (60, 64)              | 12.0  | 14.0   | 15.5   |
| 64                    |                       | 12.0  | 14.0   |  |
| 100                   |                       | 15.0  | 16.5   |  |
| 102                   | (100, 104)            | 15.0  | 16.5   | 18.0   |
| 104                   |                       | 15.0  | 16.5   |  |
| 108                   |                       | 15.0  | 16.5   |  |
| 112                   |                       | 15.0  | 16.5   |  |
| 110                   | (108, 112)            | 15.0  | 16.5   | 18.0   |
| 116                   |                       | 15.0  | 16.5   |  |

### 13.4.5 Panel Antenna Model

The following is the panel antenna model for 5.2 GHz:

| <b>Motorola Solutions Part Number</b> |
|---------------------------------------|
| ML-2452-PNA5-01R                      |

#### 13.4.5.1 Panel Antenna Maximum Conducted Transmit Power Settings

The following is a transmit power table (Japanese domain) per panel antenna in the 5 GHz band:

| <b>20 MHZ CHANNEL</b> | <b>40 MHZ CHANNEL</b> | <b>LEGACY OFDM RATES<br/>(6,9,12,18,24,36,48,54 MBPS)</b> | <b>802.11n HT20 RATES<br/>(MCS 0 MCS 15)</b> | <b>802.11n HT40 RATES<br/>(MCS 0 MCS 15)</b> |
|-----------------------|-----------------------|---|--|--|
| 36                    |                       | 9.0   | 11.0   |  |
| 38                    | (36, 40)              | 9.0   | 11.0   | 13.0   |
| 40                    |                       | 9.0   | 11.0   |  |
| 42                    |                       | 9.0   | 11.0   |  |
| 44                    |                       | 9.0   | 11.0   |  |
| 46                    | (44, 48)              | 9.0   | 11.0   | 13.5   |
| 48                    |                       | 9.0   | 11.0   |  |
| 52                    |                       | 9.0   | 11.0   |  |
| 54                    | (52, 56)              | 9.0   | 11.0   | 13.5   |
| 56                    |                       | 9.0   | 11.0   |  |
| 60                    |                       | 9.0   | 11.0   |  |
| 62                    | (60, 64)              | 9.0   | 11.0   | 13.5   |
| 64                    |                       | 9.0   | 11.0   |  |
| 100                   |                       | 15.0  | 16.5   |  |
| 102                   | (100, 104)            | 15.0  | 16.5   | 18.0   |
| 104                   |                       | 15.0  | 16.5   |  |
| 108                   |                       | 15.0  | 16.5   |  |
| 112                   |                       | 15.0  | 16.5   |  |
| 110                   | (108, 112)            | 15.0  | 16.5   | 18.0   |
| 116                   |                       | 15.0  | 16.5   |  |
| 118                   | (116, 120)            | 15.0  | 16.5   | 18.0   |
| 120                   |                       | 15.0  | 16.5   |  |
| 124                   |                       | 15.0  | 16.5   |  |
| 126                   | (124, 128)            | 15.0  | 16.5   | 18.0   |
| 128                   |                       | 15.0  | 16.5   |  |

| <b>20 MHZ CHANNEL</b> | <b>40 MHZ CHANNEL</b> | <b>LEGACY OFDM RATES<br/>(6,9,12,18,24,36,48,54 MBPS)</b> | <b>802.11n HT20 RATES (MCS 0 MCS 15)</b> | <b>802.11n HT40 RATES (MCS 0 MCS 15)</b> |
|-----------------------|-----------------------|---|--|--|
| 132                   |                       | 15.0  | 16.5                                     |  |
| 134                   | (132, 136)            | 15.0  | 16.5                                     | 18.0                                     |
| 136                   |                       | 15.0  | 16.5                                     |  |
| 140                   |                       | 15.0  | 17.0                                     |  |
| 149                   |                       |   |  |  |
| 151                   | (149, 153)            |   |  |  |
| 153                   |                       |   |  |  |
| 157                   |                       |   |  |  |
| 159                   | (157, 161)            |   |  |  |
| 161                   |                       |   |  |  |
| 165                   |                       |   |  |  |

### 13.4.6 Omni Antenna Model

The following is the omni antenna model for 5.2 GHz:

| <b>Motorola Solutions Part Number</b> |
|---------------------------------------|
| ML-2452-PTA3M3-036                    |

#### 13.4.6.1 Omni Antenna Maximum Conducted Transmit Power Settings

The following is a transmit power table (Japanese domain) per omni antenna in the 5 GHz band:

| <b>20 MHZ CHANNEL</b> | <b>40 MHZ CHANNEL</b> | <b>LEGACY OFDM RATES<br/>(6,9,12,18,24,36,48,54 MBPS)</b> | <b>802.11n HT20 RATES<br/>(MCS 0 MCS 15)</b> | <b>802.11n HT40 RATES<br/>(MCS 0 MCS 15)</b> |
|-----------------------|-----------------------|---|--|--|
| 36                    |                       | 11.0  | 13.0   |  |
| 38                    | (36, 40)              | 11.0  | 14.0   | 10.0   |
| 40                    |                       | 11.0  | 13.0   |  |
| 42                    |                       | 11.0  | 13.0   |  |
| 44                    |                       | 11.0  | 13.0   |  |
| 46                    | (44, 48)              | 11.0  | 13.0   | 16.5   |
| 48                    |                       | 11.0  | 13.0   |  |
| 52                    |                       | 11.0  | 13.0   |  |
| 54                    | (52, 56)              | 11.0  | 13.0   | 17.0   |
| 56                    |                       | 11.0  | 13.0   |  |
| 60                    |                       | 11.0  | 13.0   |  |
| 62                    | (60, 64)              | 11.0  | 13.0   | 10.5   |
| 64                    |                       | 11.0  | 13.0   |  |
| 100                   |                       | 15.0  | 16.5   |  |
| 102                   | (100, 104)            | 15.0  | 16.5   | 8.0  |
| 104                   |                       | 15.0  | 16.5   |  |
| 108                   |                       | 15.0  | 16.5   |  |

| 157                   |                       |   |  |  |
| 159                   | (157, 161)            |   |  | 18.0                                     |
| 161                   |                       |   |  |  |
| 165                   |                       |   |  |  |

## 13.5 EU Regulatory Domain 2.4 GHz Band

### 13.5.1 Dipole Antenna Model

The following is the dipole antenna model for 2.4 GHz:

| <b>Motorola Solutions Part Number</b> |
|---------------------------------------|
| ML-2452-APA2-01                       |

#### 13.5.1.1 Dipole Antenna Maximum Conducted Transmit Power Settings

The following is a transmit power table (EU domain) per dipole antenna in the 2.4 GHz band:

| <b>20 MHZ CHANNEL</b> | <b>40 MHZ CHANNEL</b> | <b>LEGACY DSSS RATES (1, 2, 5.5, 11 MBPS)</b> | <b>LEGACY OFDM RATES (6,9,12,18,24,36, 48,54 MBPS)</b> | <b>802.11n HT20 RATES (MCS 0 MCS 15)</b> | <b>802.11n HT40 RATES (MCS 0 MCS15)</b> |
|-----------------------|-----------------------|---|--|--|---|
| 1                     |                       | 14.0  | 14.0   | 14.0                                     |   |
| 2                     |                       | 14.0  | 14.0   | 14.0                                     |   |
| 3                     | (1, 5)                | 14.0  | 14.0   | 14.0                                     | 14.0                                    |
| 4                     | (2, 6)                | 14.0  | 14.0   | 14.0                                     | 14.0                                    |
| 5                     | (3, 7)                | 14.0  | 14.0   | 14.0                                     | 14.0                                    |
| 6                     | (4, 8)                | 14.0  | 14.0   | 14.0                                     | 14.0                                    |
| 7                     | (5, 9)                | 14.0  | 14.0   | 14.0                                     | 14.0                                    |
| 8                     | (6, 10)               | 14.0  | 14.0   | 14.0                                     | 14.0                                    |
| 9                     | (7, 11)               | 14.0  | 14.0   | 14.0                                     | 14.0                                    |
| 10                    | (8, 12)               | 14.0  | 14.0   | 14.0                                     | 14.0                                    |
| 11                    | (9, 13)               | 14.0  | 14.0   | 14.0                                     | 14.0                                    |
| 12                    |                       | 14.0  | 14.0   | 14.0                                     |   |
| 13                    |                       | 14.0  | 14.0   | 14.0                                     |   |

### 13.5.2 Internal AP650 Dual Band Antenna Models

The following is the internal dual band antenna model for 2.4 GHz:

| <b>Motorola Solutions Part Number</b> |
|---------------------------------------|
| 57RPAA13.G66                          |
| 57RPAA13.G67                          |
| 57RPAA13.G68                          |
| 57RPAA13.G69                          |
| 57RPAA13.G6A                          |
| 57RPAA13.G6B                          |

#### 13.5.2.1 AP650 Internal Dual Band Antenna Maximum Conducted Transmit Power Settings

The following is a transmit power table (EU domain) per internal dual band antenna in the 2.4 GHz band:

| <b>20 MHZ CHANNEL</b> | <b>40 MHZ CHANNEL</b> | <b>LEGACY DSSS RATES (1, 2, 5.5, 11 MBPS)</b> | <b>LEGACY OFDM RATES (6,9,12,18,24,36, 48,54 MBPS)</b> | <b>802.11n HT20 RATES (MCS 0 MCS 15)</b> | <b>802.11n HT40 RATES (MCS 0 MCS15)</b> |
|-----------------------|-----------------------|---|--|--|---|
| 1                     |                       | 15.0  | 15.0   | 15.0                                     |   |
| 2                     |                       | 15.0  | 15.0   | 15.0                                     |   |
| 3                     | (1, 5)                | 15.0  | 15.0   | 15.0                                     | 15.0                                    |
| 4                     | (2, 6)                | 15.0  | 15.0   | 15.0                                     | 15.0                                    |
| 5                     | (3, 7)                | 15.0  | 15.0   | 15.0                                     | 15.0                                    |
| 6                     | (4, 8)                | 15.0  | 15.0   | 15.0                                     | 15.0                                    |
| 7                     | (5, 9)                | 15.0  | 15.0   | 15.0                                     | 15.0                                    |
| 8                     | (6, 10)               | 15.0  | 15.0   | 15.0                                     | 15.0                                    |
| 9                     | (7, 11)               | 15.0  | 15.0   | 15.0                                     | 15.0                                    |
| 10                    | (8, 12)               | 15.0  | 15.0   | 15.0                                     | 15.0                                    |
| 11                    | (9, 13)               | 15.0  | 15.0   | 15.0                                     | 15.0                                    |
| 12                    |                       | 15.0  | 15.0   | 15.0                                     |   |
| 13                    |                       | 15.0  | 15.0   | 15.0                                     |   |

### 13.5.3 Outdoor Omni Antenna Model

The following is the outdoor omni antenna model for 2.4 GHz:

| <b>Motorola Solutions Part Number</b> |
|---------------------------------------|
| ML-2499-HPA3-01R                      |

#### 13.5.3.1 Outdoor Omni Antenna Maximum Conducted Transmit Power Settings

The following is a transmit power table (EU domain) per outdoor omni antenna in the 2.4 GHz band:

| <b>20 MHZ CHANNEL</b> | <b>40 MHZ CHANNEL</b> | <b>LEGACY DSSS RATES (1, 2, 5.5, 11 MBPS)</b> | <b>LEGACY OFDM RATES (6,9,12,18,24,36, 48,54 MBPS)</b> | <b>802.11n HT20 RATES (MCS 0 MCS 15)</b> | <b>802.11n HT40 RATES (MCS0 MCS15)</b> |
|-----------------------|-----------------------|---|--|--|--|
| 1                     |                       | 14.0  | 14.0   | 14.0                                     |  |
| 2                     |                       | 14.0  | 14.0   | 14.0                                     |  |
| 3                     | (1, 5)                | 14.0  | 14.0   | 14.0                                     | 14.0                                   |
| 4                     | (2, 6)                | 14.0  | 14.0   | 14.0                                     | 14.0                                   |
| 5                     | (3, 7)                | 14.0  | 14.0   | 14.0                                     | 14.0                                   |
| 6                     | (4, 8)                | 14.0  | 14.0   | 14.0                                     | 14.0                                   |
| 7                     | (5, 9)                | 14.0  | 14.0   | 14.0                                     | 14.0                                   |
| 8                     | (6, 10)               | 14.0  | 14.0   | 14.0                                     | 14.0                                   |
| 9                     | (7, 11)               | 14.0  | 14.0   | 14.0                                     | 14.0                                   |
| 10                    | (8, 12)               | 14.0  | 14.0   | 14.0                                     | 14.0                                   |
| 11                    | (9, 13)               | 14.0  | 14.0   | 14.0                                     | 14.0                                   |
| 12                    |                       | 14.0  | 14.0   | 14.0                                     |  |
| 13                    |                       | 14.0  | 14.0   | 14.0                                     |  |

### 13.5.4 Panel Antenna Models

The following is the panel antenna model for 2.4 GHz:

| <b>Motorola Solutions Part Number</b> |
|---------------------------------------|
| ML-2452-PNA5-01R                      |

#### 13.5.4.1 Panel Antenna Maximum Conducted Transmit Power Settings

The following is a transmit power table (EU domain) per panel antenna in the 2.4 GHz band:

| <b>20 MHZ CHANNEL</b> | <b>40 MHZ CHANNEL</b> | <b>LEGACY DSSS RATES (1, 2, 5.5, 11 MBPS)</b> | <b>LEGACY OFDM RATES (6,9,12,18,24,36, 48,54 MBPS)</b> | <b>802.11n HT20 RATES (MCS 0 MCS 15)</b> | <b>802.11n HT40 RATES (MCS0 MCS15)</b> |
|-----------------------|-----------------------|---|--|--|--|
| 1                     |                       | 13.0  | 13.0   | 13.0                                     |  |
| 2                     |                       | 13.0  | 13.0   | 13.0                                     |  |
| 3                     | (1, 5)                | 13.0  | 13.0   | 13.0                                     | 13.0                                   |
| 4                     | (2, 6)                | 13.0  | 13.0   | 13.0                                     | 13.0                                   |
| 5                     | (3, 7)                | 13.0  | 13.0   | 13.0                                     | 13.0                                   |
| 6                     | (4, 8)                | 13.0  | 13.0   | 13.0                                     | 13.0                                   |
| 7                     | (5, 9)                | 13.0  | 13.0   | 13.0                                     | 13.0                                   |
| 8                     | (6, 10)               | 13.0  | 13.0   | 13.0                                     | 13.0                                   |
| 9                     | (7, 11)               | 13.0  | 13.0   | 13.0                                     | 13.0                                   |
| 10                    | (8, 12)               | 13.0  | 13.0   | 13.0                                     | 13.0                                   |
| 11                    | (9, 13)               | 13.0  | 13.0   | 13.0                                     | 13.0                                   |
| 12                    |                       | 13.0  | 13.0   | 13.0                                     |  |
| 13                    |                       | 13.0  | 13.0   | 13.0                                     |  |

### 13.5.5 Patch Antenna Model

The following is the omni antenna model for 2.4 GHz:

| <b>Motorola Solutions Part Number</b> |
|---------------------------------------|
| ML-2499- SD3-01R                      |

#### 13.5.5.1 Omni Antenna Maximum Conducted Transmit Power Settings

The following is a transmit power table (EU domain) per patch antenna in the 2.4 GHz band:

| <b>20 MHZ CHANNEL</b> | <b>40 MHZ CHANNEL</b> | <b>LEGACY DSSS RATES (1, 2, 5.5, 11 MBPS)</b> | <b>LEGACY OFDM RATES (6,9,12,18,24,36, 48,54 MBPS)</b> | <b>802.11n HT20 RATES (MCS 0 MCS 15)</b> | <b>802.11n HT40 RATES (MCS0 MCS15)</b> |
|-----------------------|-----------------------|---|--|--|--|
| 1                     |                       | 13.0  | 13.0   | 13.0                                     |  |
| 2                     |                       | 13.0  | 13.0   | 13.0                                     |  |
| 3                     | (1, 5)                | 13.0  | 13.0   | 13.0                                     | 13.0                                   |

## 13.6 EU Regulatory Domain 5 GHz Band

### 13.6.1 Dual Band Dipole Antenna Model

The following is the dual band dipole antenna model for 5 GHz:

| <b>Motorola Solutions Part Number</b> |
|---------------------------------------|
| ML-2452-APA2-01                       |

#### 13.6.1.1 Dual Band Dipole Antenna Maximum Conducted Transmit Power Settings

The following is a transmit power table (EU domain) per dual band dipole antenna in the 5 GHz band:

| <b>20 MHZ CHANNEL</b> | <b>40 MHZ CHANNEL</b> | <b>LEGACY OFDM RATES<br/>(6,9,12,18,24,36,48,54 MBPS)</b> | <b>802.11n HT20 RATES<br/>(MCS 0 MCS 15)</b> | <b>802.11n HT40 RATES<br/>(MCS 0 MCS 15)</b> |
|-----------------------|-----------------------|---|--|--|
| 36                    |                       | 15.0  | 15.0   |  |
| 38                    | (36, 40)              | 15.0  | 15.0   | 13.0   |
| 40                    |                       | 15.0  | 15.0   |  |
| 42                    |                       | 15.0  | 15.0   |  |
| 44                    |                       | 15.0  | 15.0   |  |
| 46                    | (44, 48)              | 15.0  | 15.0   | 13.0   |
| 48                    |                       | 15.0  | 15.0   |  |
| 52                    |                       | 19.0  | 19.0   |  |
| 54                    | (52, 56)              | 19.0  | 19.0   | 19.0   |
| 56                    |                       | 19.0  | 19.0   |  |
| 60                    |                       | 19.0  | 19.0   |  |
| 62                    | (60, 64)              | 19.0  | 19.0   | 19.0   |
| 64                    |                       | 19.0  | 19.0   |  |
| 100                   |                       | 19.0  | 19.0   |  |
| 102                   | (100, 104)            | 19.0  | 19.0   | 19.0   |
| 104                   |                       | 19.0  | 19.0   |  |
| 108                   |                       | 19.0  | 19.0   |  |
| 112                   |                       | 19.0  | 19.0   |  |
| 110                   | (108, 112)            | 19.0  | 19.0   | 19.0   |
| 116                   |                       | 19.0  | 19.0   |  |
| 118                   | (116, 120)            | 19.0  | 19.0   | 19.0   |
| 120                   |                       | 19.0  | 19.0   |  |
| 124                   |                       | 19.0  | 19.0   |  |

| <b>20 MHZ CHANNEL</b> | <b>40 MHZ CHANNEL</b> | <b>LEGACY OFDM RATES (6,9,12,18,24,36,48,54 MBPS)</b> | <b>802.11n HT20 RATES (MCS 0 MCS 15)</b> | <b>802.11n HT40 RATES (MCS 0 MCS 15)</b> |
|-----------------------|-----------------------|---|--|--|
| 126                   | (124, 128)            | 19.0  | 19.0                                     | 19.0                                     |
| 128                   |                       | 19.0  | 19.0                                     |  |

| 136                   |                       | 19.0  | 19.0                                     |  |
| 140                   |                       | 19.0  | 19.0                                     |  |
| 149                   |                       |   |  |  |
| 151                   | (149, 153)            |   |  |  |
| 153                   |                       |   |  |  |
| 157                   |                       |   |  |  |
| 159                   | (157, 161)            |   |  |  |
| 161                   |                       |   |  |  |
| 165                   |                       |   |  |  |

### 13.6.2 Internal Dual Band Antenna Models

The following are the internal dual band antenna models for 5.2 GHz:

| <b>Motorola Solutions Part Number</b> |
|---------------------------------------|
| 57RPAA13.G66                          |
| 57RPAA13.G67                          |
| 57RPAA13.G68                          |
| 57RPAA13.G69                          |
| 57RPAA13.G6A                          |
| 57RPAA13.G6B                          |

#### 13.6.2.1 Internal Dual Band Antenna Maximum Conducted Transmit Power Settings

The following is a transmit power table (EU domain) per internal dual band antenna in the 5 GHz band:

| <b>20 MHZ CHANNEL</b> | <b>40 MHZ CHANNEL</b> | <b>LEGACY OFDM RATES (6,9,12,18,24,36,48,54 MBPS)</b> | <b>802.11n HT20 RATES (MCS 0 MCS 15)</b> | <b>802.11n HT40 RATES (MCS 0 MCS 15)</b> |
|-----------------------|-----------------------|---|--|--|
| 36                    |                       | 15.0  | 15.0                                     |  |
| 38                    | (36,40)               | 15.0  | 15.0                                     | 13.0                                     |
| 40                    |                       | 15.0  | 15.0                                     |  |
| 42                    |                       | 15.0  | 15.0                                     |  |
| 44                    |                       | 15.0  | 15.0                                     |  |
| 46                    | (44,48)               | 15.0  | 15.0                                     | 13.0                                     |
| 48                    |                       | 15.0  | 15.0                                     |  |
| 52                    |                       | 19.0  | 19.0                                     |  |
| 54                    | (52,56)               | 19.0  | 19.0                                     | 19.0                                     |
| 56                    |                       | 19.0  | 19.0                                     |  |
| 60                    |                       | 19.0  | 19.0                                     |  |
| 62                    | (60,64)               | 19.0  | 19.0                                     | 19.0                                     |

| 151                   | (149,153)             |   |  |  |
| 153                   |                       |   |  |  |
| 157                   |                       |   |  |  |
| 159                   | (157,161)             |   |  |  |
| 161                   |                       |   |  |  |
| 165                   |                       |   |  |  |

### 13.6.3 Indoor Patch Model

The following is the indoor patch antenna model for 5.2 GHz:

| <b>Motorola Solutions Part Number</b> |
|---------------------------------------|
| ML-5299-PTA1-01R                      |

#### 13.6.3.1 Indoor Patch Antenna Maximum Conducted Transmit Power Settings

The following is a transmit power table (EU domain) per indoor patch antenna in the 5 GHz band:

| <b>20 MHZ CHANNEL</b> | <b>40 MHZ CHANNEL</b> | <b>LEGACY OFDM RATES<br/>(6,9,12,18,24,36,48,54 MBPS)</b> | <b>802.11n HT20 RATES<br/>(MCS 0 MCS 15)</b> | <b>802.11n HT40 RATES<br/>(MCS 0 MCS 15)</b> |
|-----------------------|-----------------------|---|--|--|
| 36                    |                       | 13.0  | 13.0   |  |
| 38                    | (36, 40)              | 13.0  | 13.0   | 13.0   |
| 40                    |                       | 13.0  | 13.0   |  |
| 42                    |                       | 13.0  | 13.0   |  |
| 44                    |                       | 13.0  | 13.0   |  |
| 46                    | (44, 48)              | 13.0  | 13.0   | 13.0   |
| 48                    |                       | 13.0  | 13.0   |  |
| 52                    |                       | 19.0  | 19.0   |  |
| 54                    | (52, 56)              | 19.0  | 19.0   | 19.0   |
| 56                    |                       | 19.0  | 19.0   |  |
| 60                    |                       | 19.0  | 19.0   |  |
| 62                    | (60, 64)              | 19.0  | 19.0   | 19.0   |
| 64                    |                       | 19.0  | 19.0   |  |
| 100                   |                       | 19.0  | 19.0   |  |
| 102                   | (100, 104)            | 19.0  | 19.0   | 19.0   |
| 104                   |                       | 19.0  | 19.0   |  |
| 108                   |                       | 19.0  | 19.0   |  |
| 112                   |                       | 19.0  | 19.0   |  |
| 110                   | (108, 112)            | 19.0  | 19.0   | 19.0   |
| 116                   |                       | 19.0  | 19.0   |  |
| 118                   | (116, 120)            | 19.0  | 19.0   | 19.0   |
| 120                   |                       | 19.0  | 19.0   |  |
| 124                   |                       | 19.0  | 19.0   |  |
| 126                   | (124, 128)            | 19.0  | 19.0   | 19.0   |
| 128                   |                       | 19.0  | 19.0   |  |

| <b>20 MHZ CHANNEL</b> | <b>40 MHZ CHANNEL</b> | <b>LEGACY OFDM RATES (6,9,12,18,24,36,48,54 MBPS)</b> | <b>802.11n HT20 RATES (MCS 0 MCS 15)</b> | <b>802.11n HT40 RATES (MCS 0 MCS 15)</b> |
|-----------------------|-----------------------|---|--|--|
| 132                   |                       | 19.0  | 19.0                                     |  |
| 134                   | (132, 136)            | 19.0  | 19.0                                     | 19.0                                     |
| 136                   |                       | 19.0  | 19.0                                     |  |

| 149                   |                       |   |  |  |
| 151                   | (149, 153)            |   |  |  |
| 153                   |                       |   |  |  |
| 157                   |                       |   |  |  |
| 159                   | (157, 161)            |   |  |  |
| 161                   |                       |   |  |  |
| 165                   |                       |   |  |  |

### 13.6.4 Outdoor Omni Antenna Model

The following is the outdoor omni antenna models for 5.2 GHz:

| <b>Motorola Solutions Part Number</b> |
|---------------------------------------|
| ML-5299-HPA1-01R                      |

#### 13.6.4.1 Outdoor Omni Antenna Transmit Power Settings

The following is a transmit power table (EU domain) per outdoor omni antenna in the 5 GHz band:

| <b>20 MHZ CHANNEL</b> | <b>40 MHZ CHANNEL</b> | <b>LEGACY OFDM RATES<br/>(6,9,12,18,24,36,48,54 MBPS)</b> | <b>802.11n HT20 RATES<br/>(MCS 0 MCS 15)</b> | <b>802.11n HT40 RATES<br/>(MCS 0 MCS 15)</b> |
|-----------------------|-----------------------|---|--|--|
| 36                    |                       | 16.0  | 16.0   |  |
| 38                    | (36, 40)              | 16.0  | 16.0   | 13.0   |
| 40                    |                       | 16.0  | 16.0   |  |
| 42                    |                       | 16.0  | 16.0   |  |
| 44                    |                       | 16.0  | 16.0   |  |
| 46                    | (44, 48)              | 16.0  | 16.0   | 16.0   |
| 48                    |                       | 16.0  | 16.0   |  |
| 52                    |                       | 19.0  | 19.0   |  |
| 54                    | (52, 56)              | 19.0  | 19.0   | 19.0   |
| 56                    |                       | 19.0  | 19.0   |  |
| 60                    |                       | 19.0  | 19.0   |  |
| 62                    | (60, 64)              | 19.0  | 19.0   | 19.0   |
| 64                    |                       | 19.0  | 19.0   |  |
| 100                   |                       | 19.0  | 19.0   |  |
| 102                   | (100, 104)            | 19.0  | 19.0   | 19.0   |
| 104                   |                       | 19.0  | 19.0   |  |
| 108                   |                       | 19.0  | 19.0   |  |
| 112                   |                       | 19.0  | 19.0   |  |
| 110                   | (108, 112)            | 19.0  | 19.0   | 19.0   |
| 116                   |                       | 19.0  | 19.0   |  |

| 159                   | (157, 161)            |   |  |  |
| 161                   |                       |   |  |  |
| 165                   |                       |   |  |  |

### 13.6.5 Panel Antenna Model

The following is the panel antenna model for 5.2 GHz:

| <b>Motorola Solutions Part Number</b> |
|---------------------------------------|
| ML-2452-PNA5-01R                      |

#### 13.6.5.1 Panel Antenna Maximum Conducted Transmit Power Settings

The following is a transmit power table (Japanese domain) per panel antenna in the 5 GHz band:

| <b>20 MHZ CHANNEL</b> | <b>40 MHZ CHANNEL</b> | <b>LEGACY OFDM RATES<br/>(6,9,12,18,24,36,48,54 MBPS)</b> | <b>802.11n HT20 RATES<br/>(MCS 0 MCS 15)</b> | <b>802.11n HT40 RATES<br/>(MCS 0 MCS 15)</b> |
|-----------------------|-----------------------|---|--|--|
| 36                    |                       | 16.0  | 16.0   |  |
| 38                    | (36, 40)              | 16.0  | 16.0   | 13.0   |
| 40                    |                       | 16.0  | 16.0   |  |
| 42                    |                       | 16.0  | 16.0   |  |
| 44                    |                       | 16.0  | 16.0   |  |
| 46                    | (44, 48)              | 16.0  | 16.0   | 16.0   |
| 48                    |                       | 16.0  | 16.0   |  |
| 52                    |                       | 19.0  | 19.0   |  |
| 54                    | (52, 56)              | 19.0  | 19.0   | 19.0   |
| 56                    |                       | 19.0  | 19.0   |  |
| 60                    |                       | 19.0  | 19.0   |  |
| 62                    | (60, 64)              | 19.0  | 19.0   | 19.0   |
| 64                    |                       | 19.0  | 19.0   |  |
| 100                   |                       | 19.0  | 19.0   |  |
| 102                   | (100, 104)            | 19.0  | 19.0   | 19.0   |
| 104                   |                       | 19.0  | 19.0   |  |
| 108                   |                       | 19.0  | 19.0   |  |

## ***RFS4011 Regulatory Domains***

### **14.1 US Regulatory Domain 2.4 GHz Band**

#### **14.1.1 Facade Antenna Model**

The following is the RFS4011 facade antenna model for 2.4 GHz, its peak gain is 2.1dBi:

| <b><i>Motorola Part Number</i></b> |
|------------------------------------|
| ML-2452-PTA4M3X3-1                 |

##### **14.1.1.1 Facade Antenna Maximum Conducted Transmit Power Settings**

The following is a transmit power table (US domain) per facade antenna in the 2.4 GHz band:

| <b><i>20 MHZ CHANNEL</i></b> | <b><i>40 MHZ CHANNEL</i></b> | <b><i>LEGACY DSSS RATES (1, 2, 5.5, 11 MBPS)</i></b> | <b><i>LEGACY OFDM RATES (6,9,12,18,24,36, 48,54 MBPS)</i></b> | <b><i>802.11n HT20 RATES (MCS 0 MCS 15)</i></b> | <b><i>802.11n HT40 RATES (MCS 0 MCS15)</i></b> |
|------------------------------|------------------------------|--|---|---|--|
| 1                            |                              | 18.5   | 15.0  | 15.5  |  |
| 2                            |                              | 18.5   | 15.0  | 15.5  |  |
| 3                            | (1, 5)                       | 18.5   | 15.0  | 15.5  | 12.5   |
| 4                            | (2, 6)                       | 18.5   | 15.0  | 15.5  | 12.5   |
| 5                            | (3, 7)                       | 18.5   | 15.0  | 15.5  | 12.5   |
| 6                            | (4, 8)                       | 21.0   | 15.0  | 16.0  | 15.5   |
| 7                            | (5, 9)                       | 20.0   | 15.5  | 15.5  | 12.5   |
| 8                            | (6, 10)                      | 20.0   | 15.5  | 15.5  | 12.5   |
| 9                            | (7, 11)                      | 20.0   | 15.5  | 15.5  | 12.5   |
| 10                           |                              | 20.0   | 15.5  | 15.5  |  |
| 11                           |                              | 20.0   | 15.5  | 15.5  |  |

### 14.1.2 MIMO Patch Antenna Model

The following is the RFS4011 MIMO patch antenna model for 2.4 GHz, its peak gain is 3.5dBi:

| <b>Motorola Part Number</b> |
|-----------------------------|
| ML-2452-PTA3M3-036          |

#### 14.1.2.1 MIMO Patch Antenna Maximum Conducted Transmit Power Settings

The following is a transmit power table (US domain) per MIMO patch antenna in the 2.4 GHz band:

| <b>20 MHZ CHANNEL</b> | <b>40 MHZ CHANNEL</b> | <b>LEGACY DSSS RATES (1, 2, 5.5, 11 MBPS)</b> | <b>LEGACY OFDM RATES (6,9,12,18,24,36, 48,54 MBPS)</b> | <b>802.11n HT20 RATES (MCS 0 MCS 15)</b> | <b>802.11n HT40 RATES (MCS 0 MCS15)</b> |
|-----------------------|-----------------------|---|--|--|---|
| 1                     |                       | 18.5  | 13.5   | 14.5                                     |   |
| 2                     |                       | 18.5  | 13.5   | 14.5                                     |   |
| 3                     | (1, 5)                | 18.5  | 13.5   | 14.5                                     | 11.5                                    |
| 4                     | (2, 6)                | 18.5  | 13.5   | 14.5                                     | 11.5                                    |
| 5                     | (3, 7)                | 18.5  | 13.5   | 14.5                                     | 11.5                                    |
| 6                     | (4, 8)                | 19.5  | 14.0   | 16.0                                     | 15.5                                    |
| 7                     | (5, 9)                | 19.0  | 14.0   | 14.5                                     | 11.5                                    |
| 8                     | (6, 10)               | 19.0  | 14.0   | 14.5                                     | 11.5                                    |
| 9                     | (7, 11)               | 19.0  | 14.0   | 14.5                                     | 11.5                                    |
| 10                    |                       | 19.0  | 14.0   | 14.5                                     |   |
| 11                    |                       | 19.0  | 14.0   | 14.5                                     |   |

### 14.1.3 Dipole Antenna Model

The following is the RFS4011 dipole antenna model for 2.4 GHz, its peak gain is 3.1dBi:

| <b>Motorola Part Number</b> |
|-----------------------------|
| ML-2452-HPA5-036            |

#### 14.1.3.1 Dipole Antenna Maximum Conducted Transmit Power Settings

The following is a transmit power table (US domain) per dipole antenna in the 2.4 GHz band:

| <b>20 MHZ CHANNEL</b> | <b>40 MHZ CHANNEL</b> | <b>LEGACY DSSS RATES (1, 2, 5.5, 11 MBPS)</b> | <b>LEGACY OFDM RATES (6,9,12,18,24,36, 48,54 MBPS)</b> | <b>802.11n HT20 RATES (MCS 0 MCS 15)</b> | <b>802.11n HT40 RATES (MCS 0 MCS15)</b> |
|-----------------------|-----------------------|---|--|--|---|
| 1                     |                       | 19.0  | 14.0   | 14.0                                     |   |
| 2                     |                       | 19.0  | 14.0   | 14.0                                     |   |
| 3                     | (1, 5)                | 19.0  | 14.0   | 14.0                                     | 11.0                                    |
| 4                     | (2, 6)                | 19.0  | 14.0   | 14.0                                     | 11.0                                    |
| 5                     | (3, 7)                | 19.0  | 14.0   | 14.0                                     | 11.0                                    |
| 6                     | (4, 8)                | 20.0  | 15.0   | 15.5                                     | 14.0                                    |
| 7                     | (5, 9)                | 18.5  | 13.5   | 13.5                                     | 11.0                                    |
| 8                     | (6, 10)               | 18.5  | 13.5   | 13.5                                     | 11.0                                    |
| 9                     | (7, 11)               | 18.5  | 13.5   | 13.5                                     | 11.0                                    |
| 10                    |                       | 18.5  | 13.5   | 13.5                                     |   |
| 11                    |                       | 18.5  | 13.5   | 13.5                                     |   |

### 14.1.4 High-Gain Patch Antenna Model

The following is the RFS4011 high-gain patch antenna model for 2.4 GHz, its peak gain is 7.5 dBi:

| <b>Motorola Part Number</b> |
|-----------------------------|
| ML-2452-PNA7-01R            |

#### 14.1.4.1 High-Gain Patch Antenna Maximum Conducted Transmit Power Settings

The following is a transmit power table (US domain) per high-gain patch antenna in the 2.4 GHz band:

| <b>20 MHZ CHANNEL</b> | <b>40 MHZ CHANNEL</b> | <b>LEGACY DSSS RATES (1, 2, 5.5, 11 MBPS)</b> | <b>LEGACY OFDM RATES (6,9,12,18,24,36, 48,54 MBPS)</b> | <b>802.11n HT20 RATES (MCS 0 MCS 15)</b> | <b>802.11n HT40 RATES (MCS0 MCS15)</b> |
|-----------------------|-----------------------|---|--|--|--|
| 1                     |                       | 15.5  | 9.5  | 11.0                                     |  |
| 2                     |                       | 15.5  | 9.5  | 11.0                                     |  |
| 3                     | (1, 5)                | 15.5  | 9.5  | 11.0                                     | 7.5                                    |
| 4                     | (2, 6)                | 15.5  | 9.5  | 11.0                                     | 7.5                                    |
| 5                     | (3, 7)                | 15.5  | 9.5  | 11.0                                     | 7.5                                    |
| 6                     | (4, 8)                | 15.5  | 10.5   | 15.0                                     | 12.5                                   |
| 7                     | (5, 9)                | 16.0  | 9.5  | 11.0                                     | 8.0                                    |
| 8                     | (6, 10)               | 16.0  | 9.5  | 11.0                                     | 8.0                                    |
| 9                     | (7, 11)               | 16.0  | 9.5  | 11.0                                     | 8.0                                    |
| 10                    |                       | 16.0  | 9.5  | 11.0                                     |  |
| 11                    |                       | 16.0  | 9.5  | 11.0                                     |  |

## 14.2 US Regulatory Domain 5 GHz Band

### 14.2.1 Facade Antenna Model

The following is the RFS4011 facade antenna model for 5 GHz, its peak gain is 3.95dBi:

| <b>Motorola Part Number</b> |
|-----------------------------|
| ML-2452-PTA4M3X3-1          |

#### 14.2.1.1 Facade Antenna Maximum Conducted Transmit Power Settings

The following is a transmit power table (US domain) per facade antenna in the 5 GHz band:

| <b>20 MHZ CHANNEL</b> | <b>40 MHZ CHANNEL</b> | <b>LEGACY OFDM RATES<br/>(6,9,12,18,24,36,48,54 MBPS)</b> | <b>802.11n HT20 RATES<br/>(MCS 0 MCS 15)</b> | <b>802.11n HT40 RATES<br/>(MCS 0 MCS 15)</b> |
|-----------------------|-----------------------|---|--|--|
| 36                    |                       | 8.5   | 10.0   |  |
| 38                    | (36, 40)              |   |  | 10.0   |
| 40                    |                       | 8.5   | 10.0   |  |
| 42                    |                       | 8.5   | 10.0   |  |
| 44                    |                       | 8.5   | 10.0   |  |
| 46                    | (44, 48)              |   |  | 10.0   |
| 48                    |                       | 8.5   | 10.0   |  |
| 52                    |                       |   |  |  |
| 54                    | (52, 56)              |   |  |  |
| 56                    |                       |   |  |  |
| 60                    |                       |   |  |  |
| 62                    | (60, 64)              |   |  |  |
| 64                    |                       |   |  |  |
| 100                   |                       |   |  |  |
| 102                   | (100, 104)            |   |  |  |
| 104                   |                       |   |  |  |
| 108                   |                       |   |  |  |
| 112                   |                       |   |  |  |
| 110                   | (108, 112)            |   |  |  |
| 116                   |                       |   |  |  |
| 118                   | (116, 120)            |   |  |  |
| 120                   |                       |   |  |  |
| 124                   |                       |   |  |  |
| 126                   | (124, 128)            |   |  |  |
| 128                   |                       |   |  |  |

| <b>20 MHZ CHANNEL</b> | <b>40 MHZ CHANNEL</b> | <b>LEGACY OFDM RATES<br/>(6,9,12,18,24,36,48,54 MBPS)</b> | <b>802.11n HT20 RATES<br/>(MCS 0 MCS 15)</b> | <b>802.11n HT40 RATES<br/>(MCS 0 MCS 15)</b> |
|-----------------------|-----------------------|---|--|--|
| 132                   |                       |   |  |  |
| 134                   | (132, 136)            |   |  |  |
| 136                   |                       |   |  |  |
| 140                   |                       |   |  |  |
| 149                   |                       | 11.0  | 12.5   |  |
| 151                   | (149, 153)            |   |  | 12.5   |
| 153                   |                       | 11.0  | 12.5   |  |
| 157                   |                       | 11.5  | 12.5   |  |

| 126                   | (124,128)             |   |  |  |
| 128                   |                       |   |  |  |

| <b>20 MHZ CHANNEL</b> | <b>40 MHZ CHANNEL</b> | <b>LEGACY OFDM RATES<br/>(6,9,12,18,24,36,48,54 MBPS)</b> | <b>802.11n HT20 RATES<br/>(MCS 0 MCS 15)</b> | <b>802.11n HT40 RATES<br/>(MCS 0 MCS 15)</b> |
|-----------------------|-----------------------|---|--|--|
| 132                   |                       |   |  |  |
| 134                   | (132,136)             |   |  |  |
| 136                   |                       |   |  |  |
| 140                   |                       |   |  |  |
| 149                   |                       | 10.5  | 13.5   |  |
| 151                   | (149,153)             |   |  | 13.5   |
| 153                   |                       | 10.5  | 13.5   |  |
| 157                   |                       | 11.0  | 13.5   |  |
| 159                   | (157,161)             |   |  | 14.0   |
| 161                   |                       | 11.5  | 14.0   |  |
| 165                   |                       | 11.5  | 14.0   |  |

### 14.2.3 Dipole Model

The following is the RFS4011 dipole antenna model for 5 GHz, its peak gain is 4.6dBi:

| <b>Motorola Part Number</b> |
|-----------------------------|
| ML-2452-HPA5-036            |

#### 14.2.3.1 Dipole Antenna Maximum Conducted Transmit Power Settings

The following is a transmit power table (US domain) per dipole antenna in the 5 GHz band:

| <b>20 MHZ CHANNEL</b> | <b>40 MHZ CHANNEL</b> | <b>LEGACY OFDM RATES<br/>(6,9,12,18,24,36,48,54 MBPS)</b> | <b>802.11n HT20 RATES<br/>(MCS 0 MCS 15)</b> | <b>802.11n HT40 RATES<br/>(MCS 0 MCS 15)</b> |
|-----------------------|-----------------------|---|--|--|
| 36                    |                       | 8.0   | 11.0   |  |
| 38                    | (36, 40)              |   |  | 11.0   |
| 40                    |                       | 8.0   | 11.0   |  |
| 42                    |                       | 8.0   | 11.0   |  |
| 44                    |                       | 8.0   | 11.0   |  |
| 46                    | (44, 48)              |   |  | 11.0   |
| 48                    |                       | 8.0   | 11.0   |  |
| 52                    |                       |   |  |  |
| 54                    | (52, 56)              |   |  |  |
| 56                    |                       |   |  |  |
| 60                    |                       |   |  |  |
| 62                    | (60, 64)              |   |  |  |
| 64                    |                       |   |  |  |
| 100                   |                       |   |  |  |
| 102                   | (100, 104)            |   |  |  |
| 104                   |                       |   |  |  |
| 108                   |                       |   |  |  |
| 112                   |                       |   |  |  |
| 110                   | (108, 112)            |   |  |  |
| 116                   |                       |   |  |  |
| 118                   | (116, 120)            |   |  |  |
| 120                   |                       |   |  |  |
| 124                   |                       |   |  |  |
| 126                   | (124, 128)            |   |  |  |
| 128                   |                       |   |  |  |
| 132                   |                       |   |  |  |
| 134                   | (132, 136)            |   |  |  |

| <b>20 MHZ CHANNEL</b> | <b>40 MHZ CHANNEL</b> | <b>LEGACY OFDM RATES<br/>(6,9,12,18,24,36,48,54 MBPS)</b> | <b>802.11n HT20 RATES<br/>(MCS 0 MCS 15)</b> | <b>802.11n HT40 RATES<br/>(MCS 0 MCS 15)</b> |
|-----------------------|-----------------------|---|--|--|
| 136                   |                       |   |  |  |
| 140                   |                       |   |  |  |
| 149                   |                       | 10.5  | 13.5   |  |
| 151                   | (149, 153)            |   |  | 13.5   |
| 153                   |                       | 10.5  | 13.5   |  |
| 157                   |                       | 11.0  | 13.5   |  |
| 159                   | (157, 161)            |   |  | 14.0   |
| 161                   |                       | 11.5  | 14.0   |  |
| 165                   |                       | 11.5  | 14.0   |  |

### 14.2.4 High-Gain Patch Antenna Model

The following is the RFS4011 high-gain patch antenna model for 5 GHz, its peak gain is between 6.3 -10dBi:

| <b>Motorola Part Number</b> |
|-----------------------------|
| ML-2452-PNA7-01R            |

#### 14.2.4.1 High-Gain Patch Antenna Transmit Power Settings

The following is a transmit power table (US domain) per high-gain patch antenna in the 5 GHz band:

| <b>20 MHZ CHANNEL</b> | <b>40 MHZ CHANNEL</b> | <b>LEGACY OFDM RATES<br/>(6,9,12,18,24,36,48,54 MBPS)</b> | <b>802.11n HT20 RATES<br/>(MCS 0 MCS 15)</b> | <b>802.11n HT40 RATES<br/>(MCS 0 MCS 15)</b> |
|-----------------------|-----------------------|---|--|--|
| 36                    |                       | 6.5   | 10.5   |  |
| 38                    | (36, 40)              |   |  | 9.5  |
| 40                    |                       | 6.5   | 10.5   |  |
| 42                    |                       | 6.5   | 10.5   |  |
| 44                    |                       | 6.5   | 10.5   |  |
| 46                    | (44, 48)              |   |  | 9.5  |

## 14.3 Canada Regulatory Domain 2.4 GHz Band

### 14.3.1 Facade Antenna Model

The following is the RFS4011 facade antenna model for 2.4 GHz, its peak gain is 2.1dBi:

| <b>Motorola Part Number</b> |
|-----------------------------|
| ML-2452-PTA4M3X3-1          |

#### 14.3.1.1 Facade Antenna Maximum Conducted Transmit Power Settings

The following is a transmit power table (Canadian domain) per facade antenna in the 2.4 GHz band:

| <b>20 MHZ CHANNEL</b> | <b>40 MHZ CHANNEL</b> | <b>LEGACY DSSS RATES (1, 2, 5.5, 11 MBPS)</b> | <b>LEGACY OFDM RATES (6,9,12,18,24,36, 48,54 MBPS)</b> | <b>802.11n HT20 RATES (MCS 0 MCS 15)</b> | <b>802.11n HT40 RATES (MCS 0 MCS15)</b> |
|-----------------------|-----------------------|---|--|--|---|
| 1                     |                       | 18.5  | 16.0   | 15.5                                     |   |
| 2                     |                       | 18.5  | 16.0   | 15.5                                     |   |
| 3                     | (1, 5)                | 18.5  | 16.0   | 15.5                                     | 12.5                                    |
| 4                     | (2, 6)                | 18.5  | 16.0   | 15.5                                     | 12.5                                    |
| 5                     | (3, 7)                | 18.5  | 16.0   | 15.5                                     | 12.5                                    |
| 6                     | (4, 8)                | 21.0  | 16.0   | 16.0                                     | 15.5                                    |
| 7                     | (5, 9)                | 20.0  | 16.0   | 15.5                                     | 12.5                                    |
| 8                     | (6, 10)               | 20.0  | 16.0   | 15.5                                     | 12.5                                    |
| 9                     | (7, 11)               | 20.0  | 16.0   | 15.5                                     | 12.5                                    |
| 10                    |                       | 20.0  | 16.0   | 15.5                                     |   |
| 11                    |                       | 20.0  | 16.0   | 15.5                                     |   |

### 14.3.2 MIMO Patch Antenna Model

The following is the RFS4011 MIMO patch antenna model for 2.4 GHz, its peak gain is 3.5dBi:

| <b>Motorola Part Number</b> |
|-----------------------------|
| ML-2452-PTA3M3-036          |

#### 14.3.2.1 MIMO Patch Antenna Maximum Conducted Transmit Power Settings

The following is a transmit power table (Canadian domain) per MIMO patch antenna in the 2.4 GHz band:

| <b>20 MHZ CHANNEL</b> | <b>40 MHZ CHANNEL</b> | <b>LEGACY DSSS RATES (1, 2, 5.5, 11 MBPS)</b> | <b>LEGACY OFDM RATES (6.9, 12, 18, 24, 36, 48, 54 MBPS)</b> | <b>802.11n HT20 RATES (MCS 0 MCS 15)</b> | <b>802.11n HT40 RATES (MCS 0 MCS15)</b> |
|-----------------------|-----------------------|---|---|--|---|
| 1                     |                       | 18.5  | 16.0  | 14.5                                     |   |
| 2                     |                       | 18.5  | 16.0  | 14.5                                     |   |
| 3                     | (1, 5)                | 18.5  | 16.0  | 14.5                                     | 11.5                                    |
| 4                     | (2, 6)                | 18.5  | 16.0  | 14.5                                     | 11.5                                    |
| 5                     | (3, 7)                | 18.5  | 16.0  | 14.5                                     | 11.5                                    |
| 6                     | (4, 8)                | 21.0  | 16.0  | 16.0                                     | 15.5                                    |
| 7                     | (5, 9)                | 19.0  | 16.0  | 14.5                                     | 11.5                                    |
| 8                     | (6, 10)               | 19.0  | 16.0  | 14.5                                     | 11.5                                    |
| 9                     | (7, 11)               | 19.0  | 16.0  | 14.5                                     | 11.5                                    |
| 10                    |                       | 19.0  | 16.0  | 14.5                                     |   |
| 11                    |                       | 19.0  | 16.0  | 14.5                                     |   |

### 14.3.3 Dipole Antenna Model

The following is the RFS4011 dipole antenna model for 2.4 GHz, its peak gain is 3.1dBi:

| <b>Motorola Part Number</b> |
|-----------------------------|
| ML-2452-HPA5-036            |

#### 14.3.3.1 Dipole Antenna Maximum Conducted Transmit Power Settings

The following is a transmit power table (Canadian domain) per dipole antenna in the 2.4 GHz band:

| <b>20 MHZ CHANNEL</b> | <b>40 MHZ CHANNEL</b> | <b>LEGACY DSSS RATES (1, 2, 5.5, 11 MBPS)</b> | <b>LEGACY OFDM RATES (6,9,12,18,24,36, 48,54 MBPS)</b> | <b>802.11n HT20 RATES (MCS 0 MCS 15)</b> | <b>802.11n HT40 RATES (MCS 0 MCS15)</b> |
|-----------------------|-----------------------|---|--|--|---|
| 1                     |                       | 19.0  | 14.0   | 14.0                                     |   |
| 2                     |                       | 19.0  | 14.0   | 14.0                                     |   |
| 3                     | (1, 5)                | 19.0  | 14.0   | 14.0                                     | 11.0                                    |
| 4                     | (2, 6)                | 19.0  | 14.0   | 14.0                                     | 11.0                                    |
| 5                     | (3, 7)                | 19.0  | 14.0   | 14.0                                     | 11.0                                    |
| 6                     | (4, 8)                | 21.5  | 15.5   | 15.5                                     | 14.0                                    |
| 7                     | (5, 9)                | 18.5  | 13.5   | 13.5                                     | 11.0                                    |
| 8                     | (6, 10)               | 18.5  | 13.5   | 13.5                                     | 11.0                                    |
| 9                     | (7, 11)               | 18.5  | 13.5   | 13.5                                     | 11.0                                    |
| 10                    |                       | 18.5  | 13.5   | 13.5                                     |   |
| 11                    |                       | 18.5  | 13.5   | 13.5                                     |   |

### 14.3.4 High-Gain Antenna Model

The following is the RFS4011 high-gain antenna model for 2.4 GHz, its peak gain is 7.5dBi:

| <b>Motorola Part Number</b> |
|-----------------------------|
| ML-2452-PNA7-01R            |

#### 14.3.4.1 High-Gain Antenna Maximum Conducted Transmit Power Settings

The following is a transmit power table (Canadian domain) per high-gain antenna in the 2.4 GHz band:

| <b>20 MHZ CHANNEL</b> | <b>40 MHZ CHANNEL</b> | <b>LEGACY DSSS RATES (1, 2, 5.5, 11 MBPS)</b> | <b>LEGACY OFDM RATES (6,9,12,18,24,36, 48,54 MBPS)</b> | <b>802.11n HT20 RATES (MCS 0 MCS 15)</b> | <b>802.11n HT40 RATES (MCS0 MCS15)</b> |
|-----------------------|-----------------------|---|--|--|--|
| 1                     |                       | 17.0  | 11.0   | 11.0                                     |  |
| 2                     |                       | 17.0  | 11.0   | 11.0                                     |  |
| 3                     | (1, 5)                | 17.0  | 11.0   | 11.0                                     | 7.5                                    |
| 4                     | (2, 6)                | 17.0  | 11.0   | 11.0                                     | 7.5                                    |
| 5                     | (3, 7)                | 17.0  | 11.0   | 11.0                                     | 7.5                                    |

## 14.4 Canada Regulatory Domain 5 GHz Band

### 14.4.1 Facade Antenna Model

The following is the RFS4011 facade antenna model for 5 GHz, its peak gain is 3.95dBi:

| <b>Motorola Part Number</b> |
|-----------------------------|
| ML-2452-PTA4M3X3-1          |

#### 14.4.1.1 Facade Antenna Maximum Conducted Transmit Power Settings

The following is a transmit power table (Canadian domain) per facade antenna in the 5 GHz band:

| <b>20 MHZ CHANNEL</b> | <b>40 MHZ CHANNEL</b> | <b>LEGACY OFDM RATES<br/>(6,9,12,18,24,36,48,54 MBPS)</b> | <b>802.11n HT20 RATES<br/>(MCS 0 MCS 15)</b> | <b>802.11n HT40 RATES<br/>(MCS 0 MCS 15)</b> |
|-----------------------|-----------------------|---|--|--|
| 36                    |                       | 10.0  | 10.0   |  |
| 38                    | (36, 40)              |   |  | 10.0   |
| 40                    |                       | 10.0  | 10.0   |  |
| 42                    |                       | 10.0  | 10.0   |  |
| 44                    |                       | 10.0  | 10.0   |  |
| 46                    | (44, 48)              |   |  | 10.0   |
| 48                    |                       | 10.0  | 10.0   |  |
| 52                    |                       |   |  |  |
| 54                    | (52, 56)              |   |  |  |
| 56                    |                       |   |  |  |
| 60                    |                       |   |  |  |
| 62                    | (60, 64)              |   |  |  |
| 64                    |                       |   |  |  |
| 100                   |                       |   |  |  |
| 102                   | (100, 104)            |   |  |  |
| 104                   |                       |   |  |  |
| 108                   |                       |   |  |  |
| 112                   |                       |   |  |  |
| 110                   | (108, 112)            |   |  |  |
| 116                   |                       |   |  |  |
| 118                   | (116, 120)            |   |  |  |
| 120                   |                       |   |  |  |
| 124                   |                       |   |  |  |

| <b>20 MHZ CHANNEL</b> | <b>40 MHZ CHANNEL</b> | <b>LEGACY OFDM RATES (6,9,12,18,24,36,48,54 MBPS)</b> | <b>802.11n HT20 RATES (MCS 0 MCS 15)</b> | <b>802.11n HT40 RATES (MCS 0 MCS 15)</b> |
|-----------------------|-----------------------|---|--|--|

#### 14.4.4 High-Gain Antenna Model

The following is the high-gain antenna model for 5 GHz, its peak gain is from 6.3 - 10dBi:

| <b>Motorola Part Number</b> |
|-----------------------------|
| ML-2452-PNA7-01R            |

##### 14.4.4.1 High-Gain Antenna Transmit Power Settings

The following is a transmit power table (Canadian domain) per high-gain antenna in the 5 GHz band:

| <b>20 MHZ CHANNEL</b> | <b>40 MHZ CHANNEL</b> | <b>LEGACY OFDM RATES<br/>(6,9,12,18,24,36,48,54 MBPS)</b> | <b>802.11n HT20 RATES<br/>(MCS 0 MCS 15)</b> | <b>802.11n HT40 RATES<br/>(MCS 0 MCS 15)</b> |
|-----------------------|-----------------------|---|--|--|
| 36                    |                       | 10.5  | 10.5   |  |
| 38                    | (36, 40)              |   |  | 9.5  |
| 40                    |                       | 10.5  | 10.5   |  |
| 42                    |                       | 10.5  | 10.5   |  |
| 44                    |                       | 10.5  | 10.5   |  |
| 46                    | (44, 48)              |   |  | 9.5  |
| 48                    |                       | 10.5  | 10.5   |  |
| 52                    |                       |   |  |  |
| 54                    | (52, 56)              |   |  |  |
| 56                    |                       |   |  |  |
| 60                    |                       |   |  |  |
| 62                    | (60, 64)              |   |  |  |
| 64                    |                       |   |  |  |
| 100                   |                       |   |  |  |
| 102                   | (100, 104)            |   |  |  |
| 104                   |                       |   |  |  |
| 108                   |                       |   |  |  |
| 112                   |                       |   |  |  |
| 110                   | (108, 112)            |   |  |  |
| 116                   |                       |   |  |  |
| 118                   | (116, 120)            |   |  |  |
| 120                   |                       |   |  |  |
| 124                   |                       |   |  |  |
| 126                   | (124, 128)            |   |  |  |
| 128                   |                       |   |  |  |

| <b>20 MHZ CHANNEL</b> | <b>40 MHZ CHANNEL</b> | <b>LEGACY OFDM RATES<br/>(6,9,12,18,24,36,48,54 MBPS)</b> | <b>802.11n HT20 RATES<br/>(MCS 0 MCS 15)</b> | <b>802.11n HT40 RATES<br/>(MCS 0 MCS 15)</b> |
|-----------------------|-----------------------|---|--|--|
| 132                   |                       |   |  |  |
| 134                   | (132, 136)            |   |  |  |
| 136                   |                       |   |  |  |
| 140                   |                       |   |  |  |
| 149                   |                       | 11.0  | 11.0   |  |
| 151                   | (149, 153)            |   |  | 11.0   |
| 153                   |                       | 11.0  | 11.0   |  |
| 157                   |                       | 11.0  | 11.0   |  |
| 159                   | (157, 161)            |   |  | 11.5   |
| 161                   |                       | 11.5  | 11.5   |  |
| 165                   |                       | 11.5  | 11.5   |  |

## 14.5 EU Regulatory Domain 2.4 GHz Band

### 14.5.1 Facade Antenna Model

The following is the RFS4011 facade antenna model for 2.4 GHz, the peak gain is 2.1dBi:

| <b>Motorola Part Number</b> |
|-----------------------------|
| ML-2452-PTA4M3X3-1          |

#### 14.5.1.1 Facade Antenna Maximum Conducted Transmit Power Settings

The following is a transmit power table (EU domain) per facade antenna in the 2.4 GHz band:

| <b>20 MHZ CHANNEL</b> | <b>40 MHZ CHANNEL</b> | <b>LEGACY DSSS RATES (1, 2, 5.5, 11 MBPS)</b> | <b>LEGACY OFDM RATES (6,9,12,18,24,36, 48,54 MBPS)</b> | <b>802.11n HT20 RATES (MCS 0 MCS 15)</b> | <b>802.11n HT40 RATES (MCS 0 MCS15)</b> |
|-----------------------|-----------------------|---|--|--|---|
| 1                     |                       | 6.5   | 4.0  | 4.0                                      |   |
| 2                     |                       | 6.0   | 3.5  | 3.5                                      |   |
| 3                     | (1, 5)                | 6.0   | 3.5  | 3.5                                      | 4.0                                     |
| 4                     | (2, 6)                | 6.0   | 3.5  | 3.5                                      | 3.5                                     |
| 5                     | (3, 7)                | 6.0   | 3.5  | 3.5                                      | 3.5                                     |
| 6                     | (4, 8)                | 6.0   | 3.5  | 3.5                                      | 3.5                                     |
| 7                     | (5, 9)                | 6.0   | 3.5  | 3.5                                      | 3.5                                     |
| 8                     | (6, 10)               | 6.0   | 3.5  | 3.5                                      | 3.5                                     |
| 9                     | (7, 11)               | 6.0   | 3.5  | 3.5                                      | 3.5                                     |
| 10                    |                       | 6.0   | 3.5  | 3.5                                      | 3.5                                     |
| 11                    |                       | 6.0   | 3.5  | 3.5                                      | 3.5                                     |
| 12                    |                       | 6.0   | 3.5  | 3.5                                      |   |
| 13                    |                       | 6.0   | 3.5  | 3.5                                      |   |
| 14                    |                       |   |  |  |   |

### 14.5.2 MIMO Patch Antenna Model

The following is the RFS4011 MIMO patch antenna model for 2.4 GHz, its peak gain is 3.5dBi:

| <b>Motorola Part Number</b> |
|-----------------------------|
| ML-2452-PTA3M3-036          |

#### 14.5.2.1 MIMO Patch Antenna Maximum Conducted Transmit Power Settings

The following is a transmit power table (EU domain) per MIMO patch antenna in the 2.4 GHz band:

| <b>20 MHZ CHANNEL</b> | <b>40 MHZ CHANNEL</b> | <b>LEGACY DSSS RATES (1, 2, 5.5, 11 MBPS)</b> | <b>LEGACY OFDM RATES (6.9, 12, 18, 24, 36, 48, 54 MBPS)</b> | <b>802.11n HT20 RATES (MCS 0 MCS 15)</b> | <b>802.11n HT40 RATES (MCS 0 MCS15)</b> |
|-----------------------|-----------------------|---|---|--|---|
| 1                     |                       | 7.5   | 5.5   | 5.5                                      |   |
| 2                     |                       | 7.5   | 5.5   | 5.5                                      |   |
| 3                     | (1, 5)                | 7.5   | 5.5   | 5.5                                      | 6.0                                     |
| 4                     | (2, 6)                | 7.5   | 5.5   | 5.5                                      | 6.0                                     |
| 5                     | (3, 7)                | 7.5   | 5.5   | 5.5                                      | 6.0                                     |
| 6                     | (4, 8)                | 7.5   | 5.5   | 5.5                                      | 6.0                                     |
| 7                     | (5, 9)                | 7.5   | 5.5   | 5.5                                      | 6.0                                     |
| 8                     | (6, 10)               | 7.5   | 5.5   | 5.5                                      | 6.0                                     |
| 9                     | (7, 11)               | 7.5   | 5.5   | 5.5                                      | 6.0                                     |
| 10                    |                       | 7.5   | 5.5   | 5.5                                      | 6.0                                     |
| 11                    |                       | 7.5   | 5.5   | 5.5                                      | 6.0                                     |
| 12                    |                       | 7.5   | 5.5   | 5.5                                      |   |
| 13                    |                       | 7.5   | 5.5   | 5.5                                      |   |
| 14                    |                       |   |   |  |   |

### 14.5.3 Dipole Antenna Model

The following is the RFS4011 dipole antenna model for 2.4 GHz, its peak gain is 3.1dBi:

| <b>Motorola Part Number</b> |
|-----------------------------|
| ML-2452-HPA5-036            |

#### 14.5.3.1 Dipole Antenna Maximum Conducted Transmit Power Settings

The following is a transmit power table (EU domain) per dipole antenna in the 2.4 GHz band:

| <b>20 MHZ CHANNEL</b> | <b>40 MHZ CHANNEL</b> | <b>LEGACY DSSS RATES (1, 2, 5.5, 11 MBPS)</b> | <b>LEGACY OFDM RATES (6.9, 12, 18, 24, 36, 48, 54 MBPS)</b> | <b>802.11n HT20 RATES (MCS 0 MCS 15)</b> | <b>802.11n HT40 RATES (MCS 0 MCS15)</b> |
|-----------------------|-----------------------|---|---|--|---|
| 1                     |                       | 8.5   | 6.5   | 6.5                                      |   |
| 2                     |                       | 8.5   | 6.5   | 6.5                                      |   |

## 14.7 Japan Regulatory Domain 2.4 GHz Band

### 14.7.1 Facade Antenna Model

The following is the RFS4011 facade antenna model for 2.4 GHz, the peak gain is 2.1dBi:

| <b>Motorola Part Number</b> |
|-----------------------------|
| ML-2452-PTA4M3X3-1          |

#### 14.7.1.1 Facade Antenna Maximum Conducted Transmit Power Settings

The following is a transmit power table (Japanese domain) per facade antenna in the 2.4 GHz band:

| <b>20 MHZ CHANNEL</b> | <b>40 MHZ CHANNEL</b> | <b>LEGACY DSSS RATES (1, 2, 5.5, 11 MBPS)</b> | <b>LEGACY OFDM RATES (6,9,12,18,24,36, 48,54 MBPS)</b> | <b>802.11n HT20 RATES (MCS 0 MCS 15)</b> | <b>802.11n HT40 RATES (MCS 0 MCS15)</b> |
|-----------------------|-----------------------|---|--|--|---|
| 1                     |                       | 10.5  | 12.0   | 12.0                                     |   |
| 2                     |                       | 10.5  | 11.5   | 11.5                                     |   |
| 3                     | (1, 5)                | 10.5  | 11.5   | 11.5                                     | 13.5                                    |
| 4                     | (2, 6)                | 10.5  | 11.5   | 11.5                                     | 13.0                                    |
| 5                     | (3, 7)                | 10.5  | 11.5   | 11.5                                     | 13.0                                    |
| 6                     | (4, 8)                | 10.5  | 11.5   | 11.5                                     | 13.0                                    |
| 7                     | (5, 9)                | 10.5  | 11.5   | 11.5                                     | 13.0                                    |
| 8                     | (6, 10)               | 10.5  | 11.5   | 11.5                                     | 13.0                                    |
| 9                     | (7, 11)               | 10.5  | 11.5   | 11.5                                     | 13.0                                    |
| 10                    | (8, 10)               | 10.5  | 11.5   | 11.5                                     | 13.0                                    |
| 11                    | (9, 13)               | 10.5  | 11.5   | 11.5                                     | 13.0                                    |
| 12                    |                       | 10.5  | 11.5   | 11.5                                     |   |
| 13                    |                       | 10.5  | 12.0   | 12.0                                     |   |
| 14                    |                       | 12.5  |  |  |   |

### 14.7.2 MIMO Patch Antenna Model

The following is the RFS4011 MIMO patch antenna model for 2.4 GHz, its peak gain is 3.5dBi:

| <b>Motorola Part Number</b> |
|-----------------------------|
| ML-2452-PTA3M3-036          |

#### 14.7.2.1 MIMO Patch Antenna Maximum Conducted Transmit Power Settings

The following is a transmit power table (Japanese domain) per MIMO patch antenna in the 2.4 GHz band:

| <b>20 MHZ CHANNEL</b> | <b>40 MHZ CHANNEL</b> | <b>LEGACY DSSS RATES (1, 2, 5.5, 11 MBPS)</b> | <b>LEGACY OFDM RATES (6,9,12,18,24,36, 48,54 MBPS)</b> | <b>802.11n HT20 RATES (MCS 0 MCS 15)</b> | <b>802.11n HT40 RATES (MCS 0 MCS15)</b> |
|-----------------------|-----------------------|---|--|--|---|
| 1                     |                       | 10.5  | 12.0   | 12.0                                     |   |

| 14                    |                       | 12.5  |  |  |   |

### 14.7.3 Dipole Antenna Model

The following is the RFS4011 dipole antenna model for 2.4 GHz, its peak gain is 3.1dBi:

| <b>Motorola Part Number</b> |
|-----------------------------|
| ML-2452-HPA5-036            |

#### 14.7.3.1 Dipole Antenna Maximum Conducted Transmit Power Settings

The following is a transmit power table (Japanese domain) per dipole antenna in the 2.4 GHz band:

| <b>20 MHZ CHANNEL</b> | <b>40 MHZ CHANNEL</b> | <b>LEGACY DSSS RATES (1, 2, 5.5, 11 MBPS)</b> | <b>LEGACY OFDM RATES (6,9,12,18,24,36, 48,54 MBPS)</b> | <b>802.11n HT20 RATES (MCS 0 MCS 15)</b> | <b>802.11n HT40 RATES (MCS 0 MCS15)</b> |
|-----------------------|-----------------------|---|--|--|---|
| 1                     |                       | 12.5  | 14.0   | 14.0                                     |   |
| 2                     |                       | 12.0  | 13.5   | 13.5                                     |   |
| 3                     | (1, 5)                | 12.0  | 13.5   | 13.5                                     | 15.0                                    |
| 4                     | (2, 6)                | 12.0  | 13.5   | 13.5                                     | 15.0                                    |
| 5                     | (3, 7)                | 12.0  | 13.5   | 13.5                                     | 15.0                                    |
| 6                     | (4, 8)                | 12.0  | 13.5   | 13.5                                     | 15.0                                    |
| 7                     | (5, 9)                | 12.0  | 13.5   | 13.5                                     | 15.0                                    |
| 8                     | (6, 10)               | 12.0  | 13.5   | 13.5                                     | 15.0                                    |
| 9                     | (7, 11)               | 12.0  | 13.5   | 13.5                                     | 15.0                                    |
| 10                    | (8, 10)               | 12.0  | 13.5   | 13.5                                     | 15.0                                    |
| 11                    | (9, 13)               | 12.0  | 13.5   | 13.5                                     | 15.0                                    |
| 12                    |                       | 12.0  | 13.5   | 13.5                                     |   |
| 13                    |                       | 12.5  | 14.0   | 14.0                                     |   |
| 14                    |                       | 14.5  |  |  |   |

### 14.7.4 High-Gain Antenna Model

The following is the RFS4011 high-gain antenna model for 2.4 GHz, its peak gain is 7.5dBi:

| <b>Motorola Part Number</b> |
|-----------------------------|
| ML-2452-PNA7-01R            |

#### 14.7.4.1 High-Gain Antenna Maximum Conducted Transmit Power Settings

The following is a transmit power table (Japanese domain) per high-gain antenna in the 2.4 GHz band:

| <b>20 MHZ CHANNEL</b> | <b>40 MHZ CHANNEL</b> | <b>LEGACY DSSS RATES (1, 2, 5.5, 11 MBPS)</b> | <b>LEGACY OFDM RATES (6,9,12,18,24,36, 48,54 MBPS)</b> | <b>802.11n HT20 RATES (MCS 0 MCS 15)</b> | <b>802.11n HT40 RATES (MCS0 MCS15)</b> |
|-----------------------|-----------------------|---|--|--|--|
| 1                     |                       | 8.0   | 9.0  | 9.0                                      |  |
| 2                     |                       | 8.0   | 9.0  | 9.0                                      |  |
| 3                     | (1, 5)                | 8.0   | 9.0  | 9.0                                      | 14.5                                   |
| 4                     | (2, 6)                | 8.0   | 9.0  | 9.0                                      | 14.0                                   |
| 5                     | (3, 7)                | 8.0   | 9.0  | 9.0                                      | 14.0                                   |
| 6                     | (4, 8)                | 8.0   | 9.0  | 9.0                                      | 14.0                                   |
| 7                     | (5, 9)                | 8.0   | 9.0  | 9.0                                      | 14.0                                   |
| 8                     | (6, 10)               | 8.0   | 9.0  | 9.0                                      | 14.0                                   |
| 9                     | (7, 11)               | 8.0   | 9.0  | 9.0                                      | 14.0                                   |
| 10                    | (8, 10)               | 8.0   | 9.0  | 9.0                                      | 14.0                                   |

| 12                    |                       | 8.0   | 9.0  | 9.0                                      |  |
| 13                    |                       | 8.0   | 9.5  | 9.5                                      |  |
| 14                    |                       | 10.0  |  |  |  |

## 14.8 Japan Regulatory Domain 5 GHz Band

### 14.8.1 Facade Antenna Model

The following is the RFS4011 facade antenna model for 5 GHz, its peak gain is 3.95dBi:

| <b>Motorola Part Number</b> |
|-----------------------------|
| ML-2452-PTA4M3X3-1          |

#### 14.8.1.1 Facade Antenna Maximum Conducted Transmit Power Settings

The following is a transmit power table (Japanese domain) per facade antenna in the 5 GHz band:

| <b>20 MHZ CHANNEL</b> | <b>40 MHZ CHANNEL</b> | <b>LEGACY OFDM RATES<br/>(6,9,12,18,24,36,48,54 MBPS)</b> | <b>802.11n HT20 RATES<br/>(MCS 0 MCS 15)</b> | <b>802.11n HT40 RATES<br/>(MCS 0 MCS 15)</b> |
|-----------------------|-----------------------|---|--|--|
| 36                    |                       | 10.5  | 11.0   |  |
| 38                    | (36, 40)              |   |  | 11.5   |
| 40                    |                       | 10.0  | 10.5   |  |
| 42                    |                       | 9.5   | 10.0   |  |
| 44                    |                       | 9.5   | 10.0   |  |
| 46                    | (44, 48)              |   |  | 11.0   |
| 48                    |                       | 9.5   | 10.0   |  |
| 52                    |                       |   |  |  |
| 54                    | (52, 56)              |   |  |  |
| 56                    |                       |   |  |  |
| 60                    |                       |   |  |  |
| 62                    | (60, 64)              |   |  |  |
| 64                    |                       |   |  |  |
| 100                   |                       |   |  |  |
| 102                   | (100, 104)            |   |  |  |
| 104                   |                       |   |  |  |
| 108                   |                       |   |  |  |
| 112                   |                       |   |  |  |
| 110                   | (108, 112)            |   |  |  |
| 116                   |                       |   |  |  |
| 118                   | (116, 120)            |   |  |  |
| 120                   |                       |   |  |  |
| 124                   |                       |   |  |  |

# 15

## ***AP-6511 Regulatory Domains***

The AP-6511 model Access Point contains two internal (embedded) dual-band antennas supporting both the 802.11bgn (2.4 GHz) and 802.11an (5.0 GHz) bands. No customer assembly or antenna orientation is required.

The AP-6511 radio can transmit on one or two antennas depending on the operating modes. The radio can receive on one or two antennas as well. The data rates supported are different in each case.

- 2.4 GHz Internal Antenna Peak Gain - 2dBi
- 5 GHz Internal Antenna Peak Gain - 4.5dBi

### **15.1 US Regulatory Domain 2.4 GHz Band**

The following is a transmit power table (US domain) per antenna in the 2.4 GHz band:

| <b>20 MHZ CHANNEL</b> | <b>40 MHZ CHANNEL</b> | <b>LEGACY DSSS RATES (1, 2, 5.5, 11 MBPS)</b> | <b>LEGACY OFDM RATES (6,9,12,18,24,36, 48,54 MBPS)</b> | <b>802.11n HT20 RATES (MCS 0 MCS 15)</b> | <b>802.11n HT40 RATES (MCS 0 MCS15)</b> |
|-----------------------|-----------------------|---|--|--|---|
| 1                     |                       | 23  | 17   | 18                                       |   |

# 16

## ***AP-621 and AP-6521 Regulatory Domains***

This chapter describes standard and high power transmission capabilities for AP-621 and AP-6521 access points in both the 2.4 and 5GHz radio bands. The information is provided for both the US and EU regulatory domains. AP-621 and AP-6521 access points support 802.11a/b/g/n in both standard and high power SKUs.

### **16.1 AP-621 (Standard Power) US Regulatory Domain 2.4GHz Band**

The following are standard power transmit tables (US domain) per listed antenna in the 2.4GHz band:

#### **16.1.1 Internal Antenna Model**

The following is an AP-621 standard transmit power table (US domain) per Internal antenna in the 2.4GHz band:

| <b>20 MHZ CHANNEL</b> | <b>40 MHZ CHANNEL</b> | <b>LEGACY DSSS RATES (1, 2, 5.5, 11 MBPS)</b> | <b>LEGACY OFDM RATES (6,9,12,18,24,36, 48,54 MBPS)</b> | <b>802.11n HT20 RATES (MCS 0 MCS 15)</b> | <b>802.11n HT40 RATES (MCS 0 MCS15)</b> |
|-----------------------|-----------------------|---|--|--|---|
| 1                     | Not Allowed           | 20  | 17   | 17                                       | Not Allowed                             |
| 2                     | Not Allowed           | 21  | 17   | 17                                       | Not Allowed                             |
| 3                     | (1, 5)                | 25  | 17   | 17                                       | 11                                      |
| 4                     | (2, 6)                | 25  | 17   | 17                                       | 13                                      |
| 5                     | (3, 7)                | 25  | 17   | 17                                       | 16                                      |
| 6                     | (4, 8)                | 25  | 17   | 17                                       | 16                                      |
| 7                     | (5, 9)                | 25  | 17   | 17                                       | 16                                      |
| 8                     | (6, 10)               | 25  | 17   | 17                                       | 16                                      |
| 9                     | (7, 11)               | 25  | 17   | 17                                       | 16                                      |
| 10                    | (8, 12)               | 22  | 17   | 17                                       | Not Allowed                             |
| 11                    | (9, 13)               | 22  | 17   | 16                                       | Not Allowed                             |

Internal antenna, peak gain = 3dBi

### 16.1.2 Dipole Antenna Model

The following is an AP-621 standard transmit power table (US domain) per Dipole antenna in the 2.4GHz band:

| <b>20 MHZ CHANNEL</b> | <b>40 MHZ CHANNEL</b> | <b>LEGACY DSSS RATES (1, 2, 5.5, 11 MBPS)</b> | <b>LEGACY OFDM RATES (6,9,12,18,24,36, 48,54 MBPS)</b> | <b>802.11n HT20 RATES (MCS 0 MCS 15)</b> | <b>802.11n HT40 RATES (MCS 0 MCS15)</b> |
|-----------------------|-----------------------|---|--|--|---|
| 1                     | Not Allowed           | 22  | 17   | 13                                       | Not Allowed                             |
| 2                     | Not Allowed           | 22  | 17   | 17                                       | Not Allowed                             |
| 3                     | (1, 5)                | 23  | 17   | 17                                       | 11                                      |
| 4                     | (2, 6)                | 23  | 17   | 17                                       | 12                                      |
| 5                     | (3, 7)                | 23  | 17   | 17                                       | 14                                      |
| 6                     | (4, 8)                | 25  | 17   | 17                                       | 16                                      |
| 7                     | (5, 9)                | 23  | 17   | 17                                       | 17                                      |
| 8                     | (6, 10)               | 23  | 17   | 17                                       | 17                                      |
| 9                     | (7, 11)               | 23  | 17   | 17                                       | 14                                      |
| 10                    | (8, 12)               | 22  | 17   | 17                                       | Not Allowed                             |
| 11                    | (9, 13)               | 22  | 16   | 16                                       | Not Allowed                             |

Dipole antenna, peak gain = 3dBi

### 16.1.3 Panel Antenna Model

The following is an AP-621 standard transmit power table (US domain) per Panel antenna in the 2.4GHz band:

| <b>20 MHZ CHANNEL</b> | <b>40 MHZ CHANNEL</b> | <b>LEGACY DSSS RATES (1, 2, 5.5, 11 MBPS)</b> | <b>LEGACY OFDM RATES (6,9,12,18,24,36, 48,54 MBPS)</b> | <b>802.11n HT20 RATES (MCS 0 MCS 15)</b> | <b>802.11n HT40 RATES (MCS 0 MCS15)</b> |
|-----------------------|-----------------------|---|--|--|---|
| 1                     | Not Allowed           | 18  | 11   | 14                                       | Not Allowed                             |
| 2                     | Not Allowed           | 19  | 17   | 17                                       | Not Allowed                             |
| 3                     | (1, 5)                | 24  | 18   | 17                                       | 8                                       |
| 4                     | (2, 6)                | 24  | 18   | 17                                       | 11                                      |
| 5                     | (3, 7)                | 24  | 18   | 17                                       | 13                                      |
| 6                     | (4, 8)                | 24  | 18   | 17                                       | 14                                      |
| 7                     | (5, 9)                | 24  | 18   | 17                                       | 12                                      |
| 8                     | (6, 10)               | 24  | 18   | 17                                       | 11                                      |
| 9                     | (7, 11)               | 24  | 18   | 17                                       | 7                                       |
| 10                    | (8, 12)               | 22  | 17   | 17                                       | Not Allowed                             |
| 11                    | (9, 13)               | 22  | 13   | 13                                       | Not Allowed                             |

Panel antenna, peak gain = 5dBi

### 16.1.4 Patch Antenna Model

The following is an AP-621 standard transmit power table (US domain) per Patch antenna in the 2.4GHz band:

| <b>20 MHZ CHANNEL</b> | <b>40 MHZ CHANNEL</b> | <b>LEGACY DSSS RATES (1, 2, 5.5, 11 MBPS)</b> | <b>LEGACY OFDM RATES (6,9,12,18,24,36, 48,54 MBPS)</b> | <b>802.11n HT20 RATES (MCS 0 MCS 15)</b> | <b>802.11n HT40 RATES (MCS 0 MCS15)</b> |
|-----------------------|-----------------------|---|--|--|---|
| 1                     | Not Allowed           | 21  | 16   | 15                                       | Not Allowed                             |
| 2                     | Not Allowed           | 22  | 16   | 16                                       | Not Allowed                             |
| 3                     | (1, 5)                | 25  | 16   | 16                                       | 10                                      |
| 4                     | (2, 6)                | 25  | 16   | 16                                       | 12                                      |
| 5                     | (3, 7)                | 25  | 16   | 16                                       | 15                                      |
| 6                     | (4, 8)                | 25  | 16   | 16                                       | 15                                      |
| 7                     | (5, 9)                | 25  | 16   | 16                                       | 15                                      |
| 8                     | (6, 10)               | 25  | 16   | 16                                       | 12                                      |
| 9                     | (7, 11)               | 25  | 16   | 16                                       | 9                                       |

External Patch antenna with peak gain = 3dBi

## 16.3 AP-6521 (High Power) US Regulatory Domain 2.4GHz Band

The following are high power transmit tables (US domain) per listed antenna in the 2.4GHz band:

### 16.3.1 Internal Antenna Model

The following is an AP-6521 high transmit power table (US domain) per Internal antenna in the 2.4GHz band:

| <b>20 MHZ CHANNEL</b> | <b>40 MHZ CHANNEL</b> | <b>LEGACY DSSS RATES (1, 2, 5.5, 11 MBPS)</b> | <b>LEGACY OFDM RATES (6,9,12,18,24,36, 48,54 MBPS)</b> | <b>802.11n HT20 RATES (MCS 0 MCS 15)</b> | <b>802.11n HT40 RATES (MCS 0 MCS15)</b> |
|-----------------------|-----------------------|---|--|--|---|
| 1                     | Not Allowed           | 19  | 14   | 14                                       | Not Allowed                             |
| 2                     | Not Allowed           | 19  | 15   | 15                                       | Not Allowed                             |
| 3                     | (1, 5)                | 19  | 15   | 15                                       | 10                                      |
| 4                     | (2, 6)                | 19  | 15   | 15                                       | 12                                      |
| 5                     | (3, 7)                | 19  | 15   | 15                                       | 14                                      |
| 6                     | (4, 8)                | 23  | 15   | 15                                       | 14                                      |
| 7                     | (5, 9)                | 21  | 15   | 15                                       | 14                                      |
| 8                     | (6, 10)               | 21  | 15   | 15                                       | 14                                      |
| 9                     | (7, 11)               | 21  | 15   | 15                                       | 14                                      |
| 10                    | (8, 12)               | 21  | 15   | 15                                       | Not Allowed                             |
| 11                    | (9, 13)               | 21  | 15   | 15                                       | Not Allowed                             |

Internal antenna, peak gain = 3dBi

### 16.3.2 Dipole Antenna Model

The following is an AP-6521 high transmit power table (US domain) per Dipole antenna in the 2.4GHz band:

| <b>20 MHZ CHANNEL</b> | <b>40 MHZ CHANNEL</b> | <b>LEGACY DSSS RATES (1, 2, 5.5, 11 MBPS)</b> | <b>LEGACY OFDM RATES (6,9,12,18,24,36, 48,54 MBPS)</b> | <b>802.11n HT20 RATES (MCS 0 MCS 15)</b> | <b>802.11n HT40 RATES (MCS 0 MCS15)</b> |
|-----------------------|-----------------------|---|--|--|---|
| 1                     | Not Allowed           | 21  | 17   | 13                                       | Not Allowed                             |
| 2                     | Not Allowed           | 21  | 17   | 16                                       | Not Allowed                             |
| 3                     | (1, 5)                | 25  | 17   | 16                                       | 10                                      |
| 4                     | (2, 6)                | 25  | 17   | 16                                       | 12                                      |
| 5                     | (3, 7)                | 25  | 17   | 16                                       | 13                                      |
| 6                     | (4, 8)                | 25  | 17   | 16                                       | 16                                      |
| 7                     | (5, 9)                | 25  | 17   | 16                                       | 17                                      |
| 8                     | (6, 10)               | 25  | 17   | 16                                       | 16                                      |
| 9                     | (7, 11)               | 25  | 17   | 16                                       | 13                                      |
| 10                    | (8, 12)               | 23  | 17   | 16                                       | Not Allowed                             |
| 11                    | (9, 13)               | 22  | 15   | 16                                       | Not Allowed                             |

Dipole antenna, peak gain = 3dBi

### 16.3.3 Panel Antenna Model

The following is an AP-6521 high transmit power table (US domain) per Panel antenna in the 2.4GHz band:

| <b>20 MHZ CHANNEL</b> | <b>40 MHZ CHANNEL</b> | <b>LEGACY DSSS RATES (1, 2, 5.5, 11 MBPS)</b> | <b>LEGACY OFDM RATES (6,9,12,18,24,36, 48,54 MBPS)</b> | <b>802.11n HT20 RATES (MCS 0 MCS 15)</b> | <b>802.11n HT40 RATES (MCS 0 MCS15)</b> |
|-----------------------|-----------------------|---|--|--|---|
| 1                     | Not Allowed           | 18  | 11   | 14                                       | Not Allowed                             |
| 2                     | Not Allowed           | 19  | 16   | 17                                       | Not Allowed                             |
| 3                     | (1, 5)                | 24  | 17   | 17                                       | 8                                       |
| 4                     | (2, 6)                | 24  | 17   | 17                                       | 11                                      |
| 5                     | (3, 7)                | 24  | 17   | 17                                       | 13                                      |
| 6                     | (4, 8)                | 24  | 17   | 17                                       | 14                                      |
| 7                     | (5, 9)                | 24  | 17   | 17                                       | 12                                      |
| 8                     | (6, 10)               | 24  | 17   | 17                                       | 11                                      |
| 9                     | (7, 11)               | 24  | 17   | 17                                       | 7                                       |
| 10                    | (8, 12)               | 22  | 17   | 17                                       | Not Allowed                             |
| 11                    | (9, 13)               | 22  | 13   | 13                                       | Not Allowed                             |

Panel antenna, peak gain = 4.5dBi

### 16.3.4 Patch Antenna Model

The following is an AP-6521 high transmit power table (US domain) per Patch antenna in the 2.4GHz band:

| <b>20 MHZ CHANNEL</b> | <b>40 MHZ CHANNEL</b> | <b>LEGACY DSSS RATES (1, 2, 5.5, 11 MBPS)</b> | <b>LEGACY OFDM RATES (6,9,12,18,24,36, 48,54 MBPS)</b> | <b>802.11n HT20 RATES (MCS 0 MCS 15)</b> | <b>802.11n HT40 RATES (MCS 0 MCS15)</b> |
|-----------------------|-----------------------|---|--|--|---|
| 1                     | Not Allowed           | 21  | 16   | 15                                       | Not Allowed                             |
| 2                     | Not Allowed           | 22  | 16   | 16                                       | Not Allowed                             |
| 3                     | (1, 5)                | 25  | 16   | 16                                       | 10                                      |
| 4                     | (2, 6)                | 25  | 16   | 16                                       | 12                                      |
| 5                     | (3, 7)                | 25  | 16   | 16                                       | 15                                      |
| 6                     | (4, 8)                | 25  | 16   | 16                                       | 15                                      |
| 7                     | (5, 9)                | 25  | 16   | 16                                       | 15                                      |
| 8                     | (6, 10)               | 25  | 16   | 16                                       | 12                                      |
| 9                     | (7, 11)               | 25  | 16   | 16                                       | 9                                       |
| 10                    | (8, 12)               | 19  | 16   | 16                                       | Not Allowed                             |
| 11                    | (9, 13)               | 18  | 14   | 13                                       | Not Allowed                             |

Patch antenna, peak gain = 5dBi

## 16.4 AP-6521 (High Power) US Regulatory Domain 5GHz Band

The following are high power transmit tables (US domain) per listed antenna in the 5GHz band:

### 16.4.1 Internal Antenna Maximum Conducted Transmit Power Settings

The following is an AP-6521 high transmit power table (US domain) per Internal antenna in the 5GHz band:

| <b>20 MHZ CHANNEL</b> | <b>40 MHZ CHANNEL</b> | <b>LEGACY OFDM RATES<br/>(6,9,12,18,24,36,48,54 MBPS)</b> | <b>802.11n HT20 RATES<br/>(MCS 0 MCS 15)</b> | <b>802.11n HT40 RATES<br/>(MCS 0 MCS 15)</b> |
|-----------------------|-----------------------|---|--|--|
| 36                    |                       | 11  | 12   | Not Allowed                                  |
| 38                    | (36, 40)              | 11  | 12   | 12   |
| 40                    |                       | 11  | 12   | Not Allowed                                  |
| 42                    |                       | 11  | 12   | Not Allowed                                  |
| 44                    |                       | 11  | 12   | Not Allowed                                  |
| 46                    | (44, 48)              | 11  | 12   | 12   |
| 48                    |                       | 11  | 12   | Not Allowed                                  |
| 52                    |                       |   |  | Not Allowed                                  |
| 54                    | (52, 56)              |   |  |  |
| 56                    |                       |   |  | Not Allowed                                  |
| 60                    |                       |   |  | Not Allowed                                  |

## ***Technical Support***

Comprehensive on-line support is available at the Support Central site at <http://supportcentral.motorola.com/>. Support Central provides our customers with a wealth of information and online assistance including developer tools, software downloads, product manuals and online repair requests.

When contacting the Motorola Support Center, please provide the following information:

- *serial number of unit*
- *model number or product name*
- *software type and version number*.
