Regulatory Information

This device is approved under Zebra Technologies Corporation.

This guide applies to Model Numbers: CC6000 and CC600.

All Zebra devices are designed to be compliant with the rules and regulations in the locations they are sold and will be labeled as required.

Local language translations are available at the following website: www.zebra.com/support.

Any changes or modifications to Zebra equipment not expressly approved by Zebra could void the user's authority to operate the equipment.

Declared maximum operating temperature:40°C.

RF Exposure Guidelines

!\ Safety Information

- Reducing RF Exposure Use Properly
- Only operate the device in accordance with the instructions supplied.
- The device complies with internationally recognized standards covering human
- exposure to electromagnetic fields from radio devices. For information on
- 'International' human exposure to electromagnetic fields, refer to the Zebra Declaration of Conformity (DoC) at zebra.com/doc

Potentially Hazardous Atmospheres – Fixed Installations For further information on the safety of RF energy from wireless devices, see

You are reminded of the need to observe restrictions on the use of radio devices www.zebra.com/responsibility located under Corporate Responsibility. in fuel depots, chemical plants etc., and areas where the air contains chemicals or

To comply with EU RF exposure requirements, this device must be operated in the hand with a minimum separation distance of 20 cm or more from a person's body. Other operating configurations should be avoided. This device must be powered from a 802.3af or 802.3at compliant power source

US and Canada

Co-located statement

To comply with FCC RF exposure compliance requirement, the antenna used for this transmitter must not be co-located or operating in conjunction with any other Wireless devices should be switched off wherever you are requested to do so in transmitter/antenna except those already approved in this filling.

> To comply with FCC RF exposure requirements, this device must be operated in the hand with a minimum separation distance of 20 cm or more from a person's body. Other operating configurations should be avoided.

IMPORTANT
Radiation Exposure Statement:

This equipment complies with IC radiation exposure limits set forth for an uncontrolled environment. This equipment should be installed and operated with minimum distance 20cm between the radiator and your body.

IMPORTANTE (Pour l'utilisation de dispositifs mobiles) Déclaration d'exposition aux radiations:

établies pour un environnement non contrôlé. Cet équipement doit être installé et utilisé avec un minimum de 20 cm de distance entre la source de rayonnement et votre corps.

LED Devices

Classified as 'EXEMPT RISK GROUP' according to IEC 62471:2006 and EN 62471:2008

Power Supply

which has been certified by the appropriate agencies, or by a Zebra approved NRTL Certified ITE (LPS) power supply with electrical ratings: Output 5.4 VDC, min 3A, with a recommended ambient temperature greater than 50° C. Use of alternative power supply will invalidate any approvals given to this unit and may be dangerous

Batteries

If internal RTC battery needs replacement, consult your service provider or the manufacturer of this device.

Battery Information

A Caution: Risk of explosion if battery is replaced by an incorrect type. Dispose /!\ of batteries according to instructions.

如果更換不正確之電池型式會有爆炸的風險 請依製造商說明書處理用過之電池

Connecting To a LAN Network

Please note that this device is not tested or authorized to be connected via Ethernet cable to a Local Area Network (LAN) in outdoors conditions. It may only be connected to an indoor LAN.

Radio Frequency Interference Requirements-FCC

Note: This equipment has been tested and found to comply with the limits for a Class B digital device. pursuant to Part 15 of the FCC rules. These limits FOR HOME OR OFFICE USE against harmful interference in a residential

installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However there is no quarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna
- Increase the separation between the equipment and receiver
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected
- Consult the dealer or an experienced radio/TV technician for help.

Radio Transmitters (Part 15)

This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) this device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

Zebra Technologies | 3 Overlook Point | Lincolnshire, IL 60069 USA

Radio Frequency Interference Requirements - Canada

Innovation, Science and Economic Development Canada ICES-003 Compliance Label: CAN ICES-3 (B)/NMB-3(B).

Radio Transmitters

This device complies with Industry Canada's licence-exempt RSSs. Operation is subject to the following two conditions: (1) This device may not cause interference: and (2) This device must accept any interference, including interference that may cause undesired operation of the device.

Le présent appareil est conforme aux CNR d'Industrie Canada applicables aux appareils radio exempts de licence. L'exploitation est autorisée aux deux conditions suivantes: (1) l'appareil ne doit pas produire de brouillage, et (2) l'utilisateur de l'appareil doit accepter tout brouillage radio électrique subi même si le brouillage est susceptible d'en compromettre le fonctionnement.

For RLAN Devices:

The use of 5 GHz RLAN in Canada has the following restriction:

Restricted Band 5.60 - 5.65 GHz

Pour les équipements RLAN:

L'utilisation de la bande RLAN 5 GHz au Canada présente les limitations

Bande restreinte 5.60 - 5.65 GHz

Marking and European ' Economic Area (EEA)

The use of 5 GHz RLAN throughout the EEA has the following restrictions:

5.15 - 5.35 GHz is restricted to indoor use only.

Statement of Compliance

Zebra hereby declares that this radio equipment is in compliance with Directives. 2014/53/EU and 2011/65/EU. The full text of the EU Declaration of Conformity is China available at the following internet address: www.zebra.com/doc.

Declarações Regulamentares para CC6000/CC600 - Brasil

Nota: A marca de certificação se aplica ao Transceptor, mod CC6000/CC600. Este equipamento não tem direito à proteção contra interferência prejudicial e não pode causar interferência em Sistemas devidamente autorizados.

Para maiores informações sobre ANATEL consulte o site: www.anatel.gov.br Este produto está homologado pela Anatel, de acordo com os procedimentos regulamentados pela Resolução n°242/2000 e atende aos reguisitos técnicos aplicados, incluindo os limites de exposição da Taxa de Absorção Específica referente a campos elétricos, magnéticos e eletromagnéticos de radiofreguência. de acordo com as Resoluções nº 303/2002 e 533/2009.

a 150mW:

Conforme a Resolución 755 parte j.1), se ajustará el dispositivo a operar en interiores en las siguientes bandas con una potencia máxima radiada no superior

- 2 400 a 2 483 5MHz
- 5.150 a 5.250MHz
- 5.250 a 5.350MHz
- 5.470 a 5.725MHz
- 5.725 a 5.850MHz

Además, de acuerdo con Resolución 755, para la banda 5.150 a 5.250 MHz la operación del equipo estará restringida al interior de inmuebles y la densidad de potencia radiada máxima no excederá 7,5mW/MHz en cualquier banda de 1MHz o su valor equivalente de 0,1875mW/25 kHz en cualquier banda de 25 kHz.

Para la tecnología NFC en la banda 13.553 a 13.567 kHz, la intensidad de campo Ukraine eléctrico no excederá 20 mV/m a 30 metros, conforme a Resolucion 755 parte Art
